sold Alaska to the U.S. Instead, Alaska is a rough, beautiful country ruled by a famously eccentric royal family, including oldest daughter, Princess Alexandria, whose acid wit and bad case of insomnia have turned her into a tabloid darling, a palace problem, and overall. . . The Royal Pain Marine biologist Dr. Shel ("Never Sheldon") Rivers has a problem. Some princess expects him to wait on her, hand and dimpled foot. His boss is taken with the royal redhead--brunette, whatever, it's not like he keeps track of that stuff--and nobody realizes that he just wants to be left alone in his lab. All alone. All the time. Weekends, holidays. . .it's all good. Now here's Miss Royalpants, insisting that he escort her around the marine institute, explain what he's doing, kiss her until her toes curl. . .no, wait, that was his idea. She's not even apologetic about being born into a royal family! Says it's his problem to overcome, not hers. Which leaves him with one option: to kiss her again. And again. And. . . So she's nothing like he expected. In fact, Dr. Rivers can see that this fantastic, exasperating woman has problems no princess should ever have to deal with. And he has an idea to help her get some much-needed sleep. Of course, it involves getting very, very tired beforehand, but if she's up to it, then so is he. . . In this delightfully madcap sequel to *The Royal Treatment*, the Baranov family is back and as unpredictable as ever, and a prickly princess and cranky Ph.D. are about to discover that love conquers attitude every time. . .

Prussia

This is not an historical novel in the ordinary sense. It is something new: the life of an actual royal family, whose story is so rich and varied that it falls naturally into the form of a modern novel. The heroine is Princess Henrietta of England, known to family as Minette. She is the Duchess of Orleans, and linked dramatically to the fate of her brother, Charles II, and that of her cousin, Louis XIV.

This book marks the first comprehensive history of Britain's naval bulwark, the Home Fleet. It illuminates the vital role that fleet played in preserving Britain as a base of operations against Hitler. We see portrayed the hard days of blockade, patrol, and battle that encompassed the Home Fleet's war. And we see how that war was made harder by weaknesses at the Admiralty and by the damaging interference of the Minister of Defence - Winston Churchill.

Proceedings of the Royal Irish Academy

With her stammering tongue and quiet ways, Cadence Piper has always struggled to be accepted. After the death of her mother, Cadence sets her heart on becoming a nurse, both to erase the stain her brother has left on the family's honor and to find long-sought approval in the eyes of her father. When Dorothea Dix turns her away due to her young age and pretty face, Cadence finds another way to serve . . . singing to the soldiers in Judiciary Square Hospital. Only one stubborn

doctor stands in her way. Joshua Ivy is an intense man with a compassionate heart for the hurting and downtrodden. The one thing he can't have is an idealistic woman destroying the plans he's so carefully laid. When the chaos of war thrusts Cadence into the middle of his clandestine activities, he must decide if the lives at stake, and his own heart, are worth the risk of letting Cadence inside. Everything changes when Joshua and Cadence unearth the workings of a secret society so vile, the course of their lives, and the war, could be altered forever. If they fight an enemy they cannot see, will the One who sees all show them the way in the darkest night?

On his return from India, Commander Joe Sandilands, now adept at the arts of dynamic diplomacy, finds himself up to his neck in a tricky political situation. A war-weary London is reeling from IRA atrocities and Joe is further plagued by the machinations of a spy-ring being run under his nose by a Russian emigree princess. When a war hero is gunned down and the life of an even more popular

Englishman threatened, Joe knows he only has days to root out the woman who is behind the killings: Irish? Russian? Or somebody quite other? With the aid of the proposed victim who offers himself as bait, and the services of a woman police constable, Joe discovers that the murderer's motive is not political but much more devious and deranged. And when the mask comes off, the killer's identity shocks even the battle-hardened commander. Praise for Barbara Cleverly: 'Cleverly's (novel) evokes and in some way surpasses the work of Agatha Christie' Publishers Weekly 'The atmosphere of the dying days of the Raj is colourfully captured' Sunday Telegraph 'A great blood and guts blockbuster' Guardian 'Spectacular and dashing. Spellbinding' New York Times Book Review 'Stellar as always' New York Times Book Review 'Atmospheric intricately plotted' Kirkus Review

A lawyer by profession, Theodore Martin (1816-1909) gained literary distinction as both a humorous essayist and versatile translator. He found his greatest success, however, in the role of biographer to Prince Albert (1819-61). Commissioned by Queen Victoria to memorialise her late husband, this five-volume work was first

published between 1875 and 1880. Intended as a continuation of the biography begun by Charles Grey (also reissued in this series), it has been described as 'less adulatory in tone than might be expected'. A treasury of letters and memoranda, it presents a detailed portrait of the character, words and deeds of a man whose life was necessarily immersed in the great events of his time. Volume 5 covers Albert's final years, from 1859 to his protracted illness and death in 1861 at the age of forty-two.
