The Michaluk Virus is loose. In the heart of Atlanta, a virus has escaped the CDC and transformed most of the population of the southeastern US into homicidal cannibals. As society rapidly crumbles under the hordes of infected, three people—Ethan, a Memphis police officer; Cade, a former IDF sharpshooter; and Brandt, a lieutenant in the US Marines—band together against the oncoming crush of death and terror. As they hole up in a safe house in Mississippi, others join them in their bid for survival. When an attack of the infected forces them to flee, they encounter more danger than they bargained for. And one man's desperate search for answers in Memphis uncovers information that heralds a horrific possibility that there may be more to the virus than first suspected.

## **Intermediate Accounting**

This text is intended for a first course in introductory financial accounting. It was updated to reflect current International Financial Reporting Standards (IFRS). For example, it reflects the recent change in IAS38, para. 98, allowing the use of multiple methods in amortizing intangible assets. It focuses on core Introductory Financial Accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. Excluded are advanced topics that are covered in Intermediate Financial Accounting, such as leases and bond amortization. The text takes a corporate approach (vs. beginning with a sole proprietorship emphasis and then converting to a corporate approach); this consistency throughout the book reduces confusion for the introductory
