You open it up and there's everything you need to implement the system in an effective way." Open Melanie Clement of Lakeshore Sports: "We were referred from another dealer in our 20 Group, and he told us you were going to give us some really unique strategies, which you did. But, what really helped us get such a great start was the accountability - that you had us call in every week to make sure we were actually

doing it." Will Massey of Custom Marine: "Being involved in Matt's program is unusual in that we are actually getting a product. We are not just getting valuable information and ideas but actual tools we can take home and start using in our dealership right away and that's very unique." Matt Sellhorst Matt Sellhorst is the founder and CEO of Boat Dealer Profits and the creator of the SPLASH System guaranteed to help select dealers sell more boats, make more money and have more fun. For more than 80 years The Shell Channel Pilot has been the ultimate authority on English Channel navigation and pilotage. Following the pioneering work of the legendary Adlard Coles, the book was passed to Captain John Coote RN in 1982. In his comparatively short, ten-year tenure, John Coote expanded the coverage from the English coast to include northern France. He also applied a characteristic humour to the shoreside aspect of the text which has been enthusiastically adopted by Tom Cunliffe, the present and third compiler of this unique work. Upgraded and updated regularly, this is the 8th edition published by Imray under Cunliffe, hand. The Shell, is more than a harbour guide. It also provides a reassuring hand on the shoulder for Channel navigation, with useful passage notes gleaned from the compiler, personal experience of more than 40 years running the tides and finding the eddies. His frank remarks regarding harbour and recreational facilities have long been relied upon by sailors of all generations and nationalities. While leading to some enlightening secrets, they have been known to cause landlords whose establishments fall short of the required standard to lose the will to live. Working with harbourmasters and a dedicated group of carefully selected yachtsmen and women, Cunliffe has kept this pilot as up to date as is humanly possible. More than being technically sound, which is to be expected from a Yachtmaster Examiner, the book is also a thoroughly enjoyable read. 2017 edition.
