An acknowledged expert on the Hebrew Bible, Thomas Dozeman offers a fresh translation of the Hebrew and Greek texts of the book of Joshua and explores the nature, function, and causes of the religious violence depicted therein. By blending the distinct teachings of Deuteronomy and the Priestly literature, Dozeman provides a unique interpretation of holy war as a form of sacred genocide, arguing

that, since peace in the promised land required the elimination of the populations of all existent royal cities, a general purging of the land accompanied the progress of the ark of the covenant. This essential work of religious scholarship demonstrates how the theme of total genocide is reinterpreted as partial conquest when redactors place Joshua, an independent book, between Deuteronomy and Judges. The author traces the evolution of this reinterpretation of the central themes of religious violence while providing a comparison of the two textual versions of Joshua and an insightful analysis of the book's reception history.

### **All Desires Known**

T. S. Eliot and Virginia Woolf were almost exact contemporaries, readers and critics of each others' work, and friends for over twenty years. Their writings, though, are rarely paired. *Modernism, Memory, and Desire* proposes that some striking correspondences exist in Eliot and Woolf's poetic, fictional, critical, and autobiographical texts, particularly in their recurring turn to the language of desire, sensuality, and the body to render memory's processes. The book includes extensive archival research on some mostly unknown bawdy poetry by T. S. Eliot while offering readings of major work by both writers, including *The Waste Land*, 'The Love Song of J. Alfred Prufrock', *Orlando* and *To the Lighthouse*. McIntire juxtaposes Eliot and Woolf with several major modernist thinkers of memory,

including Sigmund Freud, Friedrich Nietzsche, Henri Bergson and Walter Benjamin, to offer compelling reconsiderations of the relation between textuality, remembrance and the body in modernist literature.

### **Why Do We Need to Brush Our Teeth?**

From melodrama to Cantonese opera, from silents to 3D animated film, *Remaking Chinese Cinema* traces cross-Pacific film remaking over the last eight decades. Through the refractive prism of Hollywood, Shanghai, and Hong Kong, Yiman Wang revolutionizes our understanding of Chinese cinema as national cinema. Against the diffusion model of national cinema spreading from a central point—Shanghai in the Chinese case—she argues for a multi-local process of co-constitution and reconstitution. In this spirit, Wang analyzes how southern Chinese cinema (huanan dianying) morphed into Hong Kong cinema through trans-regional and trans-national interactions that also produced a vision of Chinese cinema. Among the book's highlights are a rereading of *The Goddess*—one of the best-known silent Chinese films in the West—from the perspective of its wartime Mandarin-Cantonese remake; the excavation of a hybrid genre (the Western costume Cantonese opera film) inspired by Hollywood's fantasy films of the 1930s and produced in Hong Kong well into the mid-

twentieth century; and a rumination on Hollywood's remake of Hong Kong's *Infernal Affairs* and the wholesale incorporation of "Chinese elements" in *Kung Fu Panda 2*. Positing a structural analogy between the utopic vision, the national cinema, and the location-specific collective subject position, the author traces their shared urge to infinitesimally approach, but never fully and finitely reach a projected goal. This energy precipitates the ongoing processes of cross-Pacific film remaking, which constitute a crucial site for imagining and enacting (without absolving) issues of national and regional border politics. These issues unfold in relation to global formations such as colonialism, Cold War ideology, and postcolonial, postsocialist globalization. As such, *Remaking Chinese Cinema* contributes to the ongoing debate on (trans-)national cinema from the unique perspective of century-long border-crossing film remaking.

## **Remaking Chinese Cinema**

This is the real toy story, an unprecedented behind-the-scenes journey through a world of influence, fantasy, and multimillion-dollar Hollywood deals, a world where the whims of children make millionaires and topple titans. This is also the story of an unusual man. Alan Hassenfeld, the chief executive officer of Hasbro, never intended to run a Fortune 500 company. A free spirit who dreamed of being a writer and exploring Asia, he was content to remain in the shadow of his older brother Stephen, a marketing genius who transformed a family firm established by immigrant Jews into powerhouse and Wall Street darling. Then tragedy struck. Stephen, and intensely private man, died of AIDS, a disease he had not acknowledged he had, even to his family. Alan Hassenfeld was named CEO, just as Hasbro was facing a daunting onslaught of challenges. *Toy Wars* is about Alan's struggle to balance the demands of the bottom line with his ideals about the kind of toys children deserve, as well as the ethical obligations of management. Wayne Miller, an award-winning journalist and novelist, was granted unprecedented access to Hasbro, the maker of G.I. Joe, Star Wars toys, Mr. Potato Head, Batman, Monopoly, Scrabble, Trivial Pursuit, and countless other favorites. For five years, he sat in on design sessions, marketing meetings, and focus groups, and interviewed employees in every part of the company. He witnessed a major corporate restructuring; crucial

deal with Dreamworks SKG; a hostile takeover bid by archrival Mattel; the collapse of a \$45 million virtual reality game; and the company makeover of G.I. environmental changes is essential for developing effective response strategies. Using case studies on drought and a wide range of atmosphere-ecosystem interactions, a workshop was held in September 2005 to gather different perspectives on multiple stress scenarios. The overarching lesson of the workshop is that society will require new and improved strategies for coping with multiple stresses and their impacts on natural socioeconomic systems. Improved communication among stakeholders; increased observations (especially at regional scales); improved model and information systems; and increased infrastructure to provide better environmental monitoring, vulnerability assessment, and response analysis are all important parts of moving toward better understanding of and response to situations involving multiple stresses. During the workshop, seven near-term opportunities for research and infrastructure that could help advance understanding of multiple stresses were also identified.

This book defends the view that an award of an account of profits (or 'disgorgement damages') for breach of contract will sometimes be justifiable, and fits within the orthodox principles and cases in contract law. However there is some confusion as to when such an award should be made. The moral bases for disgorgement damages are deterrence and punishment, which shape the remedy in important ways. Courts are also concerned with vindication of the claimant's performance interest, and it is pivotal in these cases that the claimant cannot procure a

## Download File PDF Danby Kegerator Dkc645bls Manual

substitute performance via an award of damages or specific relief. The book argues that disgorgement damages should be available in two categories of case: 'second sale' cases, where the defendant breaches his contract with the claimant to make a more profitable contract with a third party; and 'agency problem' cases, where the defendant promises the claimant he will not do a certain thing, and the claimant finds it difficult to supervise the performance. Moreover, disgorgement may be full or partial, and 'reasonable fee damages' for breach of contract are best understood as partial disgorgement rather than 'restitutionary damages'. Equitable bars to relief should also be adopted in relation to disgorgement damages, as should allowances for skill and effort. This book will be of interest to contract and commercial lawyers, and will be especially valuable to anyone with an interest in contract remedies and restitution. It draws on case law in a number of common law jurisdictions, primarily England and Wales, and Australia.

People inside and outside of the biblical counseling movement recognize differences between the foundational work of Jay Adams and that of current thought leaders such as David Powlison. But, as any student or teacher of the discipline can attest, those differences have been ill-defined and largely anecdotal until now. Heath Lambert, the first scholar to analyze the movement's development from within, shows how biblical counseling emerged from, and remains rooted in, a commitment to the sufficiency of Scripture and the need to give practical help to struggling people. He identifies contemporary leaders—including Powlison, Ed Welch, Paul Tripp, and Wayne Mack—who emphasize the sinner as sufferer, the heart as key to motivation, and the need to interact humbly with critics. Demonstrating how these refinements in framework, methodology, and engagement style are characteristic of a second generation of biblical counselors, Lambert contends this new wave of counselors is now increasingly balanced in their counseling methods. With a substantial foreword from David Powlison and strong support from prominent biblical counselors, this book

will help all Christians interested in the fundamentally theological task of counseling to think carefully and biblically about how it is taught and practiced.

## **A Companion to Wolves**

This book analyzes the changes and tendencies expressed in the relation between army and society in Israel. Since its inception, Israel has been defined as a nation in arms, a public space in which the security needs became central and, to a great extent, dictated the agenda and functioning of all the public arenas operating in it. The theoretical investigation is accompanied by case study illustrations of special instances related to the nexus between: security and society security and politics the army and the media the army and public relations security and culture bereavement and commemoration social motivation to serve in the army the army and foreign policy. Lebel explores the connection between the military and culture in Israel against the backdrop of globalization, individualism, liberalism, and social burn-out in the face of survival and change.
