Taking a pioneering approach to commentary writing, Brevard Childs gives an entirely original treatment to the book of Exodus. Apart from the philological notes and translation, this commentary includes a form-critical section, looking at the growth of the tradition in its previous stages; a consideration of the meaning of the text in its present form; and a consideration of its meaning in its total Old Testament context. The Old Testament Library provides fresh and authoritative

treatments of important aspects of Old Testament study through commentaries and general surveys. The contributors are scholars of international standing.

Timothy W. Reardon uncovers the salvation narrative developed within Luke-Acts and its key themes as they develop within the Lukan presentation of time and space, while being attentive to overcoming a facile compartmentalization of religion and politics. Reardon argues that Luke-Acts offers a complete, holistic, embodied, and theopolitical soteriology, cosmic in scope, that includes both the what and how of salvation. In contrast to recent arguments for some form of vicarious expiation in Luke-Acts, Reardon instead suggests that Luke-Acts' presentation of salvation - though exhibiting elements of multiple atonement models - noticeably takes a Christus Victor form, using Irenaeus's Christus Victor paradigm in particular as a point of comparison. Throughout this book, Reardon repeatedly demonstrates that Lukan soteriology is political, examining Jesus' role as herald of God's kingdom, the salvific space of heaven and the Church, and the mission of salvation. Reardon concludes that Luke-Acts is a theopolitical salvation unfolding in space, aiming toward the reconciliation of all things.

The history of the Jesus movement and earliest Christianity requires careful attention to the characteristics and peculiarities of oral and literate traditions. Understanding the distinctive elements of Greco-Roman literacy potentially has profound implications for the historical understanding of the documents and events involved. Concepts such as media criticism, orality, manuscript culture, scribal writing, and performative reading are explored in these chapters. The scene of Greco-Roman literacy is analyzed by investigating writing and reading practices. These aspects are then related to early Christian texts such as the Gospel of Mark and sections from Paul's letters.
