The Journal of Medical Education

Edinburgh Medical Journal VOL.XXVI-Part I.July to December,1880

This product documents the process by which foodborne parasites were ranked from a global food safety perspective and provides a ranking and information on all the top ranked parasites both generally and from a regional perspective. It directly supports the establishment of international standards on foodborne parasites by the Codex Alimentarius which are agreed by countries and can then be used as a basis for improving the safety of specific products and facilitation their trade internationally. These in turn directly contribute to the SO by

promoting more efficient and inclusive trade.

Social Capital and Health

With an emphasis on peer-produced content and collaboration, Wikipedia exemplifies a departure from traditional management and organizational models. This iconic "project" has been variously characterized as a hive mind and an information revolution, attracting millions of new users even as it has been denigrated as anarchic and plagued by misinformation. Have Wikipedia's structure and inner workings promoted its astonishing growth and enduring public relevance? In *Common Knowledge?*, Dariusz Jemielniak draws on his academic expertise and years of active participation within the Wikipedia community to take readers inside the site, illuminating how it functions and deconstructing its distinctive organization. Against a backdrop of misconceptions about its governance, authenticity, and accessibility, Jemielniak delivers the first ethnography of Wikipedia, revealing that it is not entirely at the mercy of the public: instead, it balances open access and power with a unique bureaucracy that takes a page from traditional organizational forms. Along the way, Jemielniak incorporates fascinating cases that highlight the tug

of war among the participants as they forge ahead in this pioneering environment.

Educational Rankings Annual

Saint Paul Medical Journal

Detailed annotations (100-150 words) on some 500 items focus on articles, books, and book chapters published from 1980 through 1991 and important classic items published prior to 1980. With both scholarly/theoretical and practical how-to perspectives, the book covers material concerning research, university, college, community college, and special libraries. Major chapters discuss an overview of the collection evaluation process, methods and methodology, use studies, availability studies, the RLG Conspectus, serials evaluation (including serials review case studies), citation analysis (including structure of disciplines), journal ranking, standards, and application of automation to the collection evaluation process. The book will be useful to academic library practitioners, students, teachers, and researchers in library and information science education.

IEEE ZINC Conference 2016 is a part of ZINC events for researchers and engineers from industry and academia to encourage them to share their ideas and experience in consumer electronics applications. Special focus is on young professionals. The mission is to bring the spirit of CE and technological innovations that benefit humanity, to spark the collaboration between different communities, to empower individuals to make positive differences in the region. It is the way of giving back to community.

The American Journal of Tropical

Medicine and Hygiene

This book studies the sociology of health and medicine across three different countries, the USA, UK and Australia, examining the nature of disciplines and their specialties and posing sociological questions about the formation of intellectual fields and their social relations.

The Dublin Quarterly Journal of Medical Science

Issues in Orthopedics and Occupational and Sports Medicine: 2011 Edition is a ScholarlyEditions™ eBook that delivers timely, authoritative, and comprehensive information about Orthopedics and Occupational and Sports Medicine. The editors have built Issues in Orthopedics and Occupational and Sports Medicine: 2011 Edition on the vast information databases of ScholarlyNews.™ You can expect the information about Orthopedics and Occupational and Sports Medicine in this eBook to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Issues in Orthopedics and Occupational and Sports Medicine: 2011 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is

available at <http://www.ScholarlyEditions.com/>.

The Future of Medical Journals

The purpose of this book is to take stock of what we have learned during the first decade of research on social capital and health. What is social capital? How do we measure it? What have we learned so far about the empirical relationships between social capital and specific health outcomes? What is the potential utility of the concept for designing interventions to improve population health? These are some of the questions that individual chapters will address. [Ed.]

British Medical Journal

Collection Evaluation in Academic Libraries

A unique reference manual for academic surgeons, this book discusses every facet of surgical research. From getting grant money to choosing a topic, reviewing the literature, planning and conducting research, and reporting results.

The Medico-surgical Review, and Journal of Practical Medicine

This up-to-date resource presents more than 4,000 national, regional, local and international lists and rankings compiled from hundreds of respected sources. Entries typically include a description of the ranking; background information on criteria for establishing the hierarchy; additional remarks about the ranking; the complete or partial (if extensive) ranking; and a complete source citation for locating additional information if necessary.
