Post-socialist Jokes in Estonia

Edited by the cocreator of the Guided Inquiry Design® (GID) framework as well as an educator, speaker, and international consultant on the topic, this book explains the nuances of GID in the high school context. It also addresses background research and explains guided inquiry and the information search process. • Enables teachers, school librarians, and other educational partners to simultaneously target outcomes that bring about deep understanding and address curricular goals • Offers a practical, concepts-based approach to inquiry learning, complete units of study in a variety of content areas, and a discussion of the role emotions in the learning process • Includes ready-to-implement Guided Inquiry Design® (GID) lesson plans written by practicing high school librarians and teachers who have been refining their GID curricula for years • Serves to heighten student engagement at the high school level by going beyond fact-finding to foster deeper understanding and knowledge creation • Provides an explicit structure for developing instructional partnerships and collaborative teams within the school and with the larger community

Great Books of the Western World: -20. Thomas Aquinas

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute

American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.
