### The Murder of Roger Ackroyd

The New York Times bestselling account of one of history's most brutal -- and forgotten -- massacres, when the Japanese army destroyed China's capital city on the eve of World War II In December 1937, one of the most horrific atrocities in the long annals of wartime barbarity occurred. The Japanese army swept into the ancient city of Nanking (what was then the capital of China), and within weeks, more than 300,000 Chinese civilians and soldiers were systematically raped, tortured, and murdered. In this seminal work, Iris Chang, whose own grandparents barely escaped the massacre, tells this history from three perspectives: that of the Japanese soldiers, that of the Chinese, and that of a group of Westerners who refused to abandon the city and created a safety zone, which saved almost 300,000 Chinese. Drawing on extensive interviews with survivors and documents brought to light for the first time, Iris Chang's classic book is the definitive history of this horrifying episode. "Chang vividly, methodically, records what happened, piecing together the abundant eyewitness reports into an undeniable tapestry of horror." - Adam Hochschild, Salon !--[if !supportAnnotations]-- !--[if !supportAnnotations]-- !--[endif]--

Now in its fifth, expanded edition, *Using Sources Effectively, Fifth Edition* targets the two most prominent problems in current research-paper writing: the increase in unintentional plagiarism and the ineffective use of research source material. Designed as a supplementary textbook for both undergraduate and graduate courses, this book will help every student who uses research in writing. Included in this edition are coverage of research strategies and source selection (Chapter 2), a chapter on quoting sources effectively (Chapter 4), and a chapter on sentence patterns (Chapter 10). APA and MLA citation styles have been updated throughout the text. To the student: This book was written to give you the knowledge and tools you can use to make your research-based writing more powerful and effective. Here are some examples: Mini-Research Projects at the end of each chapter to sharpen your research and evaluation skills A set of practical, useful rhetorical devices to help improve the clarity and impact of your writing Increased emphasis on synthesis writing—weaving source use into your own thinking—to give your writing more interest and persuasive power Instruction in close reading to help you better grasp what an author is discussing or arguing Strategies for organizing and positioning your sources to strengthen your central argument.

In the essay, Carnegie argues that the accumulation of wealth is beneficial to society and the government should take no action to impede it. He wrote, "The man who dies rich dies disgraced." and practiced what he preached and spent his last years giving away his vast fortune.

"Agatha Christie's indelibly etched characters have entertained millions across the years and a love of her work has brought together generations of readers—a singular achievement for any author and an inspiration to writers across the literary landscape."—Jacqueline Winspear, New York Times bestselling author of the Maisie Dobbs novels In this official edition featuring exclusive content from the Queen of Mystery, Hercule Poirot comes out of retirement in one of Agatha Christie's ten favorite novels, which was also voted by the British Crime Writers'

Association as the “Best Crime Novel of all Time.” Roger Ackroyd knew too much. He knew that the woman he loved had poisoned her brutal first husband. He suspected also that someone had been blackmailing her. Then, tragically, came the news that she had taken her own life with an apparent drug overdose. However, the evening post brought Roger one last fatal scrap of information, but before he could finish reading the letter, he was stabbed to death. Luckily one of Roger’s friends and the newest resident to retire to this normally quiet village takes over—none other than Monsieur Hercule Poirot . . . Not only beloved by generations of readers, *The Murder of Roger Ackroyd* was one of Agatha Christie’s own favorite works—a brilliant whodunit that firmly established the author’s reputation as the Queen of Mystery.

In *Losing the News*, Pulitzer Prize-winning journalist Alex S. Jones offers a probing look at the epochal changes sweeping the media, changes which are eroding the core news that has been the essential food supply of our democracy. At a time of dazzling technological innovation, Jones says that what stands to be lost is the fact-based reporting that serves as a watchdog over government, holds the powerful accountable, and gives citizens what they need. In a tumultuous new media era, with cutthroat competition and panic over profits, the commitment of the traditional news media to serious news is fading. Indeed, as digital technology shatters the old economic model, the news media is making a painful passage that is taking a toll on journalistic values and standards. Journalistic objectivity and ethics are under assault, as is the bastion of the First Amendment. Jones characterizes himself not as a pessimist about news, but a realist. The breathtaking possibilities that the web offers are undeniable, but at what cost? Pundits and talk show hosts have persuaded Americans that the crisis in news is bias and partisanship. Not so, says Jones. The real crisis is the erosion of the iron core of news, something that hurts Republicans and Democrats alike. *Losing the News* depicts an unsettling situation in which the American birthright of fact-based, reported news is in danger. But it is also a call to arms to fight to keep the core of news intact. Praise for the hardcover: "Thoughtful." --New York Times Book Review "An impassioned call to action to preserve the best of traditional newspaper journalism." --The San Francisco Chronicle "Must reading for all Americans who care about our country's present and future. Analysis, commentary, scholarship and excellent writing, with a strong, easy-to-follow narrative about why you should care, makes this a candidate for one of the best books of the year." --Dan Rather

### **The Art Of Rhetoric**

Points of Departure encourages a return to empirical research about writing, presenting a wealth of transparent, reproducible studies of student sources. The volume shows how to develop methods for coding and characterizing student texts, their choice of source material, and the resources used to teach information literacy. In so doing, the volume advances our understanding of how students actually write. The contributors offer methodologies, techniques, and suggestions for research that move beyond decontextualized guides to grapple with the messiness of research-in-process, as well as design, development, and expansion. Serviss and Jamieson's model of RAD writing studies research is transcontextual and based on hybridized or mixed methods. Among these methods are citation context analysis, research-aloud protocols, textual and genre analysis, surveys, interviews, and focus groups, with an emphasis on process and knowledge as contingent. Chapters report on research projects at different stages and across institution types—from pilot to multi-site, from community college to research university—focusing on the methods and artifacts employed. A rich mosaic of research about research, Points of Departure advances knowledge about student writing and serves as a guide for both new and experienced researchers in writing studies. In *The Art of Rhetoric*, Aristotle demonstrates the purpose of rhetoric—the ability to convince people using your skill as a speaker rather than the validity or logic of your arguments—and outlines its many forms and techniques. Defining important philosophical terms like *ethos*, *pathos*, and *logos*, Aristotle establishes the earliest foundations of modern understanding of rhetoric, while providing insight into its historic role in ancient Greek culture. Aristotle's work, which dates from the fourth century B.C., was written while the author lived in Athens, remains one of the most influential pillars of philosophy and has been studied for centuries by orators, public figures, and politicians alike. HarperTorch brings great works of non-fiction and the dramatic arts to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world. From the Trade Paperback edition.

Although the WPA's contribution to writing faculty development and curriculum development is widely recognized, less well-known is the important role research plays. The aim of this collection is to develop that understanding as well as help others identify additional opportunities for significant intellectual work. The essays in this collection describe inquiry that has been conducted by WPAs whose writing programs are the sites of both research and application. Part I describes and conceptualizes specific research projects conducted by WPAs, providing a detailed picture of the richness and complexity of administrative research. In Part II, the contributors raise and reflect on issues about WPA research in general, drawing on concrete experiences of particular WPAs and specific writing programs.

In the spirit of her blockbuster #1 New York Times bestseller *The Happiness Project*, Gretchen Rubin embarks on a new project to make home a happier place. One Sunday afternoon, as she unloaded the dishwasher, Gretchen Rubin felt hit by a wave of homesickness. Homesick—why? She was standing right in her own kitchen. She felt homesick, she realized, with love for home itself. “Of all the elements of a happy life,” she thought, “my home is the most important.” In a flash, she decided to undertake a new happiness project, and this time, to focus on home. And what did she want from her home? A place that calmed her, and energized her. A place that, by making her feel safe, would free her to take risks. Also, while Rubin wanted to be happier at home, she wanted to appreciate how much happiness was there already. So, starting in September (the new January), Rubin dedicated a school year—September through May—to making her home a place of greater simplicity, comfort, and love. In *The Happiness Project*, she worked out general theories of happiness. Here she goes deeper on factors that matter for home, such as possessions, marriage, time, and parenthood. How can she control the cubicle in her pocket? How might she spotlight her family’s treasured possessions? And it really was time to replace that dud toaster. Each month, Rubin tackles a different theme as she experiments with concrete, manageable resolutions—and this time, she coaxes her family to try some resolutions, as well. With her signature blend of memoir, science, philosophy, and experimentation, Rubin’s passion for her subject jumps off the page, and reading just a few chapters of this book will inspire readers to find more happiness in their own lives.

### **Rhetoric: Discovery and Change**

Understanding and Evaluating Research: A Critical Guide aims to sensitize students to the necessity of learning how not to defer to the mysterious authority of the experts, but rather to learn how to be a critical consumer of others' research, and to gain confidence in their ability to be producers of research. Sue McGregor shows students how to be research literate, and how to find, critique and apply other people's scholarship. This textbook is grounded in a solid understanding of the prevailing research methodologies for creating new knowledge (philosophical underpinnings), which in turn dictate problem posing, theory selection, and research methods (tasks for sampling, collecting and analyzing data, and reporting results).

### **The "gospel of Wealth" Essays and Other Writings**

A central theme throughout the impressive series of philosophical books and articles Stephen Toulmin has published since 1948 is the way in which assertions and opinions concerning all sorts of topics, brought up in everyday life or in academic research, can be rationally justified. Is there one universal system of norms, by which all sorts of arguments in all sorts of fields must be judged, or must each sort of argument be judged according to its own norms? In *The Uses of Argument* (1958) Toulmin sets out his views on these questions for the first time. In spite of initial criticisms from logicians and fellow philosophers, *The Uses of Argument* has been an enduring source of inspiration and discussion to students of argumentation from all kinds of disciplinary background for more than forty years.

### **Documenting Sources in MLA Style: 2016 Update**

When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?
