The Americans

Known for its clear, insightful analytical narrative and balanced approach, America's History, Concise Edition is a brief, affordable text that brings America's diverse past to life. The Concise Edition features the full narrative of the parent text, select images and maps, built-in primary sources and skills-based pedagogy that gives students practice in thinking historically

Making America: A History of the United States

America Is

This new Handbook is a comprehensive collection of cutting-edge essays on all aspects of Latin American Security by a mix of established and emerging scholars. The Routledge Handbook of Latin American Security identifies the key contemporary

topics of research and debate, taking into account that the study of Latin America's comparative and international politics has undergone dramatic changes since the end of the Cold War, the return of democracy and the re-legitimization and re-arming of the military against the background of low-level uses of force short of war. Latin America's security issues have become an important topic in international relations and Latin American studies. This Handbook sets a rigorous agenda for future research and is organised into five key parts: • The Evolution of Security in Latin America • Theoretical Approaches to Security in Latin America • Different 'Securities' • Contemporary Regional Security Challenges • Latin America and Contemporary International Security Challenges With a focus on contemporary challenges and the failures of regional institutions to eliminate the threat of the use of force among Latin Americans, this Handbook will be of great interest to students of Latin American politics, security studies, war and conflict studies and International Relations in general.

The American Promise Value Edition, Volume II: From 1865

The new two-color Value Edition of The American Promise is the ideal solution for instructors and students who want a full-length narrative at a low price. A clear political framework supports a dynamic social and cultural story enlivened by the voices of hundreds of Americans who help students connect with history and grasp important concepts. With the complete supplements package from the full text, the Value Edition offers everything cost-conscious instructors and students want and need for their U.S. history courses.

John Foster Dulles and the Diplomacy of the Cold War

This volume examines the origins and early years of the Cold War in the first comprehensive historical reexamination of the period. A team of leading scholars shows how the conflict evolved from the geopolitical, ideological, economic and sociopolitical environments of the two world wars and interwar period.

The American Pageant

A Companion to American Gothic features a collection of original essays that explore America's gothic literary tradition. Routledge Handbook of American Foreign Policy

This new Handbook offers a wide-ranging overview of current scholarship on the Cold War, with essays from many leading scholars. The field of Cold War history has consistently been one of the most vibrant in the field of international studies. Recent scholarship has added to our understanding of familiar Cold War events, such as the Korean War, the Cuban Missile Crisis and superpower détente, and shed new light on the importance of ideology, race, modernization, and transnational movements. The Routledge Handbook of the Cold War draws on the wealth of new Cold War scholarship, bringing together essays on a diverse range of topics such as geopolitics, military power and technology and strategy. The chapters also address the importance of non-state actors, such as scientists, human rights activists and the Catholic Church, and examine the importance of development, foreign aid and overseas assistance. The volume is organised into nine parts: Part I: The Early Cold War Part II: Cracks in the Bloc Part III: Decolonization, Imperialism and its Consequences Part IV: The Cold War in the Third World Part V: The Era of Detente Part VI: Human Rights and Non-State Actors Part VII: Nuclear Weapons, Technology and Intelligence Part VIII: Psychological Warfare, Propaganda and Cold War Culture Part IX: The End of the Cold War This new Handbook will be of great interest to all students of Cold War history, international history, foreign policy, security studies and IR in general.

Cold War

A fierce critique of civil religion as the taproot of America's bid for global hegemony Pulitzer Prize-winning historian Walter A. McDougall argues powerfully that a pervasive but radically changing faith that "God is on our side" has inspired U.S. foreign policy ever since 1776. The first comprehensive study of the role played by civil religion in U.S. foreign relations over the entire course of the country's history, McDougall's book explores the deeply infused religious rhetoric that has sustained and driven an otherwise secular republic through peace, war, and global interventions for more than two hundred years. From the Founding Fathers and the crusade for independence to the Monroe Doctrine, through World Wars I and II and the decades-long Cold War campaign against "godless Communism," this coruscating polemic reveals the unacknowledged but freely exercised dogmas of civil religion that bind together a "God blessed" America, sustaining the nation in its pursuit of an ever elusive global destiny.

The Cambridge History of the Cold War

A comprehensive look at the hundred-year history of the Cold War, from the rise of Lenin and communism to the foreign

policy of George W. Bush. -- CNN's 24-part series, telecast in late 1998, is still alive and well on CNN Interactive. -- Who says the Cold War is over? Heard about the collision between the Chinese freighter and the U.S. Navy spy plane? New York Times political columnist Maureen Dowd said in April, "One veteran cold warrior who served under several presidents told me he was shocked that Bush II had refrozen the cold war." -- The Cold War International History Project Website at the Woodrow Wilson International Center for Scholars has up-to-date info on books published about the Cold War, as well as conferences, news, etc. The Complete Idiot's Guide "RM" to the Cold War covers: origins of the Cold War -- Karl Marx, the Treaty at Versailles, the Great Depression, the New Deal, and World War II; the China Lobby and the Marshall Plan, "American Caesar" in Korea and "Tail-Gunner Joe"; the birth of "talking head" journalism; those Happy Days 1950's; the Cuban Missile Crisis and death in Vietnam; the turbulent Sixties; Nixon visits China; Cold War America in the Seventies and Eighties -- the "Evil Empire, " Grenada, Nicaragua, and KAL Flight 007, and Post-Cold War policy, the Cold War legacy.

Understanding the American Promise, Volume 2: From 1865

Relates the story of a U.S. airman who survived when his bomber crashed into the sea during World War II, spent forty-seven days adrift in the ocean before being rescued by the Japanese Navy, and was held as a prisoner until the end of the war.

The Americans

Dean Acheson was one of the most influential Secretaries of State in U.S. history, presiding over American foreign policy during a pivotal era - the decade after World War II when the American Century slipped into high gear. During his vastly influential career, Acheson spearheaded the greatest foreign policy achievements in modern times, ranging from the Marshall Plan to the establishment of NATO. Now, in this monumental biography, Robert L. Beisner paints an indelible portrait of one of the key figures of the last half-century. In a book filled with insight based on research in government archives, memoirs, letters, and diaries, Beisner illuminates Acheson's policy-making, describing how he led the state department and managed his relationship with Truman, all to illuminate the vital policies he initiated in his years at State. The book examines Acheson's major triumphs, including the highly underrated achievement of converting West Germany and Japan from mortal enemies to prized allies, and does not shy away from examining his missteps. But underlying all his actions, Beisner shows, was a tough-minded determination to outmatch the strength of the Soviet bloc - indeed, to defeat the Soviet Union at every turn. The emotional center of the book focuses on Acheson's friendship with Truman. No pair seemed so poorly matched - one, a bourbon-drinking mid-Westerner with a homespun disposition, the other, a mustachioed Connecticut dandy who preferred perfect martinis - yet no such team ever worked better together. Acheson's unstinting dedication to an often unpopular president was reciprocated with deep gratitude and loyalty. Together, they redrew the

map of the post-war world. Over six foot tall, with steel blue, "merry, searching eyes" and a "wolfish" grin, Dean Acheson was an unforgettable character - intellectually brilliant, always debonair, and tough as tempered steel. This lustrous portrait of an immensely accomplished and colorful life is the epitome of the biographer's art.

Innocent Weapons

Unbroken

‘This extraordinary collection is a game-changer. Featuring the cutting-edge work of over forty scholars from across the globe, The Routledge Handbook of the Global Sixties is breathtaking in its range, incisive in analyses, and revolutionary in method and evidence. Here, fifty years after that iconic "1968," Western Europe and North America are finally de-centered, if not provincialized, and we have the basis for a complete remapping, a thorough reinterpretation of the "Sixties.” —Jean Allman, J.H. Hexter Professor in the Humanities; Director, Center for the Humanities, Washington University in St. Louis ‘This is a landmark achievement. It represents the most comprehensive effort to date to map out the myriad constitutive elements of the "Global Sixties" as a field of knowledge and inquiry. Richly illustrated and meticulously curated, this collection purposefully "provincializes" the United States and Western Europe while shifting the loci of interpretation to Africa, the Middle East, Asia, and Latin America. It will become both a benchmark reference text for instructors and a gateway to future historical research.’ —Eric Zolov, Associate Professor of History; Director, Latin American & Caribbean Studies, Stony Brook University ‘This important and wide-ranging volume de-centers West-focused histories of the 1960s. It opens up fresh and vital ground for research and teaching on Third, Second, and First World transnationalism(s), and the many complex connections, tensions, and histories involved.’ —John Chalcraft, Professor of Middle East History and Politics, Department of Government, London School of Economics and Political Science ‘This book globalizes the study of the 1960s better than any other publication. The authors stretch the standard narrative to include regions and actors long neglected. This new geography of the 1960s changes how we understand the broader transformations surrounding protest, war, race, feminism, and other themes. The global 1960s described by the authors is more inclusive and relevant for our current day. This book will influence all future research and teaching about the postwar world.’ —Jeremi Suri, Mack Brown Distinguished Chair for Leadership in Global Affairs; Professor of Public Affairs and History, The University of Texas at Austin As the fiftieth anniversary of 1968 approaches, this book reassesses the global causes, themes, forms, and legacies of that tumultuous period. While existing scholarship continues to largely concentrate on the US and Western Europe, this volume will focus on Asia, Africa, the Middle East, and Eastern Europe. International scholars from diverse disciplinary backgrounds explore the global sixties through the prism of topics that range from the economy, decolonization, and higher education, to forms of protest, transnational relations, and the politics of memory.

The Americans

With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge new scholarship, the seventh edition of America's History is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths — balance, comprehensiveness, and explanatory power — as well as its outstanding visuals and extensive primary-source features, authors James Henretta, Rebecca Edwards, and Robert Self have shaped America's History into the ideal resource for survey classes.

The Tragedy of U.S. Foreign Policy

America's History: Concise Edition

A select group of analysts, practitioners and scholars assembled in 1997 and 1999 at the University of Oklahoma to lay the groundwork for a new foreign policy. This carefully edited collection includes those major policy statements and discussions by the best minds of our time. Index.

The Marshall Plan

One of the most significant industrial states in the country, with a powerful radical tradition, Pennsylvania was, by the early 1950s, the scene of some of the fiercest anti-Communist activism in the United States. Philip Jenkins examines the political and social impact of the Cold War across the state, tracing the Red Scare's reverberations in party politics, the labor movement, ethnic organizations, schools and universities, and religious organizations. Among Jenkins's most provocative findings is the revelation that, although their absolute numbers were not large, Communists were very well positioned in crucial Pennsylvania regions and constituencies, particularly in labor unions, the educational system, and major ethnic organizations. Instead of focusing on Pennsylvania's right-wing politicians (the sort represented nationally by Senator Joseph McCarthy), Jenkins emphasizes the anti-Communist activities of liberal politicians, labor leaders, and ethnic community figures who were terrified of Communist encroachments on their respective power bases. He also stresses the deep roots of the state's militant anti-Communism, which can be traced back at least into the 1930s.

The American Promise, Volume C

In this new edition of his classic 1970 memoir about the notorious U-2 incident, pilot Francis Gary Powers reveals the full

story of what actually happened in the most sensational espionage case in Cold War history. After surviving the shoot-down of his reconnaissance plane and his capture on May 1, 1960, Powers endured sixty-one days of rigorous interrogation by the KGB, a public trial, a conviction for espionage, and the start of a ten-year sentence. After nearly two years, the U.S. government obtained his release from prison in a dramatic exchange for convicted Soviet spy Rudolph Abel. The narrative is a tremendously exciting suspense story about a man who was labeled a traitor by many of his countrymen but who emerged a Cold War hero.

The American Yawp

A searing account of a dark “chapter in U.S. Cold War history . . . to help the anti-Soviet aims of American intelligence and national security agencies” (Library Journal). Even before the final shots of World War II were fired, another war began—a cold war that pitted the United States against its former ally, the Soviet Union. As the Soviets consolidated power in Eastern Europe, the CIA scrambled to gain the upper hand against new enemies worldwide. To this end, senior officials at the CIA, National Security Council, and other elements of the emerging US national security state turned to thousands of former Nazis, Waffen Secret Service, and Nazi collaborators for propaganda, psychological warfare, and military operations. Many new recruits were clearly responsible for the deaths of countless innocents as part of Adolph Hitler’s “Final Solution,” yet were whitewashed and claimed to be valuable intelligence assets. Unrepentant mass murderers were secretly accepted into the American fold, their crimes forgotten and forgiven with the willing complicity of the US government. Blowback is the first thorough, scholarly study of the US government’s extensive recruitment of Nazis and fascist collaborators right after the war. Although others have approached the topic since, Simpson’s book remains the essential starting point. The author demonstrates how this secret policy of collaboration only served to intensify the Cold War and has had lasting detrimental effects on the American government and society that endure to this day.

*2 full-length practice tests*Diagnostic test to target areas for score improvement*Detailed answer explanations*Proven score-raising strategies*New online component with additional practice and help*Sample essays for DBQ and FRQ questions*Targeted review of all topics, from the Colonial Era to the Modern Era*Key terminology defined in context*Glossary of key terms

Dean Acheson

A Companion to American Gothic

The American Promise appeals to all types of students and provides the right resources and tools to support any classroom environment. A clear political framework supports a vibrant social and cultural story that embraces the voices of hundreds of Americans — from presidents to pipefitters and sharecroppers to suffragettes — who help students connect with history and grasp important concepts. Now in its fifth edition, The American Promise does even more to increase historical analysis skills and facilitate active learning, and its robust array of multimedia supplements make it the perfect choice for traditional face-to-face classrooms, hybrid courses, and distance learning.

The Cold War at Home

Reading for Results

As Dwight D. Eisenhower's Secretary of State, John Foster Dulles came to personify the shortcomings of American foreign policy. This collection of essays, representing the first archivally based reassessment of Dulles's diplomacy, examines his role during one of the most critical periods of modern history. Rejecting familiar Cold War stereotypes, this volume reveals the hidden complexities in Dulles's conduct of foreign policy and in his own personality.

The American Promise Value Edition, Combined Version

Exploring American Histories, Value Edition, Combined Volume

Children's author, Yoshiko Uchida, describes growing up in Berkeley, California, as a Nisei, second generation Japanese American, and her family's internment in a Nevada concentration camp during World War II.

U.S. History

America's History explains WHY events occurred, not just when. Students are provided an analytical and big-picture approach to American history with a plethora of support tools to help determine what's most important.

AP U.S. History

The mid-level text of Flemming's successful series, *Reading for Results* hones students' comprehension skills and introduces them to the basics of critical reading. Featuring the author's trademark high-interest reading selections, this developmental text motivates students to complete numerous exercises and tests, while simultaneously fostering the idea that reading is a stimulating and exciting activity in its own right. Step by step, students learn strategies for improving their vocabulary and using SQ3R, a well-known system for how to effectively survey, question, read, recite, and recall material from college textbooks. Basic reading skills include how to find main ideas; draw inferences; locate supporting details; and understand charts, graphs, and tables. Two chapters are devoted to patterns of development, one on recognizing patterns in paragraphs and one on combining patterns in paragraphs and longer readings. The text's final chapter covers all the basics of critical reading: distinguishing tone; detecting bias; and analyzing arguments for errors in reasoning. New! Due to the growing emphasis on state exit exams, Flemming models both excerpts and exercises after these tests--emphasizing, in particular, the Florida State Exit Exam. New! More multi-paragraph readings prepare students for college-level texts, covering such topics as the founding of Liberia, the triumph of Lance Armstrong, and the painful effects of stereotyping. The Ninth Edition also includes a new sample chapter drawn from a psychology textbook. New! Completely revised, the critical-reading chapter now includes more material on purpose, tone, and bias which play a key role on the Florida exit exam. New! Chapter 5, *Inferring Main Ideas*, has been revised to include more discussion of inferences and how to draw them. New! Four new multi-page readings, including a lengthy discussion of ethical decision making, a topic explored further in the next book in Flemming's series, *Reading for Thinking*.

Kaplan AP U.S. History 2007 Edition

Published by OpenStax College, *U.S. History* covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. *U.S. History* is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Operation Overflight

In response to the ever-changing challenges of teaching the survey course, *Understanding the American Promise* combines

a newly abridged narrative with an innovative chapter architecture to focus students' attention on what's truly significant. Each chapter is fully designed to guide students' comprehension and foster their development of historical skills. Brief and affordable but still balanced in its coverage, this new textbook combines distinctive study aids, a bold new design, and lively art to give your students a clear pathway to what's important.

The Routledge Handbook of the Global Sixties

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

Blowback

The diverse histories of the United States that come to life in Exploring American Histories are available at a lower price in a compact format. The two-color Value Edition includes the full narrative and all maps and select images from the comprehensive text.

The Invisible Thread

The new two-color Value Edition of The American Promise is the ideal solution for instructors and students who want a full-length narrative at a low price. A clear political framework supports a dynamic social and cultural story enlivened by the voices of hundreds of Americans who help students connect with history and grasp important concepts. With the complete supplements package from the full text, the Value Edition offers everything cost-conscious instructors and students want and need for their U.S. history courses.

A People's History of the United States

No nation has maintained such an immense stature in world politics as the United States has since the Cold War's end. In the wake of the 9/11 attacks, prompting the global war on terrorism and the U.S. invasion of Afghanistan and Iraq, along with American economic and "soft power" primacy, there has been increased interest in and scrutiny of American foreign policy. The Routledge Handbook of American Foreign Policy brings together leading experts in the field to examine current trends in the way scholars study the history and theories of American conduct in the world, analysis of state and non-state

actors and their tools in conducting policy, and the dynamics of a variety of pressing transnational challenges facing the United States. This volume provides a systematic overview of all aspects of American foreign policy and drives the agenda for further, cutting edge research. Contributors bring analytic depth and breadth to both the ways in which this subject is approached and the substance of policy formulation and process. The Handbook is an invaluable resource to students, researchers, scholars, and journalists trying to make sense of the broader debates in international relations.

Routledge Handbook of Latin American Security

Innocent Weapons: The Soviet and American Politics of Childhood in the Cold War

The Routledge Handbook of the Cold War

Winner of the 2018 American Academy of Diplomacy Douglas Dillon Award Shortlisted for the 2018 Duff Cooper Prize in Literary Nonfiction “[A] brilliant book...by far the best study yet” (Paul Kennedy, *The Wall Street Journal*) of the gripping history behind the Marshall Plan and its long-lasting influence on our world. In the wake of World War II, with Britain’s empire collapsing and Stalin’s on the rise, US officials under new Secretary of State George C. Marshall set out to reconstruct western Europe as a bulwark against communist authoritarianism. Their massive, costly, and ambitious undertaking would confront Europeans and Americans alike with a vision at odds with their history and self-conceptions. In the process, they would drive the creation of NATO, the European Union, and a Western identity that continue to shape world events. Benn Steil’s “thoroughly researched and well-written account” (*USA TODAY*) tells the story behind the birth of the Cold War, told with verve, insight, and resonance for today. Focusing on the critical years 1947 to 1949, Benn Steil’s gripping narrative takes us through the seminal episodes marking the collapse of postwar US-Soviet relations—the Prague coup, the Berlin blockade, and the division of Germany. In each case, Stalin’s determination to crush the Marshall Plan and undermine American power in Europe is vividly portrayed. Bringing to bear fascinating new material from American, Russian, German, and other European archives, Steil’s account will forever change how we see the Marshall Plan. “Trenchant and timely...an ambitious, deeply researched narrative that...provides a fresh perspective on the coming Cold War” (*The New York Times Book Review*), *The Marshall Plan* is a polished and masterly work of historical narrative. An instant classic of Cold War literature, it “is a gripping, complex, and critically important story that is told with clarity and precision” (*The Christian Science Monitor*).

America's History, Volume 2

"Contains all of the basic content, concepts, and skills integral to a junior high school American history program."--Page T5.

America: Pathways to the Present

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass*

The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.
