## L.A. Confidential

"[Charlie Huston's] action scenes are unparalleled in crime fiction and his dialogue is so hip and dead-on that Elmore Leonard should be getting nervous."

-Publishers Weekly (starred review), on *Half the Blood of Brooklyn* It's like this: a series of bullet-riddled bad breaks has seen rogue Vampyre and terminal tough guy Joe Pitt go from PI for hire to Clan-connected enforcer to dead man walking in a New York minute. And after burning all his bridges, the only one left to cross leads to the Bronx, where Joe's brass knuckles and straight razor can't keep him from running afoul of a sadistic old bloodsucker with a bad bark and a worse bite. Even if every Clan in Manhattan is hollering for Joe's head on a stick, it's got to be better than trying to survive in the outer-borough wilderness. So it's a no-brainer when Clan boss Dexter Predo comes looking to make a deal. All Joe has to do to win back breathing privileges on his old turf is infiltrate an upstart Clan whose plan to cure the Vyrus could expose the secret Vampyre world to mortal eyes and set off a panic-driven massacre. Not cool. But Joe's all over it. To save the Undead future, he just has to wade neck-deep through all the archenemies, former friends, and assorted heavy hitters he's crossed in the past. No sweat? Maybe not, but definitely more blood than he's ever seen or hungered for. And maybe even some tears—over the horror and heartbreaking truth about the evil men do no matter who or what they are. Praise for Charlie Huston and his Joe Pitt novels “In conceiving his world (a New York City divided by vampire clans, each with different reasons to hate Pitt), Huston gives a fading genre a fresh afterlife. [Grade:] A.” -Entertainment Weekly “[Huston] creates a world that is at once supernatural and totally familiar, imaginative, and utterly convincing.” -The Philadelphia Inquirer

## Thinking about Technology

There's a bad vibe in the air. Every Vampyre in Manhattan feels it in their bones . . . and in their blood. The mother of all gang rumbles is brewing between the divided Clans of the city's undead. A battle royal for more turf that will tear the island from stem to stern. And just his luck, Joe Pitt is smack in the middle of it. A rogue Vampyre who shunned Clan life, Joe's his own man. Kind of. Thing is, there's certain people have a claim on his talents. When they need someone who's . . . expendable, they call on Joe Pitt. They're calling now. With war drums beating from the Hudson to the Harlem River, Joe's been dispatched into the uncharted territory of Brooklyn to seal an alliance with the Freaks - a Clan who more than live up to their name. But across the bridge, things go south with savage swiftness, as Joe gets swept into a murderous family feud between crazed Clans that will paint the borough scarlet from Gravesend to Coney Island.

## Hereditary Genius

It's three thousand miles from the green fields of glory, where Henry "call me Hank" Thompson once played California baseball, to the Lower East Side of Manhattan, where the tenements are old, the rents are high, and the drunks are dirty. But now Hank is here, working as a bartender and taking care of a cat named Bud who is surely going to get him killed. It begins when Hank's neighbor, Russ, has to leave town in a rush and hands over Bud in a carrier. But it isn't

until two Russians in tracksuits drag Hank over the bar at the joint where he works and beat him to a pulp that he starts to get the idea: Someone wants something from him. He just doesn't know what it is, where it is, or how to make them understand he doesn't have it. Within twenty-four hours Hank is running over rooftops, swinging his old aluminum bat for the sweet spot of a guy's head, playing hide and seek with the NYPD, riding the subway with a dead man at his side, and counting a whole lot of cash on a concrete floor. All because of two cowboys, two Russian mafia men, and some of the weirdest goons ever assembled in one place. All because of Bud. All because once, in another life, in another world, the only thing Hank wanted was to take third base—without getting caught.

### **The New Pie**

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of

conduct that might lead to intervention prior to the commission of the actual terrorist incidents.

### **Gravity Falls: Journal 3 Special Edition**

Those stories you hear? The ones about things that only come out at night? Things that feed on blood, feed on us? Got news for you: they're true. Only it's not like the movies or old man Stoker's storybook. It's worse. Especially if you happen to be one of them. Just ask Joe Pitt. There's a shambler on the loose. Some fool who got himself infected with a flesh-eating bacteria is lurching around, trying to munch on folks' brains. Joe hates shamblers, but he's still the one who has to deal with them. That's just the kind of life he has. Except afterlife might be better word. From the Battery to the Bronx, and from river to river, Manhattan is crawling with Vampyres. Joe is one of them, and he's not happy about it. Yeah, he gets to be stronger and faster than you, and he's tough as nails and hard to kill. But spending his nights trying to score a pint of blood to feed the Vyrus that's eating at him isn't his idea of a good time. And Joe doesn't make it any easier on himself. Going his own way, refusing to ally with the Clans that run the undead underside of Manhattan—it ain't easy. It's worse once he gets mixed up with the Coalition—the city's most powerful Clan—and finds himself searching for a poor little rich girl who's gone missing in Alphabet City. Now the Coalition and the girl's high-society parents are breathing down his neck, anarchist Vampyres are pushing him around, and a crazy Vampyre cult is stalking him. No time to complain, though. Got to find that girl and kill that shambler before the whip comes down . . . and before the sun comes up.

### **The Law of Nations**

In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest. In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh "Boom" Trenchard of Great Britain and William "Billy" Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's central vision-that command of the air is all important in modern warfare-has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

### **Why Did I Get a B?**

Discusses the top-secret Japanese submarine project in World War II, creating submarines designed to work

This concise introductory textbook emphasizes the major concepts of both anthropology and the anthropology of religion. It is aimed at students encountering anthropology for the first time. Reviewers describe the text as vivid, rich, user-friendly, accessible, and well-organized. The Anthropology of Religion, Magic, and Witchcraft examines religious expression from a cross-cultural perspective while incorporating key theoretical concepts. In addition to providing a basic overview of anthropology, including definition of key terms and exposure to ethnographies, the text exposes students to the varying complexity of world religions.

## **The Mystic Arts of Erasing All Signs of Death**

Nobody lives forever. Not even a Vampyre. Just ask Joe Pitt. After exposing the secret source of blood for half of Manhattan's Vampyres, he's definitely a dead man walking. He's been a punching bag and a bullet magnet for every Vampyre Clan in Manhattan, Brooklyn, and the Bronx, not to mention a private eye, an enforcer, an exile, and a vigilante, but now he's just a target with legs. For a year he's sloshed around the subway tunnels and sewers, tapping the veins of the lost, while above ground a Vampyre civil war threatens to drag the Clans into the sunlight once and for all. What's it gonna take to dig him up? Just the search for a missing girl who's carrying a baby that just might be the destiny of Vampyre-kind. Not that Joe cares all that much about destiny and such. What he cares about is that his ex-girl Evie wants him to take the gig. What's the risk? Another turn playing pigeon in a shooting gallery. What's the reward? Maybe one shot of his own. What's he aiming for? Nothing much. Just all the evil at the heart of his world.

#### **The Old Regime and the Revolution**

“Stephen Hunter is in a class by himself. Time to Hunt is as vivid and haunting as a moving target in the crosshairs of a sniper scope.”—Nelson Demille, author of *Mayday* He is the most dangerous man alive. He only wants to live in peace with his family, and forget the war that nearly killed him. . . . It's not going to

happen. Stephen Hunter's epic national bestsellers, *Point of Impact* and *Black Light*, introduced millions of readers to Bob Lee Swagger, called "Bob the Nailer," a heroic but flawed Vietnam War veteran forced twice to use his skills as a master sniper to defend his life and his honor. Now, in his grandest, most intensely thrilling adventure yet, Bob the Nailer must face his deadliest foe from Vietnam—and his own demons—to save his wife and daughter. During the latter days of the Vietnam War, deep in-country, a young idealistic Marine named Donny Fenn was cut down by a sniper's bullet as he set out on patrol with Swagger, who himself received a grievous wound. Years later Swagger married Donny's widow, Julie, and together they raise their daughter, Nikki, on a ranch in the isolated Sawtooth Mountains in Idaho. Although he struggles with the painful legacy of Vietnam, Swagger's greatest wish—to leave his violent past behind and live quietly with his family—seems to have come true. Then one idyllic day, a man, a woman, and a girl set out from the ranch on horseback. High on a ridge above a mountain pass, a thousand yards distant, a calm, cold-eyed shooter, one of the world's greatest marksmen, peers through a telescopic sight at the three approaching figures. Out of his tortured past, a mortal enemy has once again found Bob the Nailer. Time to Hunt proves anew why so many consider Stephen Hunter to be our best living thriller writer. With a plot that sweeps from the killing fields of Vietnam to the corridors of power in Washington to the shadowy plots of the new world order, Hunter delivers all the complex, stay-up-all-night action his fans demand in a masterful tale of family heartbreak and international intrigue—and shows why, for Bob

Lee Swagger, it's once again time to hunt. Praise for Time to Hunt "Stephen Hunter is simply the best writer of action fiction in the world and Time to Hunt proves it."—Phillip Margolin, author of The Burning Man "The best straight-up thriller writer at work today."—Rocky Mountain News

## **Half The Blood Of Brooklyn**

Skinner founded his career in "asset protection" on fear. To touch anyone under his protection was to invite destruction. A savagely effective methodology, until Skinner's CIA handlers began to fear him as much as his enemies did and banished him to the hinterlands of the intelligence community. Now, an ornate and evolving cyber-terrorist attack is about to end that long exile. His asset is Jae, a roboticist with a gift for seeing the underlying systems violently shaping a new era of global guerrilla warfare. At the root of it all is a young boy, the innocent seed of a plot grown in the slums of Mumbai. Brought to flower, that plot will tip the balance of world power in a perilous new direction. A combination of Le Carre spycraft with Stephenson techno-philosophy from the novelist hailed by the Washington Post as "the voice of twenty-first century crime fiction," SKINNER is Charlie Huston's masterpiece--a new kind of thriller

for a new kind of world.

## **Skinner**

Create 75 beautiful and unique pies using traditional techniques and modern tools from a couple who has baked their way to the top. Get ready for a new, fresh take on baking the ultimate feel-good dessert: pie! In *The New Pie*, Chris Taylor and Paul Arguin--winners of more than 500 awards for baking (including the 2017 Best of Show Award at the National Pie Championships)--re-examine the wholesome world of pie. Garrett's having a pretty good morning until, five minutes in, he finds a strange child named Penny Dreadful poking around his apartment. Before he can

figure out who the mysterious urchin really is, he's hired to investigate how an old crime boss ended up in a coma—leaving his beautiful, criminally insane daughter to run the family business. The boss's daughter has some lascivious designs on Garrett—and some deadly ones, too. But she's not the only one dreaming up ways to finish off the endangered private eye—who now has to figure out why everyone is suddenly after him

### **Every Last Drop**

Inspired by incidents during the 1922 coal strike in Pennsylvania, Dressick spent months researching the rhythms of early coal town life. Interviewing family members, he immersed himself in the coal heritage materials, many housed at the Indiana University of Pennsylvania. Frederick Barthelme states "Dressick is an artist to be reckoned with."

### **Already Dead**

### **The Shotgun Rule**

This hilarious, inspirational, and wise collection of personal essays and humor from a longtime educator explores all the joys, challenges, and absurdities of being a teacher, following in the footsteps of such classics as *Teach Like Your Hair's on Fire*, *The Courage to Teach*, and *Up the Down Staircase*. Shannon Reed did not want to be a teacher, but now, after twenty years of working with children from

preschool to college, there's nothing she'd rather be. In essays full of humor, heart, and wit, she illuminates the highs and lows of a job located at the intersection of youth and wisdom. Bringing you into the trenches of this most important and stressful career, she rolls her eyes at ineffectual administrators, weeps with her students when they experience personal tragedies, complains with her colleagues about their ridiculously short lunchbreaks, and presents the parent-teacher conference from the other side of the tiny table. From dealing with bullies and working with special needs students to explaining the unwritten rules of the teacher's lounge, *Why Did I Get a B?* is full of as much humor and heart as the job itself.

Joe Pitt's life sucks. He hasn't had a case or a job in God knows how long and his stashes are running on empty. What stashes? The only ones that count to a guy like Joe: blood and money. The money he uses to buy blood; the blood he drinks. Hey, buddy, it's that or your neck—you want to choose? The only way to lay his hands on both is to take a gig with the local Vampyre Clan. See, something new is on the streets, a new high, a high so strong it can send a Vampyre spazzing through Joe's local watering hole. Till Joe sends him through a plate-glass window, that is. So it's time for Joe to gut up and swallow that pride and follow the leads wherever they go. It won't be long before he's slapping stoolies, getting sapped, and being taken for a ride above 110th Street. Someone's pulling Joe's strings, and now he's riding the A train, looking to find who it is. He's gonna cut them when he finds them—the strings and the hands that hold them.

## **The Spanish Conquest in America and Its Relation to the History of Slavery and to the Government of Colonies**

For thirty years, Peter Singer's Practical Ethics has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

## **My Dead Body**

## **Pre-Incident Indicators of Terrorist Incidents**

An epic story of the American wheat harvest, the politics of food, and the culture of the Great Plains For over one hundred years, the Mockett family has

owned a seven-thousand-acre wheat farm in the panhandle of Nebraska, where Marie Mutsuki Mockett's father was raised. Mockett, who grew up in bohemian Carmel, California, with her father and her Japanese mother, knew little about farming when she inherited this land. Her father had all but forsworn it. In *American Harvest*, Mockett accompanies a group of evangelical Christian wheat harvesters through the heartland at the invitation of Eric Wolgemuth, the conservative farmer who has cut her family's fields for decades. As Mockett follows Wolgemuth's crew on the trail of ripening wheat from Texas to Idaho, they contemplate what Wolgemuth refers to as "the divide," inadvertently peeling back layers of the American story to expose its contradictions and unhealed wounds. She joins the crew in the fields, attends church, and struggles to adapt to the rhythms of rural life, all the while continually reminded of her own status as a person who signals "not white," but who people she encounters can't quite categorize. *American Harvest* is an extraordinary evocation of the land and a thoughtful exploration of ingrained beliefs, from evangelical skepticism of evolution to cosmopolitan assumptions about food production and farming. With exquisite lyricism and humanity, this astonishing book attempts to reconcile competing versions of our national story.
