Drawing from his extensive business management experience, Pradip Chand turns traditional wisdom on its head when he proposes that Brand Loyalty is inversely proportional to the income and education levels of the 'knowledge consumer'. He examines how and why brands become strategic assets, traces the evolution of the knowledge consumer and what companies do to protect equity of the brands they have nurtured over the decades. A new approach to building a Brand Loyalty that gives marketers a competitive edge in today's high-tech, high-stake brand-hostile environment. The book combines the knowledge with engaging real life case studies and proven examples.

THE NEW YORK TIMES BESTSELLER From the Civil War to our combustible present, White Rage reframes the continuing conversation about race in America, chronicling the history of the powerful forces opposed to black progress. Since the abolishment of slavery in 1865, every time African Americans have made advances towards full democratic participation, white reaction has fuelled a rollback of any gains. Carefully linking historical flashpoints – from the post-Civil War Black Codes and Jim Crow to expressions of white rage after the election of America's first black president – Carol Anderson renders visible the long lineage of white rage and the different names under which it hides. Compelling and dramatic in the history it relates, White Rage adds a vital new dimension to the conversation about race in America. In the fall of 1930, David Packard left his hometown of Pueblo, Colorado, to enroll at Stanford University, where he befriended another freshman, Bill Hewlett. After graduation, Hewlett and Packard decided to throw their lots in together. They tossed a coin to decide whose name should go first on the notice of incorporation, then cast about in search of products to sell. Today, the one-car garage in Palo Alto that housed their first workshop is a California historic landmark: the birthplace of Silicon Valley. And Hewlett-Packard has produced thousands of innovative products for millions of customers throughout the world. Their little company employs 98,400 people and boasts constantly increasing sales that reached \$25 billion in 1994. While there are many successful companies, there is only one Hewlett-Packard, because from the very beginning, Hewlett and Packard had a way of doing things that was contrary to the prevailing management strategies. In defining the objectives for their company, Packard and Hewlett wanted more than profits, revenue growth and a constant stream of new, happy customers. Hewlett-Packard's success owes a great deal to many factors, including openness to change, an unrelenting will to win, the virtue of sustained hard work and a company-wide commitment to community involvement. As a result, HP now is universally acclaimed as the world's most admired technology company; its wildly successful approach to business has been immortalized as The HP Way. In this book, David Packard tells the simple yet extraordinary story of his life's work and of the truly exceptional company that he and Bill Hewlett started in a garage 55 years ago.

YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

Bala dreams of making Tamil films and directing his favourite actor Rajnikanth ? a dream that leads him naturally to study engineering in college. This earns him his father's approval and the opportunity to export himself to America. As Director of Design at Flexit Inc., thinking up new ways to help Americans shed the excess weight around their middles and in their wallets, he is at least some kind of director. Bala loves America, and America it seems loves him even more. He has everything he needs to be happy: a green card, a satellite dish to watch cricket and a companion to share his home ? albeit one with a very limited vocabulary. But he is now less than a year away from the big 30, and if he doesn't act fast he might have to settle for whichever bride his Amma chooses. So begins Bala's quest for romance as he meets both American and Indian women some who are too old, others too young, and yet others just too stuck up. Will he ever find someone just right for him ? and good enough to inherit his mother's Corelle dishes?

Lawrence Lessig, “the most important thinker on intellectual property in the Internet era”, masterfully argues that never before in human history has the power to control creative progress been so concentrated in the hands of the powerful few, the so-called Big Media. Never before have the cultural powers- that-be been able to exert such control over what we can and can’t do with the culture around us. Our society defends free markets and free speech; why then does it permit such top-down control? To lose our long tradition of free culture, Lawrence Lessig shows us, is to lose our freedom to create, our freedom to build, and, ultimately, our freedom to imagine.
