Astronomy is written in clear non-technical language, with the occasional touch of humor and a wide range of clarifying illustrations. It has many analogies drawn from everyday life to help non-science majors appreciate, on their own terms, what our modern exploration of the universe is revealing. The book can be used for either a one-semester or two-semester introductory course (bear in mind, you can customize your version and include only those chapters or sections you will be teaching.) It is made available free of charge in electronic form (and low cost in printed form) to students around the world.

If you have ever thrown up your hands in despair over the spiraling cost of astronomy textbooks, you owe your students a good look at this one. Elements of Language

For readers of *Being Mortal* and *When Breath Becomes Air*, the acclaimed founder of Death Over Dinner offers a practical, inspiring guide to life's most difficult yet important conversation. Of the many critical conversations we will all have throughout our lifetime, few are as important as the ones discussing death--and not just the practical considerations, such as DNRs and wills, but what we fear, what we hope, and how we want to be remembered. Yet few of these conversations are actually happening. Inspired by his experience with his own father and countless stories from others who regret not having these conversations, Michael Hebb cofounded Death Over Dinner--an organization that encourages people to pull up a chair, break bread, and really talk about the one thing we all have in common. Death Over Dinner has been one of the most effective end-of-life awareness campaigns to date; in just three years, it has provided the framework and inspiration for more than a hundred thousand dinners focused on having these end-of-life conversations. As Arianna Huffington said, "We are such a fast-food culture, I love the idea of making the dinner last for hours. These are the conversations that will help us to evolve." *Let's Talk About Death (over Dinner)* offers keen practical advice on how to have these same conversations--not just at the dinner table, but anywhere. There's no one right way to talk about death, but Hebb shares time- and dinner- tested prompts to use as conversation starters, ranging from the spiritual to the practical, from analytical to downright funny and surprising. By transforming the most difficult conversations into an opportunity, they become celebratory and meaningful--ways that not only can change the way we die, but the way we live.
