Position Pieces for Cello is designed to give students a logical and fun way to learn their way around the fingerboard. Each hand position is introduced with exercises called "Target Practice," "Geography Quiz," and "Names and Numbers." Following these exercises are tuneful cello duets which have been specifically composed to require students to play in that hand position. In this way, students gain a thorough knowledge of how to find the hand positions and, once there, which notes are possible to play. Using these pieces (with names like "I Was a Teenage Monster," "The Irish Tenor," and "I've Got the Blues, Baby"), position study on the cello has never been so much fun!

Compiled by Alwin Schroeder, a former cellist with the Boston Symphony Orchestra and an experienced teacher, this collection of 80 exercises constitutes the first book of a three-volume set. Schroeder drew upon his extensive experience to create original études for instructing students, and in this work he combines them with several others by his distinguished nineteenth-century European colleagues: Karl Schröder. Ferdinand Büchler, Friedrich Dotzauer, Auguste Francomme, Friedrich Grützmacher, and Sebastian Lee. The carefully selected studies are arranged in order of increasing complexity, and Schroeder provides suggestions for fingering, bowing, and dynamics. Cello students and teachers will find these exercises a splendid resource for the improvement of technique and performance.
