"Beautiful, brilliant, bold Tantamount to a slice from the Americana songbook." —Christopher John Stephens, PopMatters With luminous insight and fervent prose, Andre Perry's debut collection of personal essays, *Some of Us Are Very Hungry Now*, travels from Washington, DC, to Iowa City to Hong Kong in search of both individual and national identity. While displaying tenderness and a disarming honesty, Perry catalogs racial degradations committed on the campuses of elite universities and liberal bastions like San Francisco while coming of age in America. The essays in *Some of Us Are Very Hungry Now* take the form of personal reflection, multiple choice questions, screenplays, and imagined talk-show conversations, while traversing the daily minefields of childhood schoolyards and Midwestern dive-bars. The impression of Perry's personal journey is arresting and beguiling, while announcing the author's arrival as a formidable American voice. "A complete, deep, satisfying read The variety of structures, formats, and rhythms Perry uses in *Some of Us Are Very Hungry Now* is extraordinary These essays shine with broken humanity and announce the arrival of a new voice in contemporary nonfiction, but they do so with heaps of melancholia and frustration instead of answers. That Perry can hurt us and keep us asking for more is a testament to his talent as a storyteller." —Gabino Iglesias, NPR

Some of Us Are Very Hungry Now

Undrowned is a book-length meditation for social movements and our whole species based on the subversive and transformative guidance of marine mammals. Our aquatic cousins are queer, fierce, protective of each other, complex, shaped by conflict, and struggling to survive the extractive and militarized conditions our species has imposed on the ocean. Gumbs employs a brilliant mix of poetic sensibility and naturalist observation to show what they might teach us, producing not a specific agenda but an unfolding space for wondering and questioning. From the relationship between the endangered North Atlantic Right Whale and Gumbs's Shinnecock and enslaved ancestors to the ways echolocation changes our understandings of "vision" and visionary action, this is a masterful use of metaphor and natural models in the service of social justice.

A Figure of the Rain: There Is Nothing Inside of Him

Notebook. 120 blank lined pages. Oscar Wilde quote.

And Some of Us Much Worse

In this "splendid tale of high-seas adventure" (Marcus J. Guillory, author of *Red Now and Later*), two enemies become the unlikeliest of allies as they fight to save their own lives aboard a hell ship headed into the dangerous unknown. The Civil War is over, though for Jupiter Smith, a former slave and Union soldier, many battles still lie ahead. He returns to the plantation he worked on before the war in search of his woman, but instead finds his old master gone mad, haunting the ruins like a ghost. Out of pity for the now mentally ill colonel, Jupiter strangles him and heads west to seek a new life in San Francisco. When the colonel's son, Confederate soldier Archer Smith, arrives home and finds his father murdered, he vows revenge upon Jupiter for all he has lost—following his former slave to the far reaches of the continent. But things take a new turn as Archer's desire for retribution is overwhelmed by his dependency on opium, and he ends up the target of a gang of "crimpers"...the very gang that Jupiter works for in San Francisco. When Jupiter fails in an attempt to save Archer, they both end up shanghaied aboard a ship headed on a dangerous mission and ruled by a merciless captain. Will the two Smiths work together to stay alive and return home, or will they become victims of the sea, the crew, and their mad captain?

This is the first book in a new vampire series called 'Memoirs of a Vampire Countess' by DC Johnson. This first book, written from the perspective of Countess Isabella, has been signed to a movie deal and will be in theaters in 2013. My name is Isabella. I am Countess of the Moon Coven. In his eyes, I belong to him because he chose me, he made me. In my eyes, I belong only to the night. Since leaving, I have placed my entire created coven in danger, am partially responsible for creating a new strain of vampires, and now the vampire world threatens you humans as much as myself. I am writing this journal to you, in hopes that you do not hold my crimes against me. What I am about to reveal to you is indescribablebut it is truth that will save your lifeand maybe mine. From woman's suffrage to Babe Ruth's home runs, from Louis Armstrong's jazz to Franklin Delano Roosevelt's four presidential terms, from the finale of one world war to the dramatic close of the second, War, Peace, and All That Jazz presents the story of some of the most exciting years in U.S. history. With the end of World War I, many Americans decided

to live it up, going to movies, driving cars, and cheering baseball games a plenty. But alongside this post WWI spree was high unemployment, hard times for farmers, ever present racism, and, finally, the Depression, the worst economic disaster in U.S. history, flip flopping the nation from prosperity to scarcity. Along came one of our country's greatest leaders, F.D.R., who promised a New Deal, gave Americans hope, and then saw them through the horrors and victories of World War II. These three decades full of optimism and despair, progress and Depression, and, of course, War, Peace, and All That Jazz forever changed the United States. We Are All In The Gutter, But Some Of Us Are Looking At The Stars

This work chronicles America's troubling relationship with race through four interrelated stories: the transformation of a once-racist Birmingham school system; a Kansas City neighborhood's fight against housing discrimination; the curious racial divide of the Madison Avenue ad world; and a Louisiana Catholic parish's forty-year effort to build an integrated church. An exploration of race relations, this book offers a portrait of race in America. In a book that is part reportage, part history, part social commentary, the author explores why the civil rights movement ultimately produced such little true integration in schools, neighborhoods, offices, and churches, the very places where social change needed to unfold. Weaving together the personal, intimate stories of everyday people, black and white, he reveals the strange, sordid history of what was supposed to be the end of Jim Crow, but turned out to be more of the same with no name. He shows us how far we have come in our journey to leave mistrust and anger behind, and how far all of us have left to go.

Reamy Jansen, San Francisco Chronicle*Some of Us Did Not Die brings together a rich sampling of the late poet June Jordan's prose writings. The essays in this collection, which include her last writings and span the length of her extraordinary career, reveal Jordan as an incisive analyst of the personal and public costs of remaining committed to the ideal and practice of democracy. Willing to venture into the most painful contradictions of American culture and politics, Jordan comes back with lyrical honesty, wit, and wide-ranging intelligence in these accounts of her reckoning with life as a teacher, poet, activist, and citizen.

The Firebrand and the First Lady

"In 1938, the twenty-eight-year-old Pauli Murray wrote a letter to the president and first lady, Franklin and Eleanor Roosevelt, protesting racial segregation in the South. Eleanor wrote back. So began a friendship that would last for a quarter-century, as Pauli became a lawyer, a principal strategist in the fight to protect Title VII of the 1964 Civil Rights Act, and a cofounder of the National Organization for Women, and Eleanor became a diplomat and first chair of the United Nations Commission on Human Rights. Two decades in the making, and drawing on letters, journals, diaries, and interviews, this monumental work shows how the relationship between a writer-turned-activist and the first lady not only had a profound effect on each of their lives, but also impacted the struggle for social justice."--Page 4 of cover.

Some of Us Did Not Die

One of the Best Books of the Year: San Francisco Chronicle, Financial Times Most of us have only one story to tell . . . only one that matters, only one finally worth telling. This is mine. One summer in the sixties, in a staid suburb south of London, nineteen-year-old Paul comes home from university and is urged by his mother to join the tennis club. There he's partnered with Susan Macleod, a fine player who's forty-eight, confident, witty, and married, with two nearly adult daughters. She is a warm companion, her bond with Paul immediate. And soon, inevitably, they are lovers. Basking in the glow of one another, they set up house together in London. Decades later, Paul looks back at how they fell in love and how—gradually, relentlessly—everything fell apart. As he turns over his only story in his mind, examining it from different vantage points, he finds himself confronted with the contradictions and slips of his own memory—and the ways in which our narratives and our lives shape one another. Poignant, vivid and profound, *The Only Story* is a searing novel of memory, devotion, and how first love fixes a life forever.

And Some Of Us Much Worse is the story of Pamela Odger's early life. It takes place from 1927 in England, except for the four war years 1940-1944, when she lived in the United States. It is the story of a privileged childhood where she gradually recognizes and rebels against the class system. Written with sensitivity and humour, *And Some Of Us Much Worse* is an intimate look at growing up in England.

Wonderfully spooky." —Jia Tolentino, The New Yorker "A feminist manifesto threaded through imaginative fiction; it's the most evocative, impressive collection I've read this year." —Daniel Johnson, The Paris Review From the acclaimed author of Mr. Splitfoot, Samantha Hunt's first collection of stories, *The Dark Dark*, blends the literary and the fantastic and brings us characters on the verge—girls turning into women, women turning into deer, people doubling or becoming ghosts, and more Step into *The Dark Dark*, where an award-winning, acclaimed novelist debuts her first collection of short stories and conjures entire universes in just a few pages—conjures, splits in half, mines for humor, destroys with absurdity, and regenerates. In prose that sparkles and haunts, Samantha Hunt playfully pushes the bounds of the expected and fills every corner with vibrant life, imagining numerous ways in which the weird might poke its way through the mundane. Each of these ten haunting, inventive tales brings us to the brink—of creation, mortality and immortality, infidelity and transformation, technological innovation and historical revision, loneliness and communion, and every kind of love. Laced with lyricism, hope, Hunt's characteristic sly wit, and her unflinching gaze into the ordinary horrors of human existence, *The Dark Dark* celebrates the mysteries and connections that swirl around us. It's never all the same, Hunt tells us. It changes a tiny bit every time. See for yourself.

A perfect introduction for new readers and a must-have for avid fans, this New York Times Notable Book includes "Bloodchild," winner of both the Hugo and the Nebula awards and "Speech Sounds," winner of the Hugo Award. Appearing in print for the first time, "Amnesty" is a story of a woman named Noah who works to negotiate the tense and co-dependent relationship between humans and a species of invaders. Also new to this collection is "The Book of Martha" which asks: What would you do if God granted you the ability—and responsibility—to save humanity from itself? Like all of Octavia Butler's best writing, these works of the imagination are parables of the contemporary world. She proves constant in her vigil, an unblinking pessimist hoping to be proven wrong, and one of contemporary literature's strongest voices.

The Perl Journal (TPJ) did something most print journals aspire to, but few succeed. Within a remarkable short time, TPJ acquired a cult-following and became the voice of the Perl community. Every serious Perl programmer subscribed to it, and every notable Perl guru jumped at the opportunity to write for it. Back issues were swapped like trading cards. No longer in print format, TPJ remains the quintessential spirit of Perl--a publication for and by Perl programmers who see fun and beauty in an admittedly quirky little language. Games, Diversions, and Perl Culture is the third volume of The Best of the Perl Journal, compiled and re-edited by the original editor and publisher of The Perl Journal, Jon Orwant. In this series, we've taken the very best (and still relevant) articles published in TPJ over its 5 years of publication and immortalized them into three volumes. The 47 articles included in this volume are simply some of the best Perl articles ever written on the subjects of games, diversions, and the unique culture of this close-knit community, by some of the best Perl authors and coders. Games, Diversions & Perl Culture focuses on entertaining topics that make Perl users such fanatics about the language. You'll find all of the playful features TPJ offered over the years, including the Obfuscated Perl Contests, Perl Quiz Shows, humor articles, and renowned one-line recipes. The book also contains a panoply of quirky applications of Perl, including genetic algorithms, home automation, music programming, and an entire section on natural language processing. This anthology is an unmatched compendium of Perl lore.

Some of Us Did Not Die

Out of the womens movement of the 1980s and 90s emerged small groups of women who purchased land together, usually in the country, sometimes in the wilderness. This Land, with its blend of fiction, memoir, poetry and essay, describes and reflects upon one such venture: eight women who bought 50 acres of Adirondack forestland in which they camped and built shelters, then more abiding homes. From diverse backgrounds they shared the American dream of a place for us, a place where they could find both sanctuary and adventure, solidarity and solitude, change and support. These survivors of 60s and 70s ferment and activism anticipated the challenges of group living, but coming from cities, they had no idea how much they would be changed by their encounters with the nature which surrounded them--its storms and vistas, animal visits, tree energies, and powers of water, fire, stars, lightning. For each of the eight women these meetings with natural others provided discoveries which helped them chart the whole of their lives, while guiding them toward paths of environmental guardianship. This is a story about how place shapes friendship and friendship informs place.

Lady Windermere's Fan

From birth certificates and marriage licenses to food safety regulations and speed limits, law shapes nearly every moment of our lives. Ubiquitous and ambivalent, the law is charged with both maintaining social order and protecting individual freedom. In this book, Cynthia L. Cates and Wayne V. McIntosh explore this ambivalence and document the complex relationship between the web of law and everyday life. They consider the forms and functions of the law, charting the American legal structure and judicial process, and explaining key legal roles. They then detail how it influences the development of individual identity and human relationships at every stage of our life cycle, from conception to the grave. The authors also use the word "web" in its technological sense, providing a section at the end of each chapter that directs students to relevant and useful Internet sites. Written for upper-level undergraduate and graduate students in law and society courses, Law and the Web of Society contains original research that also makes it useful to scholars. In daring to ask difficult questions such as "When does life begin?" and "Where does law begin?" this book will stimulate thought and debate even as it presents practical answers.
