Introduction to Managerial Accounting

"Introduction to Managerial Accounting," 5/e by Brewer/Garrison/Noreen is based on the market-leading text, "Managerial Accounting," by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; Brewer 5e has been rethought and retooled to meet the needs of the market. Brewer 5e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Garrison - Your guide through the challenging waters of managerial accounting. For centuries, the lighthouse has stood as a beacon of guidance for mariners at sea. More than an aid to navigation, the lighthouse symbolizes safety, permanence, reliability, and the comforts of the familiar. For this reason, we have chosen to illustrate the Canadian eighth edition of *Managerial Accounting* by Garrison, Chesley, Carroll and Webb with an image that encapsulates the greatest strengths of this market leading text. Garrison is your guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform within their organizations—plan operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. *Managerial Accounting* focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.

"Fundamental Managerial Accounting Concepts" 4e by Edmonds/Edmonds/Tsay/Olds focuses on concepts that are isolated and introduced in a logical sequence. The authors intentionally limit the scope of the material to help students build a solid foundation of the most important concepts in managerial accounting. "Fundamental Managerial Accounting Concepts" 4e is organized in a distinctive way, particularly in the first six chapters. The objective is to establish a coherent, integrative framework that enables students to build knowledge in stepwise fashion. The authors' goal is for students to understand the underlying principles of accounting, not just memorize content.
