Presents relevant standards-based content that targets student interest to stimulate and encourage learning. Includes case studies, thought-provoking questions, and simulations, and develops 21st century skills in students so that they can apply what they learn and participate as effective and responsible citizens.

The Americans Guided Reading Workbook Survey

Pacemaker United States History

A Square Deal

As a documentary history, this volume illustrates the evolution of civil affairs policy and practice in the Mediterranean and European Theaters of Operations during World War II. It deal s with U.S. Army and Anglo-American planning and operations in the sphere of relations with civilians in certain liberated and conquered countries in Europe during the war, prior to the invasion of Germany. Although the Army had not considered civil affairs preparation essential prior to World War II, during the war it created the Civil Affairs Division at the War Department level to coordinate all civil affairs planning and training. For the first time, extensive recruiting and training programs were organized, and G-5 (civil affairs and military government) staff sections were added at the theater army, corps, and division levels. Not only did soldiers become the administrators of civilian life for the Army's immediate needs, they also became the executors, and sometimes the proposers, of national and international political policy. This broader role was the result of the inability of the Allies to agree on specific political aims until after active hostilities were over, if

then. In this policy void, U.S. and British military authorities were often responsible for the gradual transition to a postwar national and international order with only general guidelines from higher authorities. The materials presented in Part I, concerned with the preparatory and organizational stage, suggest that the President's decision to entrust the civil affairs responsibility to the Army was because civilian authorities were unready to undertake the mission. Documents in Part II show the difficulties of fitting civilian institutions into the context of battle and a military framework, thus indicating additional rationale for leaving military authorities in exclusive control. Part III reveals that, despite this experience, Allied authorities planning for the liberated countries of northwest Europe still proposed to delegate civil affairs to indigenous civilian authorities, insofar as was possible. Operations are dealt with in Part IV, which show that conditions during and immediately following hostilities made it necessary for the Allies to render these authorities substantial assistance in the area of civil affairs. The compilation of documents appear to make it clear that the issue of military-versus-civilian administration was far less important than the issue of military values versus civil-political values, and it was in the latter area that the most serious difficulties arose.

KEY TOPICS: 1. Arguments over civilian or military control of civil affairs (Ch. I) 2. Civilian civil affairs activities in French North Africa and gradual military involvement (Ch. II) 3. Creation of a military organization to undertake civil affairs activities (Chs. III-VI) 4. Military government/civil affairs operations in Italy (Chs. VII-XXI) 5. Planning for civil affairs operations in Europe (Chs. XXII-XXIV) 6. Military government/civil affairs operations in western Europe (Chs. XXV-XXXII)

The American Yawp

The Americans

The Gettysburg Address is a speech by U.S. President Abraham Lincoln, one of the best-known in American history. It was delivered by Lincoln during the American Civil War, on the afternoon of Thursday, November 19, 1863, at the dedication of the Soldiers' National Cemetery in Gettysburg, Pennsylvania, four and a half months after the Union armies defeated those of the Confederacy at the Battle of Gettysburg. Abraham Lincoln's carefully crafted address, secondary to other presentations that day, was one of the greatest and most influential statements of national purpose. In just over two minutes, Lincoln reiterated the principles of human equality espoused by the Declaration of Independence and proclaimed the Civil War as a struggle for the preservation of the Union sundered by the secession crisis, with "a new birth of freedom" that would bring true equality to all of its citizens. Lincoln also redefined the Civil War as a struggle not just for the Union, but also for the principle of human equality. Beginning with the now-iconic phrase "Four score and seven years ago"—referring to the United States Declaration of Independence in 1776—Lincoln examined the founding principles of the United States as stated in the Declaration of Independence. In the context of the Civil War, Lincoln also memorialized the sacrifices of those who gave their lives at Gettysburg and extolled virtues for the listeners (and the nation) to ensure the survival of America's representative democracy: that "government of the people, by the people, for the people, shall not perish from the earth." Despite the speech's prominent place in the history and popular culture of the United States,

the exact wording and location of the speech are disputed. The five known manuscripts of the Gettysburg Address in Lincoln's hand differ in a number of details, and also differ from contemporary newspaper reprints of the speech.

The Gettysburg Address

Traces the life and career of the statesman who became president following the assassination of Abraham Lincoln.

The American Vision

American Government

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Discovering Our Past

Glenn's Urologic Surgery

Common Sense

State of the Union Address

This textbook seeks to determine the current state-of-the-art of reconstructive urethral surgery and to identify new trends in this subspecialty of reconstructive urology. To this end, internationally known experts and opinion leaders in the field were invited to Hamburg, Germany to discuss and demonstrate today's commonly used surgical techniques. Dialogues that took place during this convention, held in the spring of 2001 at the General Hospital in Hamburg-Harburg, are presented in

book chapter format in this volume. The text is rounded out by live recordings of the most important of the surgical procedures. (DVD included with this compendium.) Our desire was to publish, in close collaboration with Springer, a surgical textbook that presents the most important basic and modern techniques in urethral surgery. These techniques are underscored with simple and instructive drawings and »live surgery« video clips. We consciously chose not to make the text an all-inclusive surgical text. Thus the techniques included reflect a deliberate subjective selection on the part of the editors. We focused on the »renaissance« of graft techniques. Much of the material is concentrated on buccal mucosal and preputial grafts Two-stage surgical techniques, particularly for complex cases or patients who have undergone multiple previous operations, are also included. This book is written for all urologists.

United States Government

Glenn's Urologic Surgery is a comprehensive but concise textbook focused on surgical procedures. After more than 30 years it is still required reading for most urology residents and is consulted by practicing physicians while planning surgeries. Chapters are heavily illustrated and progress from diagnosis to indications for surgery, to brief sections on alternative therapies, and then to detailed sections on surgical technique before closing with a discussion of outcomes as found in the literature. The Seventh Edition continues to emphasize laparoscopic procedures. Each section opens with a thoroughly illustrated description of relevant anatomy.

United States History Texas

Our linguistic ancestors had used the wheel, were settled arable farmers, kept sheep and cattle, brewed beer, got married, made weapons, and had at least 27 verbs for the expression of strife. The subjects to which the authors devote chapters include fauna, flora, family and kinship, clothing and textiles, food and drink, space and time, emotions, mythology, religion, and the continuing quest to discover the Proto-Indo-European homeland."

Andrew Johnson, 17th President of the United States

This book tackles the regulatory issues of Unmanned Aerial Systems (UAS) or Remotely-Piloted Aerial Systems (RPAS), which have profound consequences for privacy, security and other fundamental liberties. Collectively known as "drones," they were initially deployed for military purposes: reconnaissance, surveillance and extrajudicial executions. Today, we are witnessing a growth of their use into the civilian and humanitarian domain. They are increasingly used for goals as diverse

as news gathering, aerial inspection of oil refinery flare stacks, mapping of the Amazonian rain-forest, crop spraying and search and rescue operations. The civil use of drones is becoming a reality in the European Union and in the US. The drone revolution may be a new technological revolution. Proliferation of the next generation of “recreational” drones show how drones will be sold as any other consumer item. The cultural perception of the technology is shifting, as drones are increasingly being used for humanitarian activities, on one hand, but they can also firmly be situated in the prevailing modes of postmodern governance on the other hand. This work will be of interest to researchers in Criminology and Criminal Justice interested in issues related to surveillance, security, privacy, and technology. It will also provide a criminological background for related legal issues, such as privacy law, aviation law, international criminal law, and comparative law.

Follows the life of the Civil War general and president from birth to death, examining his childhood, education, employment, and political career.

Creating America, Grades 6-8 Beginnings Through Reconstruction

State of the Union Address By Franklin D. (Franklin Delano) Roosevelt I come before you at the opening of the Regular Session of the 73d Congress, not to make requests for special or detailed items of legislation; I come, rather, to counsel with you, who, like myself, have been selected to carry out a mandate of the whole people, in order that without partisanship you and I may cooperate to continue the restoration of our national wellbeing and, equally important, to build on the ruins of the past a new structure designed better to meet the present problems of modern civilization. We are delighted to publish this classic book as part of our extensive

Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

United States History, Grades 6-8

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass*

The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Reconstructive Urethral Surgery

The Jungle portrays the harsh conditions and exploited lives of immigrants in the United States in Chicago and similar industrialized cities. The book depicts working-class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. The primary purpose of the novel in describing the meat industry and its working conditions was to advance socialism in the United States. The main character in the book, Jurgis Rudkus, a Lithuanian immigrant, tries to make ends meet in Chicago. The book begins with his wife Ona and his wedding feast. He and his family live near the stockyards and meatpacking district where many immigrants, who do not know much English, work. He takes a job at Brown's slaughterhouse. Jurgis had thought the US would offer more freedom, but he finds working-conditions harsh. He and his young wife struggle to survive as they fall deeply into debt and become prey to con men. Hoping to buy a house, they exhaust their savings on the down payment for a substandard slum house, which they cannot afford. The family is eventually evicted after their money is taken.

Ulysses S. Grant, 18th President of the United States

At the end of the Civil War, a young house slave on a small North Carolina plantation searches for her mother who was mysteriously sold when Tancy was a baby.
