Maude's excellent translation of Tolstoy's treatise on the emotionalist theory of art was the first unexpurgated version of the work to appear in any languages. More than ninety years later this work remains, as Vincent Tomas observed, one of the most rigorous attacks on formalism and on the doctrine of art for art's sake ever written. Tomas's Introduction makes this the edition of choice for students of aesthetics and anyone with philosophical interests.

The shocking and significant story of how the White House and Pentagon scuttled an epic Hollywood production. "Greg Mitchell is the best kind of historian, a true storyteller." —Kai Bird, Pulitzer Prize-winning author of American Prometheus Soon after atomic bombs exploded over Hiroshima and Nagasaki in 1945, MGM set out to make a movie studio chief Louis B. Mayer called "the most important story" he would ever film: a big budget dramatization of the Manhattan Project and the invention and use of the revolutionary new weapon. Over at Paramount, Hal B. Wallis was ramping up his own film version. His screenwriter: the novelist Ayn Rand, who saw in physicist J. Robert Oppenheimer the model for a character she was sketching for Atlas Shrugged. Greg Mitchell's *The Beginning or the End* chronicles the first efforts of American media and culture to process the Atomic Age. A movie that began as a cautionary tale inspired by atomic scientists aiming

to warn the world against a nuclear arms race would be drained of all impact due to revisions and retakes ordered by President Truman and the military—for reasons of propaganda, politics, and petty human vanity (this was Hollywood). Mitchell has found his way into the lofty rooms, from Washington to California, where it happened, unearthing hundreds of letters and dozens of scripts that show how wise intentions were compromised in favor of defending the use of the bomb and the imperatives of postwar politics. As in his acclaimed Cold War true-life thriller *The Tunnels*, he exposes how our implacable American myth-making mechanisms distort our history.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

Selections from American Literature

In the past twenty-five years many Native American writers have retold the traditional stories of powerful mythological women: Corn Woman, Changing Woman, Serpent Woman, and Thought Woman, who with her sisters created all life by thinking it into being. Within and in response to these evolving traditions, Leslie Marmon Silko takes from her own tradition, the Keres of Laguna, the Yellow Woman. Yellow Woman stories, always female-centered and always from the Yellow Woman's point of view, portray a figure who is adventurous, strong, and often alienated from her own people. She is the spirit of woman. Ambiguous and unsettling, Silko's "Yellow Woman" explores one woman's desires and changes--her need to open herself to a richer sensuality. Walking away from her everyday identity as daughter, wife and mother, she takes possession of transgressive feelings and desires by recognizing them in the stories she has heard, by blurring the boundaries between herself and the Yellow Woman of myth. Silko's decision to tell the story from the narrator's point of view is traditional, but her use of first person narration and the story's much raised ambiguity brilliantly reinforce her themes. Like traditional yellow women, the narrator is unnamed. By choosing not to reveal her name, she claims the role of Yellow Woman, and Yellow Woman's story is the one Silko clearly claims as her own. The essays in this collection compare Silko's many retellings of Yellow Woman stories from a variety of angles, looking at crucial themes like storytelling, cultural inheritances, memory, continuity, identity, interconnectedness, ritual, and tradition. This casebook includes an introduction by the editor, a chronology, an authoritative text of the story itself, critical essays, and a bibliography for further reading in both primary and secondary sources. Contributors include Kim Barnes, A. LaVonne Ruoff, Paula Gunn Allen, Patricia Clark Smith, Bernard A. Hirsch, Arnold Krupat, Linda Danielson, and Patricia Jones.

The Old Man and The Sea

"We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.
