The Gingerbread Boy

This publication is the revised edition of the Cued Articulation range. The previously separate titles Cued Articulation and Cued Vowels are now combined and updated, with this edition covering consonants, vowels, demonstrative images, and full color coding throughout. The book was originally devised to help severely speech and language handicapped children to see a sound and hear a letter by the use of easy and logical hand cues. The Cued Articulation system has, over the last three decades, proved to be an invaluable teaching tool. Its potential and practicality is widespread and utilized by speech pathologists, speech and language therapists, remedial and reading recovery teachers who find the approach helpful in showing phoneme-grapheme relationships, and primary teachers who use it in the classroom to teach children the sounds of speech. Teachers who teach correct pronunciation to those who have English as a second language also find it extremely useful, as do teachers of the hearing impaired who want their students to see the sounds they cannot hear. Also available to compliment the book is an instructional, interactive DVD (# 9780864319180), which includes demonstrations of the cues and sounds.

Guided by bright, clever artwork, kids are empowered to put the final clues together for themselves to solve this silly rhyme crime, then guess at the name-nabber's next sneaky move. From Head to Toe Board Book

From Kadir Nelson, winner of the Caldecott Honor and the Coretta Scott King Author and Illustrator Awards, comes a transcendent picture book in the tradition of Margaret Wise Brown about a lost little bear searching for home. This simple story works on so many levels: as the tale of a bear who finds his way home with the help of his animal friends; as a reassuring way to show children how to comfort themselves and find their way in everyday life; and on a more philosophical level, as a method of teaching readers that by listening to your heart and trusting yourself, you will always find a true home within yourself—and that even when it feels like you are alone, you never really are. When Zach shoves his little brother to the floor, he knows he did something wrong. Even so, it's hard to apologize—especially when Alex kind of deserved it! Like any seven-year-old, Zach tries to ignore the problem, but finally, with his mom's help, he learns the four steps to apologizing: 1) say what you did; 2) say how it made the other person feel; 3) say what you could have done instead; 4) make it up to the person. The apology strategy is presented as the "four-square" apology, which is illustrated as a square divided into four quarters with a prompt in each. Easy to understand and easy to remember. Zach Rules Series Zach struggles with social issues like getting along, handling frustrations, making mistakes, and other everyday problems typical of young kids. From their heads down to their toes, kids will be wriggling, jiggling, and giggling as they try to keep up with these animals! Alligators wiggle, elephants stop, gorillas thump, and giraffes bend. Can you do it? 'I can do it!' is the confidence-building message of this fun-filled interactive picture book. A variety of familiar animals invite young children to copy their antics, and as they play, they will learn such important skills as careful listening, focusing attention, and following instructions. Just as alphabet books introduce the very young child to letters and simple words, From Head to Toe introduces the basic body parts and simple body movements. And in the same way that children progress from understanding simple words to reading and writing sentences and stories, so they will progress from simple body movements to dancing, gymnastics, and other sports and activities, with confidence and pleasure. Eric Carle's colorful collages have delighted children for more than a generation. Each book provides hours of fun while encouraging them to stretch their imaginations. Talkabout

Zach and his family go to the beach, but Zach is having a lousy day. First, he dropped his toothbrush in the toilet. Then his best friend went to someone else's birthday party instead of joining him. But most frustrating of all, he can't get his kite to fly! Zach kicks sand, yells angry words, and asks his dad if they can just go home now. Instead, his dad teaches him a simple, three-step approach to get a handle on frustration and find a way to enjoy himself even when things aren't going his way: 1) name it (why are you frustrated?); 2) tame it (self-regulation exercises such as deep breathing or visualization); 3) reframe it (change your thoughts to change your feelings). The three-point strategy is presented as the three corners of a triangle and is illustrated as the corners of Zach's kite. Easy to understand and easy to remember. Zach Rules Series Zach struggles with social issues like getting along, handling frustrations, making mistakes, and other everyday problems typical of young kids.
