In an exhilarating tale of historic adventure, the Pulitzer Prize-winning author of *Confederates in the Attic* retraces the voyages of Captain James Cook, the Yorkshire farm boy who drew the map of the modern world. Captain James Cook's three epic journeys in the 18th century were the last great voyages of discovery. His ships sailed 150,000 miles, from the Arctic to the Antarctic, from Tasmania to Oregon, from Easter Island to Siberia. When Cook set off for the Pacific in 1768, a third of the globe remained blank. By the time he died in Hawaii in 1779, the map of the world was substantially complete. Tony Horwitz vividly recounts Cook's voyages and the exotic scenes the captain encountered: tropical orgies, taboo rituals, cannibal feasts, human sacrifice. He also relives Cook's adventures by following in the captain's wake to places such as Tahiti, Savage Island, and the Great Barrier Reef to discover Cook's embattled legacy in the present day. Signing on as a working crewman aboard a replica of Cook's vessel, Horwitz experiences the thrill and terror of sailing a tall ship. He also explores Cook the man: an impoverished farmboy who broke through the barriers of his class and time to become the greatest navigator in British history. By turns harrowing and hilarious,

insightful and entertaining, BLUE LATITUDES brings to life a man whose voyages helped create the 'global village' we know today.

## **American Birding Association Field Guide to Birds of Hawaii**

Many people first encounter Hawai'i through the imagination—a postcard picture of hula girls, lu'aus, and plenty of sun, surf, and sea. While Hawai'i is indeed beautiful, Native Hawaiians struggle with the problems brought about by colonialism, military occupation, tourism, food insecurity, high costs of living, and climate change. In this brilliant reinvention of the travel guide, artists, activists, and scholars redirect readers from the fantasy of Hawai'i as a tropical paradise and tourist destination toward a multilayered and holistic engagement with Hawai'i's culture and complex history. The essays, stories, artworks, maps, and tour itineraries in *Detours* create decolonial narratives in ways that will forever change how readers think about and move throughout Hawai'i. ## Sunny Skies, Shady Characters

For fans of *The Glass Castle* and *Educated*, comes mystery author Toby Neal's personal story of surviving a wild childhood in paradise. We never call it homeless. We're just camping in the jungle on Kauai. We live in a place everyone calls paradise. Sure, Kauai's beautiful, with empty beaches, drip-castle mountains, and perfect surf but we've been camping for six months, eating boiled chicken feed for breakfast, and wearing camouflage clothes so no one sees us trespassing in our jungle hideout. The cockroaches leave rainbow colors all over everything from eating the crayons we left outside the tent, and now a tractor is coming to scrape our camp into the river. Standing in front of the tent in my nightgown, clinging to my sister as we face the tractor, I know my own truth: I just want to be normal. But Mom and Pop are addicted. Addicted to Kauai's beauty, to drugs, to surfing, to living a life according to their own rules out from under their high-achieving parents' judgmental eyes. I'm just their red-headed, mouthy oldest kid. What I want doesn't matter. But I'm smart. I will make a different life for myself someday if I keep up my grades no matter what happens. No matter how often we run out of food. No matter how many times I change schools or don't go to school at all. No matter how many bullies beat me up for the color of my skin. I might be growing up wild in Hawaii, but I have dreams I'm going to reach, no matter how crazy things get.

## **Moon Hawaii**

For thirty years starting in the mid-1970s, the byline of Jim Dooley appeared on riveting investigative stories of organized crime and political corruption that headlined the front page of Honolulu's morning daily. In *Sunny Skies, Shady Characters*, James Dooley revisits highlights of his career as a hard-hitting investigative reporter for the Honolulu Advertiser and, in later years, for KITV television and the online Hawaii Reporter. His lively backstories on how he chased these high-profile scandals make fascinating reading, while providing an insider's look at the business of journalism and the craft of investigative reporting. Dooley's first assignment as an investigative journalist involved the city housing project of Kukui Plaza, which introduced him to the "pay to play" method of awarding government contracts to obliging consultants. In later stories, he scrutinized bloody struggles over illicit gambling revenue, the murder of a city prosecutor's son, local syndicate ties to the Teamsters Union, and the dealings of Bishop Estate. His groundbreaking coverage of the forays by yakuza into Hawaii and the continental United States were the first of its kind in American journalism. As Dooley pursued stories from the underside of island society, names of respected public figures and those of violent criminals filled his notebook: entertainer Don Ho, U.S. Senator Daniel Inouye, Governors George Ariyoshi and Ben Cayetano, Mayor Frank Fasi, and notorious felons Henry Huihui, Nappy Pulawa, and Ronnie Ching. Woven throughout is the name of Big Island rancher Larry Mehau—was he the "godfather of organized crime" in Hawaii as alleged by the FBI, or simply an ex-cop who befriended power brokers in the course of doing business for his security guard firm? The book includes a timeline of Mehau's activities to allow readers to judge for themselves.

## **Gender: Your Guide**

"An invaluable resource for both new and veteran allies...obvious and necessary" (Library Journal, starred review) information for everyone who wants to learn more about how to navigate gender diversity in today's families, communities, and workplaces. The days of two genders—male, female; boy, girl; blue, pink—are over, if they ever existed at all. Gender is now a global conversation, and one that is constantly evolving. More people than ever before are openly living their lives as transgender men or women, and many transgender people are coming out as neither men nor women, instead living outside of the binary. Gender is changing, and this change is gaining momentum. We all want to do and say the right things in relation to gender diversity—whether at a job interview, at parent/teacher night, and around the table at family dinners. But where do we begin? From the differences among gender identity, gender expression, and sex, to the use of gender-neutral pronouns like singular they/them, to thinking about your own participation in gender, *Gender: Your Guide* serves as "a warm, inviting guide to a complicated area" (The Globe and Mail, Toronto). Professor and gender diversity advocate Lee Airton, PhD, explains how gender works in everyday life; how to use accurate terminology to refer to transgender, non-binary, and/or gender non-conforming individuals; and how to ask when you aren't sure what to do or say. It

provides the information you need to talk confidently and compassionately about gender diversity, whether simply having a conversation or going to bat as an advocate. Just like gender itself, being gender-friendly is a process for all of us. As revolutionary a resource as *Our Bodies, Ourselves, Gender: Your Guide* is “greatly needed...an impactful tool for creating a world more supportive of people of all genders” (INTO! Magazine).
