This edition also includes separate chapters on knowledge and mind, the latter of which has updated essays on the mind-body problem and an essay addressing artificial intelligence.

Ethics and Law for School Psychologists

For nearly sixty years, Wheelock's Latin has remained the opitmus liber of beginning Latin textbooks. When Professor Frederic M. Wheelock's Latin first appeared in 1956, the reviews extolled its thoroughness, organization, and conciseness; one reviewer predicted that the book "might well become the standard text" for introducing students to elementary Latin. Now, nearly six decades later, that prediction has certainly proved accurate. This new edition of Wheelock's Latin has all of the features, many of them improved and expanded, that have made it the bestselling single-volume beginning Latin textbook: 40 chapters with grammatical explanations and readings drawn from the works of Rome's major prose and verse writers; Self-tutorial exercises, each with an answer key, for independent study; An extensive English-Latin/Latin-English vocabulary section; A rich selection of original Latin readings—unlike other Latin textbooks, which contain primarily made-up texts; Etymological aids, maps, and dozens of images illustrating aspects of the classical culture and mythology presented in the chapter readings. Also included are expanded notes on the literary passages, comments on vocabulary, and translation tips; new comprehension and discussion questions; and new authentic classical Latin readings, including

Roman graffiti, in every chapter.

Reading, Writing, and Learning in ESL

Brought up to date with an expanded range of selections, extended historical coverage, and a dedicated pluralistic commitment, the third edition of this highly popular text on film aesthetics features major additions of contemporary topics in film theory—including psychoanalytic, feminist, and Marxist approaches—and new essays on television, horror films, and experimental movie making. Of the 53 selections, 13 are new. The section "Kinds of Film" has been retitled "Film Genres" and concentrates exclusively on the distinctions within a single type of film: classical Hollywood narrative cinema. The final section, now called "Film: Psychology, Society, and Ideology" is substantially revised to take into account film's relationship to its consumers: how films shape or reflect cultural attitudes, reinforce or reject dominant modes of cultural thinking, and stimulate or frustrate people's needs and drives. Throughout the book chapter introductions have been rewritten to reflect today's concerns. Current and comprehensive, the book that *The Journal of Aesthetics and Art Criticism* called "the best collection available on the disparate comments in the fields of film theory and criticism" is now even better.

Publishers' circular and booksellers' record

For thirty-five years and through thirteen editions, Jim Henslin's *Down to Earth Sociology* has opened new windows onto the social realities that shape our world. Now in its fourteenth edition, the most popular anthology in sociology includes new articles on our changing world while also retaining its classic must-read essays. Focusing on social interaction in everyday life, the forty-six selections bring students face-to-face with the twin projects of contemporary sociology: understanding the individual's experience of society and analyzing social structure. The fourteenth edition's exceptional new readings include selections on the role of sympathy in everyday life, mistaken perceptions of the American family, the effects of a criminal record on getting a job, and the major social trends affecting our future. Together with these essential new articles, the selections by Peter Berger, Herbert Gans, Erving Goffman, Donna Eder, Zella Luria, C. Wright Mills, Deborah Tannen, Barrie Thorne, Sidney Katz, Philip Zimbardo, and many others provide firsthand reporting that gives students a sense of "being there." Henslin also explains basic methods of social research, providing insight into how sociologists explore the social world. The selections in *Down to Earth Sociology* highlight the most significant themes of contemporary sociology, ranging from the sociology of gender, power, politics, and religion to the contemporary crises of racial tension, crime, rape, poverty, and homelessness.

Wheelock's Latin, 6th Edition Revised

A new edition of a popular college reference features thirty percent new articles addressing current issues of contemporary sociology, from politics and religion to crime and poverty, in a volume that links each article to related chapters in widely used introductory textbooks. Original. 35,000 first printing.

The seventh edition of *Operations and Supply Chain Management for MBAs* is the definitive introduction to the fundamental concepts of supply chain and operations management. Designed specifically to meet the needs of MBA students, this market-leading book offers clear presentation of topics such process planning and design, capacity and location planning, schedule and inventory management, and enterprise resource planning. A strategic, conceptual approach helps readers comprehend the contemporary issues they will soon be facing in industry. This concisely-formatted volume enables instructors to customize their courses for the unique requirements of MBA programs. Each chapter integrates material directly into the text rather than sidebars, highlights, and other pedagogical devices to achieve a smooth, easy-to-read narrative flow. Carefully selected questions prompt discussions that complement the mature, more experienced nature of MBA students, while case studies and supplementary materials illustrate key concepts and practices. Topics such as

outsourcing and global sourcing, the role of information technology, and global competitiveness strategies assist students to understand working and competing in the globalized economy.

The Publishers' Circular

Language Awareness

The classic, single-volume introductory Latin textbook, introduced in 1956 and still the bestselling and most highly regarded textbook of its kind. Wheelock's Latin, sixth edition, revised, has all the features that have made it the best-selling single-volume beginning Latin textbook, many of them revised and expanded:

- o 40 chapters with grammatical explanations and readings based on ancient Roman authors
- o Self-tutorial exercises with an answer key for independent study
- o An extensive English-Latin/ Latin-English vocabulary section
- o A rich selection of original Latin readings -- unlike other textbooks which contain primarily made-up Latin texts
- o Etymological aids

Also includes maps of the Mediterranean, Italy and the Aegean area, as well as numerous photographs illustrating aspects of classical culture, mythology, and historical and literary figures presented in the chapter readings.

- o The leading self-tutorial Latin program. Also great for college and accelerated high school courses.
- o Wheelock's Latin is the top-selling Latin reference in the US.
- o Interest and enrolments in Latin have been steadily rising in the U.S. for the past 20 years. One-half million people are currently enrolled in Latin classes, and at least 10,000 teachers, professors and graduate assistants are teaching the language in America.

Film Theory and Criticism

Generations of students have learned Latin with this classic introductory textbook that remains the most highly regarded and bestselling single-volume of its kind. Wheelock's Latin 7th Edition retains its signature core of authentic Latin readings—curated from the works of Cicero, Vergil, and other major Roman authors of classical literature, drama, and poetry, as well as inscriptions, artifacts, and even authentic graffiti—that demonstrate the ancient Romans' everyday use of Latin: Latin as a living language. With expanded English-Latin/Latin-English vocabulary sections, tightly retooled

comprehension and discussion questions, self-tutorial exercises, translation tips, etymological aids, maps, and dozens of photos and illustrations that capture aspects of classical culture and mythology, Wheelock's Latin 7th Edition is the essential resource for students beginning their journey into the heart of the classical world.

2015 Recipient of the Textbook Excellence Award from the Text and Academic Authors Association (TAA) The Sixth Edition of Richard Gargiulo's well-respected *Special Education in Contemporary Society: An Introduction to Exceptionality* offers a comprehensive, engaging, and easy-to-read introduction to special education. Grounded in research and updated to reflect the most current thinking and standards of the field, the book provides students with the skills and knowledge to become successful teachers. Richard Gargiulo and new co-author Emily Bouck encourage a deep awareness and understanding of the human side of special education. Their book provides students a rare look into the lives of exceptional students and their families, as well as the teachers that work with exceptional persons throughout their lives. The new edition maintains the broad context and research focus for which the book is known, while expanding on current trends and contemporary issues to better serve both pre-service and in-service teachers of exceptional individuals. The text is organized into two distinct parts to offer students a truly comprehensive and humane understanding of exceptionality. In Part I, readers are provided strong foundational perspective on broad topics that affect all individuals with an exceptionality. In Part II, the authors engage students with thorough examinations of individual exceptionalities, and discuss historical, personal, and educational details of each exceptionality as it affects a person across the lifespan.

Exploring Philosophy

Ethics and Law for School Psychologists is the single best source of authoritative information on the ethical and legal issues school psychologists face every day. Designed specifically to meet the unique needs of psychologists in school settings, this book includes the most up-to-date standards and requirements while providing an introduction to ethical codes, ethical decision making, and the legal underpinnings that protect the rights of students and their parents. This new seventh edition has been extensively updated with the latest research and changes to the law, with an increased focus on ethical-legal considerations associated with the use of digital technologies. Coverage includes new case law on privacy rights, electronic record keeping, the 2014 Standards for Educational and Psychological Testing, digital assessment platforms, the latest interpretations of the Individuals with Disabilities Education Act, and more. Ethics texts for counseling and psychology are plentiful, and often excellent—but this book is the only reference that speaks directly to the concerns and issues specific to psychologists in school settings. Case vignettes, end-of-chapter questions, and discussion topics facilitate deeper insight and learning, while updated instructor's resources bring this key reference right into the classroom. Keeping up with the latest research and legal issues is a familiar part of a psychologist's duties, but a practice centered on children in an educational setting makes it both critical and more complex. *Ethics and Law for School Psychologists* provides a central resource for staying up to date and delivering ethically and legally sound services within a school setting.

The Reference Catalogue of Current Literature

Why should we study language? How do the ways in which we communicate define our identities? And how is this all changing in the digital world? Since 1993, many have turned to *Language, Culture, and Society* for answers to questions like those above because of its comprehensive coverage of all critical aspects of linguistic anthropology. This seventh edition carries on the legacy while addressing some of the newer pressing and exciting challenges of the 21st century, such as issues of language and power, language ideology, and linguistic diasporas. Chapters on gender, race, and class also examine how language helps create-and is created by-identity. New to this edition are enhanced and updated pedagogical features, such as learning objectives, updated resources for continued learning, and the inclusion of a glossary. There is also an expanded discussion of communication online and of social media outlets and how that universe is changing how we interact. The discussion on race and ethnicity has also been expanded to include Latin- and Asian-American English vernacular.

The Study of Philosophy

Economics of the Environment, Seventh Edition is a compendium of the best, most timely articles by a dream team of environmental economists, together with an original introductory chapter by the editor. Now in its seventh edition, *Economics of the Environment* serves as a valuable supplement to environmental economics text books and as a stand-alone reference book of key, up-to-date readings from the field. Edited by Robert N. Stavins, the book covers the core areas of environmental economics courses as taught around the world; and the included authors are the top scholars in the field. Overall, more than half of the chapters are new to this edition while the rest have remained seminal works. This text will prove invaluable to undergraduates and graduates studying environmental economics, environmental policy, and climate change policy. *Economics of the Environment* will also be a vital resource to practitioners in government, private industry, and advocacy groups and other NGOs working on environmental policy.

Big Java

Special Education in Contemporary Society

In this wonderfully original, intensely personal yet deeply analytical work, Carli Coetzee argues that difference and

disagreement can be forms of activism to bring about social change, inside and outside the teaching environment. Since it is not the student alone who needs to be transformed, she proposes a model of teaching that is insistent on the teacher's scholarship as a tool for hearing the many voices and accents in the South African classroom. For Coetzee, 'accentedness' is a description for actively working towards the ending of apartheid by being aware of the legacies of the past, without attempting to empty out or gloss over the conflicts and violence that may exist under the surface. In the broad context of education, 'accent' can be an accent of speech; an attitude; a stance against being 'understood'; yet a way of teaching that requires teacher and pupil to understand each other's contexts. This is a book about the relationships created by the use of language to convey knowledge, particularly in translation. The ideas it presents are evocative, thought-provoking and challenging at times. *Accented Futures* makes a significant and important contribution to research on identity in post-apartheid South Africa as well as to the fields of education and translation studies.

"Introducing Philosophy : A Text with Integrated Readings is a topically organized hybrid textbook, introducing core philosophical problems and the many ways they are, and have been, answered. The authors combine substantial selections from significant works in the history of philosophy with excerpts from current philosophy, clarifying the readings and providing context with their own detailed commentary and explanation. Spanning 2,500 years, the selections range from the oldest known fragments to cutting-edge contemporary essays. The chapters present alternative perspectives-including analytic, continental, feminist, and non-Western viewpoints-alongside the historical works of major Western philosophers; this juxtaposition encourages students to carefully evaluate the theories themselves"--

Down to Earth Sociology: 14th Edition

'Every story ever told really happened' (The Doctor, 'Hell Bent', 2015) Stories are, fundamentally what Doctor Who is all about. In *Once Upon a Time Lord*, Ivan Phillips explores a wide range of perspectives on these stories and presents a lively and richly-varied analysis of the accumulated tales that constitute this popular modern mythology. Concerned equally with 'classic' and 'new' Who, Phillips looks at how aspects of the Time Lord's story have been developed on television and beyond, tracing lines of connection and divergence across various media. He discusses Doctor Who as a mythology that has drawn on its own past in often complex ways, at the same time reworking elements from many other sources, whether literary, cinematic, televisual or historical. *Once Upon A Time Lord* offers an original take on this singular hero's journey, reading the unsettled enigma of the Doctor in relation to the characters, narratives and locations that he has encountered across more than half a century.

Core Questions in Philosophy

This seventh edition of *The Study of Philosophy* presents a comprehensive treatment of the major fields and figures of philosophy alongside primary readings by seminal thinkers to fuel debate and further study. New features of this edition include a substantive account of philosophical theology a reorganized treatment of early modern rationalism and empiricism discussion of the major highlights of twentieth- and twenty-first-century philosophy a survey of major contemporary moral problems From Plato to Plantinga, from Aristotle to Ayer, and from Socrates to Singer, this text brings the power of both ancient and modern philosophy to students of the twenty-first century!

Big Java: Early Objects, 7th Edition focuses on the essentials of effective learning and is suitable for a two-semester introduction to programming sequence. This text requires no prior programming experience and only a modest amount of high school algebra. Objects and classes from the standard library are used where appropriate in early sections with coverage on object-oriented design starting in Chapter 8. This gradual approach allows students to use objects throughout their study of the core algorithmic topics, without teaching bad habits that must be un-learned later. The second half covers algorithms and data structures at a level suitable for beginning students. Choosing the enhanced eText format allows students to develop their coding skills using targeted, progressive interactivities designed to integrate with the eText. All sections include built-in activities, open-ended review exercises, programming exercises, and projects to help students practice programming and build confidence. These activities go far beyond simplistic multiple-choice questions and animations. They have been designed to guide students along a learning path for mastering the complexities of programming. Students demonstrate comprehension of programming structures, then practice programming with simple steps in scaffolded settings, and finally write complete, automatically graded programs.
