### Florida Cracker Cookbook, The: Recipes & Stories from Cabin to Condo

From a distinctive, inimitable voice, a wickedly funny and fascinating romp through the strange and often contradictory history of Western parenting. Why do we read our kids fairy tales about homicidal stepparents? How did helicopter parenting develop if it used to be perfectly socially acceptable to abandon your children? Why do we encourage our babies to crawl if crawling won't help them learn to walk? These are just some of the questions that came to Jennifer Traig when—exhausted, frazzled, and at sea after the birth of her two children—she began to interrogate the traditional parenting advice she'd been conditioned to accept at face value. The result is *Act Natural*, hilarious and deft dissection of the history of Western parenting, written with the signature biting wit and deep insights Traig has become known for. Moving from ancient Rome to Puritan New England to the Dr. Spock craze of mid-century America, Traig cheerfully explores historic and present-day parenting techniques ranging from the misguided, to the nonsensical, to the truly horrifying. Be it childbirth, breastfeeding, or the ways in

which we teach children how to sleep, walk, eat, and talk, she leaves no stone unturned in her quest for answers: Have our techniques actually evolved into something better? Or are we still just scrambling in the dark?

As was true of many American cities, Lancaster, Pennsylvania, adopted urban renewal programs in the postwar years to revitalize a downtown that was experiencing economic decline. As the commercial and residential infrastructure of the city decayed, people and jobs migrated to the suburbs. Urban renewal was supposed to make the downtown viable again as a site for both businesses and residences. But as David Schuyler shows in *A City Transformed*, redevelopment in Lancaster resulted in more failures than successes. Beginning in the 1950s, the Lancaster Redevelopment Authority implemented a comprehensive revitalization program that changed the physical shape of the city. In attempting to solidify the retail functions of the traditional central business district, redevelopment dramatically altered key blocks of the downtown, replacing handsome turn-of-the-century Beaux Arts structures with modernist concrete boxes and a sterile public square. The strategy for eliminating density and blighted buildings resulted in the demolition of whole blocks of dwellings and, perhaps more importantly, destabilized Lancaster's African American community. *A City Transformed* is a

compelling examination of a northern city struggling with its history and the legacy of segregation. But the redevelopment projects undertaken by the city, however ambitious, could not overcome the suburban growth that continues to sprawl over the countryside or the patterns of residential segregation that define city and suburb. When the Redevelopment Authority ceased operating in 1980, its legacy was a city with a declining economy, high levels of poverty and joblessness, and an increasing concentration of racial and ethnic minorities--a city very much at risk. In important ways what happened in Lancaster was the product of federal policies and national trends. As Schuyler observes, Lancaster's experience is the nation's drama played on a local stage.

A scandalously honest guide to the secrets of Victorian womanhood. "If Unmentionable does not secure the Pulitzer Prize for Most Fascinating Book Ever, the whole gig is rigged. Therese Oneill opens the doors to everything we secretly wanted to know about the Victorian era, but didn't think to ask. Knickers with no crotches? Check. Arsenic as a facial scrub? Check. The infrequency of bathing and the stench of the Victorian human body? Check mate. "Hilarious, horrifying, shocking and revelatory, Unmentionable is for every girl who pictured herself running through a field of wildflowers in a silk dress and Little House on the Prairie boots, only to discover she has nits in her hair, her clothes have never been washed and she sleeps with her poop under her bed in a bowl. A miracle of a book and one of my favorite reads ever, Unmentionable will be my go-to gift this year. All hail Therese Oneill for uncovering all of that dirty, dirty laundry." -- Laurie Notaro, #1 New York Times bestselling author of It Looked Different on the Model and Housebroken

The world's most elite counterterrorism unit has just taken its game to an entirely new level. And not a moment too soon . . . From behind the rows of razor wire, a new breed of counterterrorism operator has emerged. Just as skilled, just as fearsome, and just as deadly as their colleagues, Delta Force's newest members have only one thing setting them apart—their gender. Part of a top-secret, all-female program codenamed The Athena Project, four of Delta's best and brightest women are about to undertake one of the nation's deadliest assignments. When a terrorist attack in Rome kills more than twenty Americans, Athena Team members Gretchen Casey, Julie Ericsson, Megan Rhodes, and Alex Cooper are tasked with hunting down the Venetian arms dealer responsible for providing the explosives. But there is more to the story than anyone knows. In the jungles of South America, a young U.S. intelligence officer has made a grisly discovery. Surrounded by monoliths covered with Runic symbols, one of America's greatest fears appears to have come true. Simultaneously in Colorado, a foreign spy is close to penetrating the mysterious secret the U.S. government has hidden beneath Denver International Airport. As Casey, Ericsson, Rhodes, and Cooper close in on their target, they will soon learn that another attack—one of unimaginable proportions—has already been set in motion, and the greatest threat they face may be the secrets kept by their own government.

The fascinating history of horse theft and horse recovery. Because of the horse's essential function for many American families, horse theft was a lucrative business venture for many outlaws in the country's frontier days. This fascinating exposition details the history of organized horse-thief gangs from the colonial era through World War II. It also features the history of many anti-horse theft groups, some of which still exist. This illuminating book discusses the thieves, their pursuers, and their methods in great detail.

Phantom Buddha is a portrait of the experiences of a man not quite made for this conventional world, beginning with his dead-end job in an insurance company for nine long years, which the author describes with a wicked humor. Married, with four children, he meets and falls in love with another woman and leaves his family to be with her, finding the freedom to be himself he so yearns for. But, when he introduces his new love to the zen practice that has long interested him, she becomes totally involved, both in the practice and with the Japanese zen master who uses his position to seduce many of his female students. Forced out of the zen center when he expresses his unhappiness with this situation, he sinks into despair and a hopeless pursuit of his beloved. Written in some parts with broad humor, Cardona-Hine also captures the ephemeral beauty of a new love and the depths of despair at its loss. Based on real events, the author intertwines dreams that he had during these years, dreams which reveal to an even greater extent the emotional intensity of his situation as well as the states of mind that sweep through him. Intensely written and felt, the novel shimmers with an authenticity and passion seldom seen in writing today.

To know the names of birds is to understand something about human passions -- the scientific urge to explain, the poetic desire to describe, the ambitious claim to possess, and the spiritual need to be close to heaven. Here, Wells introduces the fearless adventurers and colorful characters -- Carl Linnaeus, Alexander Wilson, John Audubon -- who found and named new species. We learn of the gods and goddesses who, for punishment or pleasure, turned many a mortal into a bird -- and lent their names to some of our favorite species. We explore the avian symbols used by our greatest writers -- Coleridge's albatross, Poe's raven, and Whitman's thrush. Wells tells these 100 stories with a keen wit and a love of language. Curious and captivating. Illus.

After Vice President Dick Cheney suffers a heart attack, there is a mad scramble to find a Republican replacement. When Niles Blanchard, a senator labeled the man nobody wanted by the New York Times, is begrudgingly elected vice president, no one imagines that Air Force One will soon disappear over the Pacific Ocean with the president, first lady, and secretary of defense inside. Now as Blanchard prepares to address the nation on national television, none of the remaining White House staff know what the new president is going to say. When President Blanchard shocks the world by announcing he is cutting off aid to Israel until the country meets several demands, Sam Coulter, on loan to the White House from the CIA, steps in to help stop a brutal spy war. After Sam heads to New York and stays with Jessica Helms, the wife of his boss, the Staten Island ferry is sunk, chlorine gas is released in the Lincoln tunnel, and the Israeli attach is shot. But when Jessicas roommate is murdered and Sam discovers she recently smuggled a Red Sea scroll out of Israel, he becomes determined to find the missing artifact. There is only one problem: Sam is not the only one searching for the scroll. In this political thriller, a new president makes a decision that changes everything and leads a former CIA agent down a perilous path to stop a war and find a missing artifact.

## **The Prairie Traveler**

"In the name of the Father, and of the Son, and of the Holy Spirit Amen." Now slip on your habit and walk in Joyce Falconero Zemba's shoes as she takes you back fifty years into the hallowed convent halls and into her life as a Catholic nun. No longer under a rule of silence, Joyce reveals in this autobiography what your Sunday school teacher would not want you to read. Learn what was really happening behind the veil of the sisterhood of deception that was being portrayed to the public - skeletons of what felt like brainwashing to the shadows of being romantically approached by a priest. You will not be able to put this book down as you watch Joyce leave home as an eager, energetic, young woman with a heart to do good, grow into someone who learns that even the holiest of professions can be full of lies and deceit. If she does not get out in time, her spirit would be the price. REVIEWS: Just finished what a read!!! I couldn't put it down once I got started and resented any intrusions. It's hard to believe a community such as nuns, which one would assume to be Christian, could treat another human being in such a way. You told your story in a very loving and Christian way. I love the mentions of Margie and meeting Sister Candida. Thank you again for your time and for sharing. Love you, Carolyn Anastasi Foutch ----- A MUST READ - Enter the secret door of "A Life Like Nun Other" and expect the unexpected. Journey with Joyce as her life unfolds and changes and share in the surprises, secrets, and challenges Joyce encounters as a nun. Warning: When you begin to read, be prepared to stay glued to the book till you reach the last page. "Alice Slapinskas"

## **Wildgun: End of the Hunt**

Running on my knees is about making decisions and choices and the affect those decisions and choices have on your life and the lives of other people. Decisions and choices are powerful and should not be made in haste or under duress. They

should never be made without careful thinking or having a plan of action. Whatever the decision or choice you make, it's life-changing for better or for worse; maybe you will find out the moment the decision is made or perhaps you discover the effects later. Either way, decisions change lives and alter paths.

INSIDE APPLE reveals the secret systems, tactics and leadership strategies that allowed Steve Jobs and his company to churn out hit after hit and inspire a cult-like following for its products. If Apple is Silicon Valley's answer to Willy Wonka's Chocolate Factory, then author Adam Lashinsky provides readers with a golden ticket to step inside. In this primer on leadership and innovation, the author will introduce readers to concepts like the "DRI" (Apple's practice of assigning a Directly Responsible Individual to every task) and the Top 100 (an annual ritual in which 100 up-and-coming executives are tapped a la Skull & Bones for a secret retreat with company founder Steve Jobs). Based on numerous interviews, the book offers exclusive new information about how Apple innovates, deals with its suppliers and is handling the transition into the Post Jobs Era. Lashinsky, a Senior Editor at Large for Fortune, knows the subject cold: In a 2008 cover story for the magazine entitled The Genius Behind Steve: Could Operations Whiz Tim Cook Run The Company Someday he predicted that Tim Cook, then an unknown, would eventually succeed Steve Jobs as CEO. While Inside Apple is ostensibly a deep dive into one, unique company (and its ecosystem of suppliers, investors, employees and competitors), the lessons about Jobs, leadership, product design and marketing are universal. They should appeal to anyone hoping to bring some of that Apple magic to their own company, career, or creative endeavor.
