### **All the Pretty Horses**

### **Alcoholics Anonymous**

Overnight Love is a novella that is tied to the Dead Heat Ranch series, but can be read as a standalone, and was originally published in the Cowboys Last All Night boxed set. MacKenzie Catlay never expected a blind date to lead to one of the best nights of her life. She also never expected sparks to fly when she runs into the sexy cowboy who helped her evade the drunken guy she was supposed to meet. Lucas Burch wasn't looking for a woman when he finds himself coming to MacKenzie's rescue. Twice. But can Lucas look beyond the pain of his past and give in to her? And can Kenzie convince him that just because he doesn't believe in love at first sight doesn't mean they can't welcome this overnight love?

### **Remains of Innocence**

Do you get up every morning, spend close to an hour or more getting ready, pick out the perfect outfit, make sure your makeup is suitable, then style your hair just so? Do you slip your feet into your favorite heels, lock your modest one-bedroom apartment, climb into your practical car? Do you drive twenty minutes to downtown, find a spot in the company parking garage? If you do, then you're very much like me. However, I think our stories will differ significantly once you get to your office and I get to mine. Sure, it's possible you work in a high-rise office building in the heart of downtown. It could be any downtown office in any big city, in fact. New York, Chicago, Dallas. The location doesn't matter. It's even feasible to think that you're a secretary for a multibillion-dollar PR firm. You could even have four bosses like I do. Four mouthwatering male bosses, even. But, like I said, at that point, our stories will likely be drastically different. In order for you to understand why, I'll have to start at the beginning

### **Real Frank Zappa Book**

Kids all over the world help collect seeds, weed gardens, milk goats and herd ducks. From a balcony garden with pots of lettuce to a farm with hundreds of cows, kids can pitch in to bring the best and freshest products to their families'

tables—and to market. Loaded with accessible information about the many facets of farming, *Down to Earth* takes a close look at everything from what an egg carton tells you to why genetic diversity matters—even to kids.

## **Beautifully Brutal**

Cut off from the life of ranching he has come to love by his grandfather's death, John Grady Cole flees to Mexico, where he and his two companions embark on a rugged and cruelly idyllic adventure

## **Curtis**

“Fluent, mordant, authentic, propulsive...wonderfully lit from within” (Lee Child, *The New York Times Book Review*), this critically acclaimed, stunningly mature literary debut is the darkly comic story of a car thief on the run in the gritty and arid landscape of the 1970s Texas panhandle. In this “stellar debut,” (*Publishers Weekly*) car thief Troy Falconer returns home after years of wandering to reunite with his younger brother, Harlan. The two set out in search of Harlan’s wife, Bettie, who’s left him cold and run away with the little money he had. When stealing a station wagon for their journey, Troy and Harlan find they’ve accidentally kidnapped a Mennonite girl, Martha Zacharias, sleeping in the back of the car. But Martha turns out to be a stubborn survivor who refuses to be sent home, so together, these unlikely road companions haphazardly attempt to escape across the Mexican border, pursued by the police and Martha’s vengeful father. But this is only one layer of Troy’s story. Through interjecting entries from his journal that span decades of an unraveling life, we learn that Troy has become so estranged from society that he’s shunned the very idea of personal property. Instead of claiming possessions, he works motels, stealing the suitcases and cars of men roughly his size, living with their things until those things feel too much like his own, at which point he finds another motel and vanishes again into another man’s identity. Richly nuanced and complex, “like a nesting doll, [Presidio] continually uncovers stories within stories” (Ian Stansel, author of *The Last Cowboys of San Geronimo*). With a page-turning plot, prose as gritty and austere as the novel’s Texas panhandle setting, and a determined yet doomed cast of characters ranging from con artists to religious outcasts, this “rich and rare book” (Annie Proulx, author of *Barkskins*) packs a kick like a shot of whiskey. Perfect for fans of Cormac McCarthy, Denis Johnson, and Larry McMurtry, who said that Kennedy “captures the funny yet tragic relentlessness of survival in an unforgiving place. Let’s hope he keeps his novelistic cool and brings us much, much more.”

## **Hard to Hold**

## **Semantics**

The Singularity. It is the era of the posthuman. Artificial intelligences have surpassed the limits of human intellect. Biotechnological beings have rendered people all but extinct. Molecular nanotechnology runs rampant, replicating and reprogramming at will. Contact with extraterrestrial life grows more imminent with each new day. Struggling to survive and thrive in this accelerated world are three generations of the Macx clan: Manfred, an entrepreneur dealing in intelligence amplification technology whose mind is divided between his physical environment and the Internet; his daughter, Amber, on the run from her domineering mother, seeking her fortune in the outer system as an indentured astronaut; and Sirhan, Amber's son, who finds his destiny linked to the fate of all of humanity. For something is systematically dismantling the nine planets of the solar system. Something beyond human comprehension. Something that has no use for biological life in any form

Against his better judgment, Jeff Endsley didn't put up a fight when Mack walked away, although his absence left a gaping hole in Jeff's life. ## **A Taste of Cowboy**

Why have so many central and inner cities in Europe, North America and Australia been so radically revamped in the last three decades, converting urban decay into new chic? Will the process continue in the twenty-first century or has it ended? What does this mean for the people who live there? Can they do anything about it? This book challenges conventional wisdom, which holds gentrification to be the simple outcome of new middle-class tastes and a demand for urban living. It reveals gentrification as part of a much larger shift in the political economy and culture of the late twentieth century. Documenting in gritty detail the conflicts that gentrification brings to the new urban 'frontiers', the author explores the interconnections of urban policy, patterns of investment, eviction, and homelessness. The failure of liberal urban policy and the end of the 1980s financial boom have made the end-of-the-century city a darker and more dangerous place. Public policy and the private market are conspiring against minorities, working people, the poor, and the homeless as never before. In the emerging revanchist

city, gentrification has become part of this policy of revenge.
