Tax Court Reporter: Current memo decisions

Beginning with the Cold War and concluding with the 2003 invasion of Iraq, Hannah Gurman explores the overlooked opposition of U.S. diplomats to American foreign policy in the latter half of the twentieth century. During America's reign as a dominant world power, U.S. presidents and senior foreign policy officials largely ignored or rejected their diplomats' reports, memos, and telegrams, especially when they challenged key policies relating to the Cold War, China, and the wars in Vietnam and Iraq. The Dissent Papers recovers these diplomats' invaluable perspective and their commitment to the transformative power of diplomatic writing. Gurman showcases the work of diplomats whose opposition enjoyed some success. George Kennan, John Stewart Service, John Paton Davies, George Ball, and

John Brady Kiesling all caught the attention of sitting presidents and policymakers, achieving temporary triumphs yet ultimately failing to change the status quo. Gurman follows the circulation of documents within the State Department, the National Security Council, the C.I.A., and the military, and she details the rationale behind "The Dissent Channel," instituted by the State Department in the 1970s, to both encourage and contain dissent. Advancing an alternative narrative of modern U.S. history, she connects the erosion of the diplomatic establishment and the weakening of the diplomatic writing tradition to larger political and ideological trends while, at the same time, foreshadowing the resurgent significance of diplomatic writing in the age of Wikileaks.

Parliamentary Papers

Tobacco companies had been protecting their turf for decades. They had congressmen in their pocket. They had corrupt scientists who made excuses about nicotine, cancer and addiction. They had hordes of lawyers to threaten anyone—inside the industry or out—who posed a problem. They had a whole lot of money to spend. And they were good at getting people to do what they wanted them to do. After all, they had already convinced millions of Americans to take up an addictive, unhealthy, and potentially deadly habit. David Kessler didn't care about all that. In this book he tells for the first time the thrilling detective story of how the underdog FDA—while safeguarding the nation's food, drugs, and blood

supply—finally decided to take on one of the world's most powerful opponents, and how it won. Like *A Civil Action* or *And the Band Played On*, *A Question of Intent* weaves together science, law, and fascinating characters to tell an important and often unexpectedly moving story. We follow Kessler's team of investigators as they race to find the clues that will allow the FDA to assert jurisdiction over cigarettes, while the tobacco companies and their lawyers fight back—hard. Full of insider information and drama, told with wit, and animated by its author's moral passion, *A Question of Intent* reads like a Grisham thriller, with one exception—everything in it is true.

John W. Cones, whose real goal is to stimulate a long-term film industry reform movement, shows how the financial control of the film industry in the hands of the major studios and distributors actually translates into creative control of the industry. Cones discusses the pros and cons of the debate relating to the industry's so-called net profit problem and the way in which the distribution deal plays an integral part in that problem. He then breaks down five major film finance/distribution scenarios, explaining various distribution deals and suggesting ways of negotiating distribution. Critically examining the specific terms of the distribution deal itself, Cones covers gross receipts exclusions, distributor fees, and distribution expenses. He also investigates the various forms of interest, issues of production costs, matters of creative control, and general contractual provisions. For handy reference, Cones includes an extensive checklist for negotiating any feature film distribution deal. The list deals with distribution fees, distribution expenses, interest, production costs, creative control issues, general contractual

provisions, distributor commitments, and the limits of negotiating. His nine appendixes present a "Motion Picture Industry Overview," "Profit Participation Audit Firms," "ADI (Top 50) Market Rankings," an "AFMA Member List, 1992?1993," a "Production-Financing/Distribution Agreement," a "Negative Pickup Distribution Agreement," a "Distribution Rights Acquisition Agreement," a "Distribution Agreement (Rent-a-Distributor Deal)," and a "Foreign Distribution Agreement." Cones wrote this book for independent producers, executive and associate producers and their representatives, directors, actors, screenwriters, members of talent guilds, distributors, and entertainment, antitrust, and securities attorneys. Securities issuers and dealers, investment bankers, and money finders, investors, and financiers of every sort also will be interested. In addition, Cones suggests and hopes that the book will interest "Congress, their research staff, government regulators at the Internal Revenue Service, the Securities and Exchange Commission, the Federal Trade Commission, and law enforcement officials such as the Los Angeles District Attorney and the U.S. Justice Department."

It is year 142 of Deutsches Weltreich, the German World Empire dating from 1933, when the vilified Nazi régime was born. Tenured history professor and seasoned retrotemporal researcher Dr. James Silverthorne reluctantly accepts the key role in a desperate conspiracy aimed at obliterating Deutschesweltanreich tyranny in retrospect via a desperate, clandestine return to wartime Berlin in order to thwart the efforts of SS hero of heroes Erich Lustmann. Sent back to 1939 Berlin decades

after the war by Odessa expatriates in Argentina, Lustmann is armed with prescient knowledge of actual wartime events and circumstances, the former SS "Deathshead" officer's mission is to "rectify" via a decidedly outré method Hitler's meddlesome misdirection of the war that culminated in erroneous, fanciful military decisions, and thereby ensured a Nazi victory in WW II. Fearing his own "mission impossible" is exactly that, Professor Silverthorne nevertheless doggedly pursues his world-changing crusade in an exciting time travel adventure grand in scope and world-changing in purpose.
