The Paper and Pulp Makers' Journal

Includes decisions of the Supreme Court and various intermediate and lower courts of record; May/Aug. 1888-Sept./Dec. 1895, Superior Court of New York City; Mar./Apr. 1926-Dec. 1937/Jan. 1938, Court of Appeals.

Monthly Labor Review

Discrimination in Employment

Paper

Lists locations, statistics, departments, and benefits of over five hundred companies, with tips on resume writing and interviewing

Tappi Journal

Black Employment and the Law

International Jobs

A comprehensive two-volume set that analyzes discrimination on the basis of race, religion, national origin, sex, age and disabilities and features EEO compliance documents.

First Stop for Jobs and Industries

Labor Relations and Social Problems: Discrimination in employment

American Papermaker

Journal of College Placement

This is a lavishly illustrated history of the Oregon-American Lumber Company, during its heyday one of the most important lumber firms in the Pacific Northwest. Operating from 1922 until its closure in 1957, the company provides an

illuminating example of the history of lumbering in the region, showing in detail both the opportunities and problems encountered by firms seeking to exploit the area's rich natural stands of Douglas fir. The story is enhanced by the inclusion of 285 illustrations, most of which are previously unpublished, that depict logging, railroading, and sawmilling activities, and 17 period-specific maps that give the reader a unique perspective on the growth of the company. The lumbering industry was pivotal to America's settlement and development, reaching its zenith in the period covered by this book, which shows how Oregon-American's survival depended on successfully adapting to great changes in market forces and in industry structures, to natural disasters, and to economic crises like the Great Depression. Essential to the company's objective of supplying lumber to markets in the Midwest farm belt was its relationship with the Great Northern and Northern Pacific Railroads; accordingly, the book provides much information on the railroad networks that made timber extraction possible. The study is based on fifteen years of archival and on-the-ground research and draws heavily on the extensive collection of Oregon-American records, notably the correspondence files of Judd Greenman, the company president who conceived and executed most of the company's operating policies. It also includes, as sidebars, engaging oral histories related by employees, which enrich the text and provide a vivid contrast between management and employee viewpoints.

The Michigan Technic

Vols. 25-34 include Official manual of the International Brotherhood of Paper Makers.

Historic Erie County

A Practical Guide to Equal Employment Opportunity

Annual meeting held after the end of the calendar year covered by the proceedings.

Pulp & Paper 1996 North American Factbook

Publishes in-depth articles on labor subjects, current labor statistics, information about current labor contracts, and book reviews.

Waters V. Wisconsin Steel Works of International Harvester Company

The Job Vault

An illustrated history of Erie, Pennsylvania, paired with histories of the local companies.

Employment Practices Decisions

Histories of the civil rights movement have generally overlooked the battle to integrate the South's major industries. The paper industry, which has played an important role in the southern economy since the 1930s, has been particularly neglected. Using previously untapped legal records and oral history interviews, Timothy Minchin provides the first in-depth account of the struggle to integrate southern paper mills. Minchin describes how jobs in the southern paper industry were strictly segregated prior to the 1960s, with black workers confined to low-paying, menial positions. All work literally had a color: every job was racially designated and workers were represented by segregated local unions. Though black workers tried to protest workplace inequities through their unions, their efforts were largely ineffective until passage of the 1964 Civil Rights Act opened the way for scores of antidiscrimination lawsuits. Even then, however, resistance from executives and white workers ensured that the fight to integrate the paper industry was a long and difficult one.
