Salespeople are looking for answers. The fastest, easiest answers that work every time. The good news is, the answers exist. The bad news is, in order to be able to become a successful salesperson, you have to understand, practice, and master the answers. You would think with all the answers contained in this book, that anyone who reads it would automatically become a better salesperson. You would be thinking wrong. To become a better salesperson, the first thing you have to do is read it. The second thing to do with this book is read it again. The third thing to do with this book is try one answer every day. If it does not work exactly right the first time, or the outcome was not what you expected, try it again and tweak it a little bit. The fourth thing you have to do is practice the answer until you feel that it is working. The fifth thing you have to do is become the master of it. Blend each answer to your selling situation and do it in a way that fits your style, and your personality. Think about the way you ask for an appointment. The way you leave a voice-mail message. The way you follow up after a sales call. The way you begin a sales presentation. The way you ask for a sale. The way you respond to an angry customer. The way you earn a referral. Or the way you get a testimonial. Wouldn't you love to have the perfect answer for every one of these situations?

The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition Dick Davis—“our pre-eminent translator from the Persian” (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi’s masterpiece, adding more than 100 pages of newly translated text. Davis’s elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.
