In the noise of the debate about the EU, it is rare for fundamental questions to be asked. For example, for what purposes should we have international institutions at all? Does the EU meet those purposes and, if not, is reform possible? This book considers these questions. An international team of renowned authors looks at each area of economic policy in which the EU has an interest, as well as at the governing structures of the EU, and asks what, if anything, the EU should be doing. In most cases, this is then compared with the status quo and against the possibility of Brexit in order to help the reader make a judgement, in each policy area, about which would be the best direction for Britain to take. As well as providing a fine contribution to the Brexit debate, the authors of this book provide a framework for evaluating the results of renegotiation together with a long-term programme for reform. The usefulness of this timely book will long outlive the referendum debate. The book asks - and answers - the fundamental questions that are rarely considered by the political classes.

The Bible is full of stories of angels interacting with humankind, but what about today? In this breakthrough book by prophet Jerame Nelson, you will understand that angels do indeed dwell among us, and play an important role in God's plan of evangelism. More than just an interesting collection of angel encounters, Nelson goes beyond just describing angels (amazing encounters, their biblical significance, etc.) to revealing: - The purpose of angels in human form; - Varieties and types of angels; - How angels can help transform your life; - How to position yourself for angelic encounters; - Their role in God's destiny and plan. The history of the entire Gospel was shaped through angelic activity. The power of the commons as a free, fair system of provisioning and governance beyond capitalism, socialism, and other -isms. From co-housing and agroecology to fisheries and open-source everything, people around the world are increasingly turning to 'commoning' to emancipate themselves from a predatory market-state system. Free, Fair, and Alive presents a foundational re-thinking of the commons — the self-organized social system that humans have used for millennia to meet their needs. It offers a compelling vision of a future beyond the dead-end binary of capitalism versus socialism that has almost brought the world to its knees. Written by two leading commons activists of our time, this guide is a penetrating cultural critique, table-pounding political treatise, and practical playbook. Highly readable and full of colorful stories, coverage includes: Internal dynamics of commoning How the commons worldview opens up new possibilities for change Role of language in reorienting our perceptions and political strategies Seeing the potential of commoning everywhere. Free, Fair, and Alive provides a fresh, non-academic synthesis of contemporary commons written for a popular, activist-minded audience. It presents a compelling narrative: that we can be free and creative people, govern ourselves through fair and accountable institutions, and experience the aliveness of authentic human presence.

Chocolate in Mesoamerica

When the scientific study of the Black Sea Region began in the late 18th and early 19th centuries, initially commissioned by adjacent powers such as the Habsburg and the Russian empires, this terra incognita was not yet considered part of Europe. The eighteen chapters of this volume show a broad range of thematic foci and theoretical approaches - the result of the enormous richness of the European macrocosm and the BSR. The microcosms of the many different case studies under scrutiny, however, demonstrate the historical dimension of exchange between the allegedly opposite poles of 'East' and 'West' and underscore the importance of mutual influences in the development of Europe and the BSR.

Encountering Angels

New models of research and analysis, as well as breakthroughs in deciphering Mesoamerican writing, have recently produced a watershed of information on the regional use and importance of cacao, or chocolate as it is commonly called today. McNeil brings together scholars in the fields of archaeology, history, art history, linguistics, epigraphy, botany, chemistry, and cultural anthropology to explore the domestication, preparation, representation, and significance of cacao in ancient and modern communities of the Americas, with a concentration on its use in Mesoamerica. Cacao was used by many cultures in the pre-Columbian Americas as an important part of rituals associated with birth, coming of age, marriage, and death, and was strongly linked with concepts of power and rulership. While Europeans have for hundreds of years claimed that they introduced "chocolate" as a sauce for foods, evidence from ancient royal tombs indicates cacao was used in a range of foods as well as beverages in ancient times. In addition, the volume's authors present information that supports a greater importance for cacao in pre-

Columbian South America, where ancient vessels depicting cacao pods have recently been identified. From the botanical structure and chemical makeup of "Theobroma cacao" and methods of identifying it in the archaeological record, to the importance of cacao during the Classic period in Mesoamerica, to the impact of European arrival on the production and use of cacao, to contemporary uses in the Americas, this volume provides a richly informed account of the history and cultural significance of chocolate.

Beyond Human

This book explores, discusses, and assesses the actual and potential sense of subjectivation in a variety of contexts. In particular, it reflects the genealogies, connections, variations, and practical implications of various theories of subjectivity and subjection while providing an up-to-date and authoritative account of how to engage with the 'subject'. Rather than addressing the 'subject' merely in theoretical terms, this book explores subjectivation as a seminal expression of subjective practices in the plural. To the extent that subjectivity and subjection are key terms in a plurality of discourses and for a number of disciplines, Subjectivation in Political Theory and Contemporary Practices advances a trans-disciplinary reading by taking into account relevant debates that stretch from poststructuralism via postfordism to postdemocracy. In this sense, the book introduces readers to current approaches to subjectivation by displacing conventional understandings and suggesting unexpected reformulations.

Filled with gripping, life-changing testimony, Weapons of Peace gives you encouragement and power to overcome fear and worry. And the harvest of righteousness (of conformity to God's will in thought and deed) is [the fruit of the seed] sown in peace by those who work for and make peace [in themselves and in others, that peace which means concord, agreement, and harmony between individuals, with undisturbedness, in a peaceful mind free from fears and agitating passions and moral conflicts (James 3:18 AMP).] "Greatly tormented by fears as a child, I have learned by personal experience how to overcome fear and to walk in peace. The Holy Spirit has taught me how to speak and release the peace of God over others, causing some immediate and dramatic deliverances and healings," writes author Mary Trask. Weapons of Peace shows why peace in these last days is not only fundamental to the Kingdom of God but is also a weapon for establishing the Kingdom of God both in your life and the lives of others.

When believers grasp the importance of angels to God--and themselves--they will better understand God's power and his extraordinary love.

Heaven is Beyond Your Wildest Expectations

In 1976, Jesus took Mary K. Baxter on a spiritual journey for thirty nights to witness the torments of hell, charging her to reveal the terrible reality of God's judgment and to relate the urgent message of salvation through Jesus Christ. Mary wrote about her journey to hell in her best-selling book *A Divine Revelation of Hell*, which has sold more than 1.3 million copies. After those thirty nights, Jesus told Mary, "I will close up your mind, and you will not remember some of the things I have shown and told you. But I will reopen your mind and bring back your understanding in the latter days. Then I will open up your remembrance...." Recently, God has brought back to Mary's remembrance many of those experiences because these revelations are particularly for our day. *A Divine Revelation of Satan's Deceptions* contains new images of hell that Mary has not related in her other books, as well as crucial insights into the deceptions Satan uses to destroy people and the tactics he employs to defeat believers. God has given His people anointings, gifts, and resources to build His kingdom that Satan has stolen and is holding captive in hell. This book reveals how we can use various "keys to the kingdom" to restore these blessings and to destroy the powers of darkness. Our choice is between allowing Satan to deceive and rob us—or claiming our spiritual inheritance and conquering the enemy in the power of God.

Is there life after death? After a tragic accident, doctors pronounced Richard Sigmund legally dead. Eight hours later, God miraculously brought him back to life on the way to the morgue. During those hours, God allowed him to experience the glorious beauty, heavenly sounds, sweet aromas, and boundless joys of heaven that await every believer. God then returned him back to earth with a mission to tell the world what he saw. Also, glimpse into the horrifying reality of "the other place"—a place where no one wants to go.

A Divine Revelation of Heaven

This volume represents a collection of contributions presented during the Third Annual University of Chicago Oriental Institute Seminar Religion and Power: Divine Kingship in the Ancient World and Beyond, held at the Oriental Institute, February 23-24, 2007. The purpose of this conference was to examine more closely concepts of kingship in various regions of the world and in different time periods. The study of kingship goes back to the roots of fields such as anthropology and religious studies, as well as Assyriology and Near Eastern archaeology. More recently, several conferences have been held on kingship, drawing on cross-cultural

comparisons. Yet the question of the divinity of the king as god has never before been examined within the framework of a cross-cultural and multi-disciplinary conference. Some of the recent anthropological literature on kingship relegates this question of kings who deified themselves to the background or voices serious misgivings about the usefulness of the distinction between divine and sacred kings. Several contributors to this volume have pointed out the Western, Judeo-Christian background of our categories of the human and the divine. However, rather than abandoning the term divine kingship because of its loaded history it is more productive to examine the concept of divine kingship more closely from a new perspective in order to modify our understanding of this term and the phenomena associated with it.

Weapons of Peace

Just as all of creation speaks of our Creator, the study of Revelation's gemstone wall can reveal important truths needed for our journey towards spiritual maturity in the kingdom of God. Each of the twelve stones represent twelve very distinct areas of focus of which God may be addressing in our lives as we move closer to fulfilling His dreams for each of us. With reports of heavenly gemstones appearing in regions all over the world, the book, *The 12 Gemstones of Revelation* helps us discover what message these stones might be bringing to this generation, to this world, and most importantly, to our hearts.

Europe and the Black Sea Region

A revolutionary reimagining of the cities we live in, the air above us, and what goes on in the earth beneath our feet Today we live in a world that can no longer be read as a two-dimensional map, but must now be understood as a series of vertical strata that reach from the satellites that encircle our planet to the tunnels deep within the ground. In *Vertical*, Stephen Graham rewrites the city at every level: how the geography of inequality, politics, and identity is determined in terms of above and below. Starting at the edge of earth's atmosphere and, in a series of riveting studies, descending through each layer, Graham explores the world of drones, the city from the viewpoint of an aerial bomber, the design of sidewalks and the hidden depths of underground bunkers. He asks: why was Dubai built to be seen from Google Earth? How do the super-rich in São Paulo live in their penthouses far above the street? Why do London billionaires build vast subterranean basements? And how do the technology of elevators and subversive urban explorers shape life on the surface and subsurface of the earth? *Vertical* will make you look at the world around you anew: this is a revolution in understanding your place in the world.

Revealing Heaven

Caught Up into Heaven In *A Divine Revelation of Heaven*, after thirty nights in which God gave her visions of the depths of hell and the punishments of the lost, Mary K. Baxter was shown for ten nights the glories of heaven—the home of redeemed souls. creatures, and brilliant throne of God. Mary also describes heaven's perfect order and purpose, what happens to children, and much more. These breathtaking glimpses of heaven, interspersed with applicable Bible verses, will turn your heart toward the beauty and joy that await every believer in Christ.
