PRACTICAL MATH APPLICATIONS, 3E offers users math skills needed for business and personal applications. The text begins with a comprehensive review of the basic math functions (addition, subtraction, multiplication, and division) and progresses to fractions and decimals. Once the students have mastered the basics, they are introduced to practical applications that develop critical thinking skills. These applications include bank records, purchasing and pricing merchandise, payroll, taxes, insurance, consumer credit, and interest (simple and compound). This easy-to-follow, step-by-step approach allows students to work at their own pace. Numerous self-help tips, practice activities, and self-assessments are provided so that each student feels competent in their newly acquired skill before moving on to the next. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Review Guide for LPN-LVN Pre-entrance Exam

“Perfect for parents who want to understand the different methods to do arithmetic their children are learning—and why they are being taught that way.” —Keith Devlin, award-winning Stanford University mathematician “Can you help me with my math homework?” If this question fills you with fear (or even panic), then Old Dogs, New Math is here to help! Gone are the days when elementary school students simply memorized their times tables and struggled through long division. Today, students are expected not just to find the right answer, but also to use the best method—and to explain why it works. If your attempts to help your child are met with “That’s not how the teacher does it,” then it’s time to take the stress out

of math homework. Old Dogs, New Math demystifies Common Core math for parents, including: Number lines, place value and negative numbers Long multiplication and division Fractions, percentages and decimals Shapes, symmetry and angles Data analysis, probability and chance Complete with sample questions, examples of children's errors, and over 25 games and activities, Old Dogs, New Math will not only help you and your child subtract on a number line or multiply on a grid—but also help you discover math all around you, and have fun doing it!
