Advances in Lattice Gauge Theory

Humor, magic, and adventure abound in the third—and final—book of Caroline Carlson’s tween fantasy series, *The Very Nearly Honorable League of Pirates*. Hilary Westfield is now a freelance pirate. After trying to prove herself to the VNHLP, she realized many members of the league weren’t all that honorable—not even very nearly. With Captain Blacktooth in cahoots with the Mutineers, the kingdom of Augusta—and all of its magic—is at risk. What the League needs is a very honorable pirate to be their new president. So Hilary—with the help of her friends, including the always-spirited gargoyle—challenges Blacktooth to a High Seas battle. Winner takes all. Loser, at best, will be exiled. Caroline Carlson has created a world where magic is currency, pirates are more charming than alarming, and a girl can choose a life as a pirate instead of a life in petticoats. And she once again delivers a story of high stakes, high seas, and high society in the hilarious and charming conclusion to the *Very Nearly Honorable League of Pirates* series.

Sudoku Genius Mind Exercises Volume 1

This wide-ranging study of British writers and poets of the 1930s—including Auden, Isherwood, Spender, Waugh, and Greene—examines the masterpieces of that momentous decade, not in linguistic isolation, but in the contexts—social, political, historical, ideological, and personal—in which they were composed. Cunningham maps out the dominant

images and concerns, nothing less than the central obsessions and imposing images of the '30s imagination. He analyzes the obsession with violence, the "destructive element" of post-World War consciousness; the cult of youth, of schools and schoolmasters; the infatuation with heroes--flyers, mountaineers, and racing car drivers--and the related concern about "being small," weak, or neurotic in an age of mass politics. In order to illustrate this kaleidoscope of themes, Cunningham examines not only the canonical texts, but also "minor" forms and writings, including detective stories, films, and popular songs, showing how these neglected genres also illuminate the work of this period.

This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

A Manual for North Carolina Jury Commissioners

Alice Fulton, the judge for the 1998 Walt Whitman Award, calls *Once I Gazed at You in Wonder* "quite simply, the most endearing book I've read in some time." Readers of this audacious and, yes, endearing collection will agree. Jan Heller Levi has said that her poems are not confessions but conversations. Here, then, are her conversations with the world. What sets Levi apart, however, is that she lets the world answer back. Difficult fathers, ineffectual mothers are forgiven; ex-lovers are blessed. Sophisticated but never jaded, this poet looks in wonder beyond the self: a cup of coffee in one of New York's ubiquitous Greek diners can launch Levi into a meditation on truth versus compassion; a suite of elegies for her mother takes us from a hospital corridor to the studio of a television talk show where God is the guest; a poetry reading in which she shares the stage with a

folk singer illustrates Levi's gift for illuminating the absurd textures of late-twentieth-century existence. Don't you have any happy poems? he wondered. Don't you have any cancer songs? I asked. With the narrative drive of great fiction, the consolations of philosophy, and the rigor of art, *Once I Gazed at You in Wonder* marks the entrance of a much-needed new voice and vision in the conversation that is American poetry.

The volume presents an extensive investigation into the process of reforms of detention powers in today's China and offers an in-depth analysis of the debates surrounding the reformist attempts. The chapters in this collection demonstrate that legislative and institutional reforms in this area result from political opportunities - openings and tensions at the central institutional levels of political authority - and contingent social and political factors. The book examines legal and institutional reforms to institutions of detention and imprisonment that have occurred since the 1990s, with a particular focus on the 21st century. Its content follows three particular lines of enquiry concerning the issue of deprivation of liberty in contemporary China. The first deals with the academic and theoretical debates on the subject of imprisonment and detention. The related chapters explain the difficulties encountered in this area of research and understandings of the discourses of reform through labour in Western and Chinese scholarship. The second deals with the specific issues of criminal and administrative forms of deprivation of liberty, examining in particular the institutional and legislative dimensions, considering the relationship between reforms and criminal justice policy agendas. The third assesses the meaning of institutional reforms in the context of the changing state-society relationship in contemporary China.
