101 Labs - Book Series Experts agree that we retain only 10% of what we read but 90% of what we do. Perhaps this explains why the global pass rate for most IT exams is a ghastly 40%. This is where the 101 Labs book series can help. We are revolutionizing how IT people train for their exams and the real world with our Learn - By - Doing teaching method. 101 Labs' mission is to turn you into an IT expert by doing instead of reading. Using free software and free trials, our experts take you by the hand and walk you through every aspect of the protocols and technologies you will encounter in your IT career. We share our configuration tips and tricks with you as well as how to avoid the common mistakes many novice

engineers make, which can quickly become career-ending. 101 Labs - CompTIA Network] This book is designed to help you pass the new N10-007 exam. It now features Performance-based questions (PBQs). These questions test your configuration and troubleshooting skills and add a new level of complexity to the exam. The only way to answer these types of questions is to have hands-on experience with the protocols and technology listed in the exam syllabus. The Network+ exam is probably the most useful exam in the IT industry. It equips you with all the necessary knowledge you need in order to work with other IT professionals and work in the IT industry. You learn TCP/IP, security, networking protocols and standards, best practices, subnetting and IP addressing, IPv6, troubleshooting tools and software, security, wireless, routing protocol basics, and much more. CompTIA presumes around 9-12 months of on-the-job experience for all of its exams, but of course, most of the students who take the exam don't have this. Even if they are working in IT roles, such as in helpdesk or server support, they will have been exposed to only a tiny number of the skills tested in the exam. Doing all the labs in this book will give you that experience. Please use the free resources at www.101labs.net/resources which will help you with the labs. About the Author Paul Browning left behind a career in law enforcement in 2000 and started an IT consulting and training company. He's written over 15 best selling IT books and through his books, classroom courses, and websites he's trained tens of thousands of people from all walks of life. He's spent the last 16 years dedicated to training and teaching IT students from all walks of life to pass their exams and enjoy a rewarding career.

CompTIA Network+ N10-006 Practice Test Questions (Get Certified Get Ahead) includes over 300 realistic practice test questions and a comprehensive list of relevant acronyms. Combined, these study materials will help you take and pass the Network+ exam the first time you take it. If you want to test your readiness for the Network+ exam and reinforce the important material, this book is for you. All practice test questions include in-depth explanations to help you understand why the correct answers are correct, and why the incorrect answers are incorrect. Master the material and no matter how CompTIA words the questions, you'll be able to answer them correctly. The book is organized in five chapters matched to the five Network+ domains. Each chapter includes two sections: 1. Practice mode section. Includes practice test questions without answers. This section presents the questions, but does not give you the answers. You can use this to test yourself to see if you know why the correct answers are correct, and why the incorrect answers are incorrect. 2. Review mode section. Includes practice test questions with answers. This section includes the same questions in the practice mode section, but it combines the questions, answers, and explanations so you can use it as a last minute review for any of the domains. The introduction includes details on the exam to give you an idea of what to expect. Additionally, all of the relevant acronyms are spelled out and defined in the appendix.
