## **MotorBoating**

## **Design, construction, and operation**

The most famous British bomber of World War II, the Avro Lancaster flew on many famous raids--the "Dambusters" Raid, the daylight raid on Augsburg, and the sinking of the German battleship Tirpitz. The Lancaster Manual is reprinted from the official manuals originally produced by the Air Ministry for the personnel who actually flew and maintained the aircraft. Includes technical details, instructions for ground crews, handling and flying notes, electrical and radio equipment, airframe design, and armament. A uniquely authoritative reference source on the Lancaster Marks I and III.

Powerboaters can use this simple, step-by-step, illustrated guide to do their own electrical projects and repairs. Author Ed Sherman walks the reader through the basics, including wiring diagrams, diagnosing problems, ignition systems, battery systems, shorepower circuits, installing equipment, surveying your boat's wiring, and more.
