Handbook of Clinical Obstetrics

First published in 1919 as 'Diseases of Women', Gynaecology by Ten Teachers is well established as a concise, yet comprehensive, guide. The twentieth edition has been thoroughly updated by a new team of 'teachers', integrating clinical material with the latest scientific developments that underpin patient care. Each chapter is highly structured, with learning objectives, definitions, aetiology, clinical features, investigations, treatments, case histories and key point summaries and additional reading where appropriate. New themes for this edition include 'professionalism' and 'global health' and information specific to both areas is threaded throughout the text.

Mastering Single Best Answer Questions for the Part 2 MRCOG Examination

Following on from the success of the first edition, Short Answer Questions and MCQs in Anaesthesia and Intensive Care has been completely rewritten to reflect the changes to the final FRCA exam from a long essay based examination to

compulsory short answer questions (SAQs). This guide aims to introduce methods and systems of answering questions succinctly and accurately. Almost all of the questions have been asked in the final FRCA since 1996 and most chapters carry more detail than required to reach a pass standard. The new edition takes a question-orientated approach and provides guidance for the final exam. Given the short time allowed for answering the SAQs, previous practice, prior to sitting the examination, is essential. Each of the twelve sections has a comprehensive set of multiple choice questions (MCQ) to the same standard as those set by the Royal College of Anaesthetists. It is vital that candidates practice MCQs as well as SAQs, and the ninety multiple choice questions that follow the SAQ paper carry just as much weight as the SAQ paper. The book has been structured as topic based sections and chapters, each of which can be followed and used to enable self-testing. This book is an invaluable revision aid during preparation for the final FRCA exam and, due to the breadth of content, also forms a useful ready reference throughout anaesthetic training.

Lange Q&A Obstetrics & Gynecology, 9th Edition

Multiple Choice Questions are the most common method of assessing knowledge in radiology. This book has more than 1000 questions, covering all the essential topics in Gastrointestinal Radiology. The questions have been divided into separate topics, which will enable revising the subjects on a topic basis, with due emphasis on anatomy, techniques and pathology. The questions have been designed on the format used by the Royal College of Radiologists UK, Ireland, Hong Kong, Australia and New Zealand. There is a single question with five stems, which require a true or false response. The answers and detailed explanations are provided at the end of each chapter. This book will be a valuable resource for review and practice prior to the Fellowship exams. Bibliographies have been provided for further reading.

OSCEs and MCQs in Obstetrics and Gynaecology

Get Through MRCOG Part 2: MCQs covers the breadth and depth of the MRCOG Part 2 examination syllabus and is an essential revision tool for candidates preparing for this examination. The comprehensive and wide collection of practice questions is designed to help the candidate test and assess their knowledge of the subject, aiding them in thorough preparation for the exam. The text contains 750 multiple choice stems, each with around four associated questions, providing the reader with a total of 3000 individual questions with which to test themselves. The material is divided up by subject area, allowing candidates to test their knowledge on a particular topic. The 13 'modules' are followed by two mock papers, each containing a selection of questions on different subject areas, which the reader can attempt under timed conditions. Answers are provided, with useful explanatory information for all questions to help the reader understand why their answer is right or wrong. The author, Paul Ayuk, was clinical lecturer in obstetrics and gynaecology at Oxford University for 6 years and has run an on-line MRCOG course for over 5 years, assisting over 8000 candidates worldwide.org.

The author, Paul Ayuk, was clinical lecturer in obstetrics and gynaecology at Oxford University for 6 years and has run an on-line MRCOG course for over 5 years, assisting over 8000 candidates worldwide.

Self-Assessment by Ten Teachers: EMQs, MCQs, SAQs and OSCEs in Obstetrics & Gynaecology

This volume of practise true/false MCQs and short answer questions is intended to be used by the trainee obstetrician and gynaecologist as a self-assessment aid throughout training and during revision for the MRCOG examination, in particular Part 2. Questions have been carefully designed to test both theoretical and practical knowledge, and are representative of the curricular elements highlighted within the RCOG trainee logbook.

Clinical Obstetrics and Gynaecology

Get Through MRCOG Part 1, Second Edition, provides a selection of questions covering the basic and applied sciences relevant to the clinical practice of obstetrics and gynaecology and mapped to the RCOG Knowledge Areas in the MCQ style. With appropriate explanations of the answers and references to the relevant guidelines, this is a definitive resource for those taking the MRCOG Part 1 examination.

MCQ Companion to Applied Radiological Anatomy

The Part 1 MRCOG covers basic science knowledge as it applies to obstetrics and gynaecology. There are two papers, both of which contain a mixture of single best answer questions (SBAs) and multiple choice questions (MCQs). This book provides a verbatim transcript for the MCQ element of each of the 10 papers set between 1997 and 2001, giving candidates the opportunity to test their knowledge and preparedness for the examination against real questions.

SAQs, MCQs, EMQs and OSCEs for MRCOG Part 2, Second edition

This book comprises MCQs that are designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology as recommended in the syllabus for the MRCOG Part 2 examination. Upwards of 250 single and multiple stem questions will be included giving over 800 questions in all. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program

will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

Short Answer Questions and MCQs in Anaesthesia and Intensive Care, 2Ed

The Part 2 MRCOG consists of three question formats: multiple choice questions (MCQs), extended matching questions (EMQs) and short answer questions (SAQs). This book provides a verbatim transcript for the MCQ element of each of the 10 papers set between 1997 and 2001, giving candidates the opportunity to test their knowledge and preparedness for the examination against real questions.

MCQs & Short Answer Questions for MRCOG

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-s

Self Assessment in Obstetrics and Gynaecology by Ten Teachers 2E EMQs, MCQs, SAQs & OSCEs

Obstetrics & Gynaecology has established itself as a key recommendation for faculty and a firm favourite for health sciences students. The opening sections of this new edition incorporate the relevant basic science, history and examination, investigations and diagnosis, as well as common diseases, abnormalities, and complications in gynaecology and obstetrics respectively. These are supported by two unique sections on gynaecology and obstetrics management, which are tailored to help students revise for exams, especially OSCEs. A brand new chapter covering ethics in obstetrics and gynaecology makes this fully-updated fourth edition the most comprehensive introduction available. Obstetrics & Gynaecology now includes a companion website at www.impeyobgyn.com, featuring self-assessment MCQs and EMQs, chapter summary slides, and all the figures from the book as PowerPoint slides.

Emergency Medicine MCQs

This volume of practise true/false MCQs and short answer questions is intended to be used by the trainee obstetrician and gynaecologist as a self-assessment aid throughout training and during revision for the MRCOG examination, in particular Part 2. Questions have been carefully designed to test both theoretical and practical knowledge, and are representative of

the curricular elements highlighted within the RCOG trainee logbook.

Obstetrics by Ten Teachers

Prepare EarlyScore Higher Completely revised and small enough to fit in a lab coat pocket, this review of Pediatrics features 500 questions with answers and explanations, including 200 new questions in clinical vignette format. All questions are reviewed by recent USMLE Step 2 test-takers.

MCQs for MRCOG Part 1

This book established itself in its first edition as the definitive 'one-stop-shop' revision aid; the only one available to encompass all elements of the MRCOG Part 2 examination in a single volume. Now incorporating practice EMQs as well as the standard question types, this second edition will ensure that it retains its place on the 'must-have' list for every candidate preparing for this exam. Concentrating on testing the candidate's theoretical and practical knowledge as recommended in the current MRCOG syllabus, the book tests the trainee with questions in obstetrics and gynaecology and those aspects of medicine, surgery and paediatrics relevant to the practice of both. The book is divided into four key parts, one for each style of question, each of which opens with an introductory section on how to approach the exam and, crucially, how to fail it. # Part 1 provides a series of short answer practice papers. Common mistakes are highlighted as well as a list of key points required to get full marks. A sample answer is given for each question # Part 2 contains a mock paper for the MCQ part of the exam, containing 225 questions with answers and helpful annotations # Part 3 introduces the EMQ, giving the reader 40 questions in the style of the examination, together with answers and explanatory notes # Part 4 is devoted to the OSCE, with descriptions of 20 sample stations assessing different aspects of clinical practice, advice on how to tackle these, and suggested marking schemes. Throughout, questions have been designed to test factual knowledge and understanding, problem-solving ability, and clinical and communication skills.

Obstetrics and Gynecology at a Glance

What is an OSCE? How do you prepare for it? What is the structure of the DRCOG exam? Can I time and score myself ahead of the exam? How are OSCE and MCQ questions set and what marking schemes are used? Answer to all of these questions - and more - are provided in this new text. The quality of the text and supporting illustrations - many in full colour - will make it useful to a wide audience, including candidates preparing for the DRCOG and the MRCOG; undergraduate medical students who need to revise their understanding of O&G; midwives, as an aid to practice; and overseas doctors studying for the PLAB.

100 Questions and Answers about Infertility

This comprehensive question-and-answer resource covers all aspects of the curriculum for the Part 2 MRCOG examination. Candidates are given the opportunity to practise the Single Best Answer question style, to cover the content they will encounter in the examination and to assess their knowledge. As consultants actively engaged in the writing of the Part 2 Single Best Answers, the authors and editor have provided directly applicable questions. Candidates to review the syllabus in an organised, systematic manner, with comprehensive explanations for each answer. This title also includes new sections on ethics, training, audit and clinical governance. Mock exams are also available online to familiarise candidates with the real-life examination. The detailed answers, evidence and comprehensive list of references offer an excellent training and reading source for all candidates preparing for the Part 2 MRCOG examination.

Single Best Answer MCQs in Anaesthesia

The most thorough and up-to-date obstetrics and gynecology review available for the USMLE Step 2 CK and the Ob/Gyn clerkship exam 1300+ board-style questions deliver a thorough review of the clerkship's core competencies LANGE Q&A Obstetrics & Gynecology, 9e features more than 1300 USMLE-style questions and answers with concise but comprehensive explanations of correct and incorrect answer choices. This trusted review simulates the USMLE Step 2 CK test-taking experience by including clinical vignette questions and updates on the latest in obstetric and gynecologic treatment, therapies, diseases and disorders. Questions are carefully selected to match the style and difficulty level of what students will see on the actual exams. The ninth edition features more than 35 images, and has been student and resident reviewed to assure the most relevant, up-to-date content possible. Build confidence and assess your knowledge with 1,300+ USMLE-style questions Get detailed explanations for why answers are correct or incorrect Review one subject at a time to pinpoint your strengths and weaknesses Gain a better understanding of key concepts with more than 35 images Bolster your preparation with a 150-question comprehensive practice exam Everything you need to excel: Clinical vignette questions simulate what you will see on the actual exam Student and resident reviewed to make sure you are studying the most relevant material possible Written by experienced Ob-Gyn faculty Questions focus on high-yield material, allowing you to maximize your study time

Gynaecology by Ten Teachers

This book includes MCQs in the basic sciences that underpin the study of obstetrics and gynaecology, as is examined in Part 1 of the membership examination. Following the syllabus recommended by the RCOG, the questions are arranged in papers of 60 questions, each question having 5 stems with True/False answer options. Full answers with explanatory text will be

provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD-ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

Practice Single Best Answer Questions for the Final FRCA

This examination and revision guide comprehensively tests knowledge at all levels in obstetrics and gynaecology. The wide-ranging sample questions have detailed answers to provide proper explanation and aid understanding, and the variety of question formats prepares students for all possibilities in the examination. The best of five question format is ideal for DRCOG candidates, the EMQs prepare the MRCOG candidates, and the MCQs will test both DRCOG and MRCOG candidates. The book is also highly recommended for undergraduates preparing for their finals, who will welcome the sample best of fives and EMQs now that essays and short answer questions are becoming a thing of the past.

EFOG Part 1: 400 MCQs, EMQs and SBAs

EMPOWER YOURSELF! Completely revised and updated, 100 Questions & Answers About Infertility, Second Edition is an indispensable resource for both the recently diagnosed infertility patient and the veteran of unsuccessful treatments. Written in an easy-to-read format, it provides authoritative, practical answers to the most commonly asked questions about infertility. It covers a wide-range of topics including the etiology, diagnosis, and therapies available for infertility. Additionally, the appendix features key information from the CDC-SART IVF outcome.

Past Papers MRCOG Part One Multiple Choice Questions

Essential MCQs in Obstetrics and Gynaecology for Medical Students

The aim of this book is to provide a straightforward summary of the knowledge required for examinations in specialist Obstetrics and Gynaecology. Part Two of the examination for Membership of the Royal College of Obstetricians and Gynaecologists would be a good example. The volume is intended as a companion to the highly successful Basic Sciences for Obstetrics and Gynaecology which covers the knowledge required for preliminary examinations. Increasingly,

examinations of all types are based on multiple choice questions (MCQ) or structured answer questions (SAQ). No apology is made for the fact that the present book addresses the sort of "fact" which lends itself to testing by this approach. Thus, there is little discussion of speculative or contentious areas, no account of present or future research, and no references. Numerous excellent books are available which cover these topics in a much fuller and more discursive manner, and the present volume does not seek to emulate them.

MCQs and EMQs in Surgery: A Bailey & Love Companion Guide

Practice Single Best Answer Questions for the Final FRCA: A Revision Guide covers the complete syllabus of this new-style exam. The book includes 10 papers, each of which consists of 30 questions on clinical anaesthesia, intensive care medicine and pain management. Each practice paper matches the style, number and level of questions that candidates will face in their FRCA exam. Written by a group of anaesthetists experienced in teaching clinical anaesthesia and preparing trainees for their exams, every question is supplemented with a thorough explanation, incorporating the latest research and guidelines, and further reading suggestions. The book also includes guidance on how to go about answering single best answer questions. Pitched at just the right level for the exam, Practice Single Best Answer Questions for the Final FRCA: A Revision Guide is an essential resource for all Final FRCA candidates.

EMQs in Obstetrics and Gynaecology

"MCQs in Gynaecology and Obstetrics will help medical students prepare for exams during clinical attachments and medical finals. This comprehensive self-assessment text accompanies the well-known volumes, Gynaecology by Ten Teachers and Obstetrics by Ten Teachers. Questions and answers are referenced to appropriate chapters in these texts."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Multiple Choice Questions in Gynaecology and Obstetrics

Previously entitled MCQs in Gynaecology & Obstetrics 3rd Edition, this text has been expanded to include Short Answer Questions (SAQs), in line with new assessments used in many medical schools. 'Self-Assessment in O&G' contains 300 MCQs and 60 SAQs, all of which are closely referenced to the 17th editions of 'Ten Teachers in Obstetrics' and 'Ten Teachers in Gynaecology'. Detailed explanatory answers ensure that the title can be used on its own or in conjunction with other texts. Ten Teacher's Self Assessment in Obstetrics and Gynaecology is a comprehensive revision aid that will help medical students prepare for exams during clinical attachments and medical finals. The self-test format allows assessment of learning in obstetrics and gynaecology with multiple choice and short answer questions. The questions and explanatory

answers are referenced to the appropriate chapter in the well-known volumes Gynaecology by Ten Teachers and Obstetrics by Ten Teachers to enhance learning and revision.

Practice Single Best Answer Questions

The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists.

MRCOG Part 2: 550 MCQs, EMQs and SAQs

The second edition of this quick reference handbook for obstetricians and gynecologists and primary care physicians is designed to complement the parent textbook Clinical Obstetrics: The Fetus & Mother. The third edition of Clinical Obstetrics: The Fetus & Mother is unique in that it gives in-depth attention to the two patients – fetus and mother, with special coverage of each patient. Clinical Obstetrics thoroughly reviews the biology, pathology, and clinical management of disorders affecting both the fetus and the mother. Clinical Obstetrics: The Fetus & Mother - Handbook provides the practising physician with succinct, clinically focused information in an easily retrievable format that facilitates diagnosis, evaluation, and treatment. When you need fast answers to specific questions, you can turn with confidence to this streamlined, updated reference.

Get Through MRCOG Part 1

Practice Single Best Answer Questions: MRCOG Part 2 is an ideal revision resource for the new SBA format MRCOG Part 2 exam. The book contains over 200 questions across eight topics, based on the RCOG (Royal College of Obstetrics and Gynaecology) and NICE (National Institute for Health and Care Excellence) guidelines. The first chapter covers antenatal care and labour complications in UK practice, including physiology, pharmacology, and labour mechanism. Further chapters cover aspects of normal and abnormal labour, caesarean section, cardiotocography (measuring the heartbeat of an unborn

baby), and foetal hypoxia. Also included are questions on endometriosis, menstrual disorders, pelvic pain, cervical intraepithelial neoplasia and cervical cancers, vulval intraepithelial neoplasia and vulval disorders. The chapter on fertility includes general questions on male and female subfertility, and the urogynaecology section features questions on general procedures and treatment in primary care. Chapter eight consists of a complete practice SBA paper of 50 questions, to be taken under examination conditions. All chapters provide references for further reading to help MRCOG candidates prepare for the Part 2 exam. Key Points Over 200 questions arranged into eight topics Questions based on RCOG and NICE guidelines Excellent practice for the new SBA format exam, including a complete practice paper Authored by the convenor for International MRCOG Part 1 courses and member of the assessment sub-committee of RCOG

Ultrasound in Obstetrics and Gynaecology

European Practice in Gynaecology and Obstetrics is a series of books conceived and endorsed by the European Board and College of Obstetrics and Gynaecology (EBCOG). The topics chosen for each volume are those of significant clinical interest where treatment is changing in response to research findings and developments in practice. The volume editor and contributing authors are European specialists invited to contribute because of their expertise in their field. The books concentrate on various types of management used in European practice as well as published results. The authors present treatments for which a consensus exists and - when there is no consensus - they discuss the key elements of the controversy. Each book provides a review of the basic science, recent concepts in pathophysiology, clinical aspects, treatment and unresolved problems or controversies, as well as the major recent references. A final section provides multiple-choice questions for each chapter. Series concentrates on important and changing areas of clinical practice Each volume editor is a leading European expert in the field Contributors are drawn from a wide range of European countries All volumes include a review of basic science and pathophysiology, as well as clinical aspects, treatment, unresolved problems Current references are included for each chapter Multiple choice questions are provided at the end of each chapter This volume comes with a CD containing all the colour images in the book plus 106 extra images

MCQs & Short Answer Questions for MRCOG

An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three

main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice – from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs 'on call'. Plus, this emergency medicine text is accompanied by an app – a separate product containing 180 randomised multiple-choice questions on all the topics within the book.

Obstetrics and Gynaecology

Past Papers MRCOG Part Two Multiple Choice Questions

A revision aid for radiology trainees world-wide studying for their professional examinations in the field.

Pediatrics: PreTest Self-Assessment and Review

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical School. "This book is the first to assist students with a new format of testing knowledge and clinical skills, i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor, in the Foreword. This revision aid in Obstetrics and Gynaecology is based on the Extended Matching Question format (EMQ). It contains over 200 patient vignettes arranged in topic areas covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.

Ten Teachers' Self-Assessment in Gynaecology & Obstetrics, 4Ed

Self-Assessment by Ten Teachers presents a new opportunity for medical students to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practise their exam technique. Working well as a stand-alone book, this comprehensive self-assessment book is also designed to complement the well-known volumes 'Gynaecology by Ten Teachers' and 'Obstetrics by Ten Teachers', both of which have now reached their 18th editions. The book tests information

covered in the two 'Ten Teachers' volumes via the full variety of exam question types - EMQs, MCQs, SAQs and OSCEs. Each answer has a short explanation of its own, and cross-references are also made to page numbers and topics in the main textbooks.

MCQs in clinical radiology

This comprehensively updated new edition provides a thorough and dynamically-illustrated overview of the female reproductive organs, care of the female during pregnancy, childbirth and the postnatal period. It is clinically relevant, with a focus on diagnosing, managing and treating disorders and abnormalities and is fully aligned with medical school curricula. *Obstetrics and Gynecology at a Glance*: • Recaps basic history taking, anatomy and endocrinology and focuses on clinically relevant information • Covers each topic in a double-page spread, packed with charts, graphs, photographs and visuals • Includes thoroughly updated sections on reproductive endocrinology, infertility and urogynecology The companion website at www.ataglanceseries.com/obgyn features interactive flashcards, case studies and multiple-choice questions (MCQs). *Obstetrics and Gynecology at a Glance* is the perfect guide for medical students, junior doctors and midwives, and is ideal for those embarking on clinical rotations and the clerkship.

Get Through Mrcog - Mcqs

First published in 1917 as 'Midwifery', *Obstetrics by Ten Teachers* is well established as a concise, yet comprehensive, guide within its field. The twentieth edition has been thoroughly updated by a new team of 'teachers', integrating clinical material with the latest scientific developments that underpin patient care. Each chapter is highly structured, with learning objectives, definitions, aetiology, clinical features, investigations, treatments, case histories and key point summaries and additional reading where appropriate. New themes for this edition include 'professionalism' and 'global health' and information specific to both areas is threaded throughout the text. Along with its companion *Gynaecology by Ten Teachers* the book will continue to provide an accessible 'one stop shop' in obstetrics and gynaecology for a new generation of doctors.

MCQs for MRCOG

EFOG Knowledge Based Assessment: 400 MCQs, EMQs and SBAs offers a wealth of questions for the new European fellowship exam in obstetrics and gynaecology. Officially endorsed by EBCOG, EFOG 400 MCQs, EMQs and SBAs will ensure that candidates have sufficient practice material to ensure success in the exam. Chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this

book provides the essential revision text to maximise chances of exam success. Key points Officially endorsed and approved by the European Board of Obstetrics and Gynaecology 400 questions that follow the EBCOG's EFOG syllabus Answers feature detailed explanations to consolidate knowledge

Pre NEET Obstetrics and Gynaecology

Further to PasTest's 'Essential MCQs' range, here is a book specific to medical students studying for their Obstetrics and Gynaecology examinations. Three practice papers provide mixed questions and revision checklists that cover all areas.

Obstetrics & Gynecology

MRCOG PART 2: 550 MCQs, EMQs and SAQs offers the most up-to-date and comprehensive coverage of practice questions for trainees preparing for the MRCOG Part 2 written exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 550 questions, comprising 250 MCQs, 250 EMQs and 50 SAQs, reflecting the breadth of topics encountered in the actual exam Answers feature concise rationales to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice

Obstetrics and Gynaecology for Finals, DRCOG and MRCOG

This book presents medical students and those preparing for postgraduate examinations with an ideal opportunity to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practice their exam technique across a range of question formats. It can be used as a standalone revision guide, but is also designed to complement the latest editions of the best-selling volumes Gynaecology by Ten Teachers and Obstetrics by Ten Teachers. Key features: Includes an extensive range of question types—EMQs, MCQs, SBAs, SAQs, and OSCEs—providing comprehensive coverage compatible with all relevant examinations Fully up-to-date—ensuring prospective candidates practice across all areas on which they will be tested Clear and accessible— with concise explanations of answers and directions to the Ten Teachers textbooks for those seeking further advice and guidance With coverage across the obstetrics and gynaecology curriculum, medical students and those studying for for DRCOG and MRCOG examinations will find Self Assessment in Obstetrics and Gynaecology by Ten Teachers provides invaluable practice and guidelines during the critical revision period.
