## **2087**

In the year 2087, life happens fast. Ben Zieglar, the main character and protagonist, is a product of this situation. Ben is a manager for Benevolence Corporation (B Corp.). B Corp is one of three main corporations in The Country (formerly the USA but referred to throughout the novel as The Country). The Country has cut itself off from the world and has fallen behind quite a ways in relation to the other powers of the world. At the corporations and throughout society, there are 3 levels of people. The highest levels are the Founders, who have acquired massive wealth and for the general advancement of mankind, control society. This is a small percent of people in The Country, less than even 0.1% of the people. On his walk home, Ben sees a lovely dark haired tan woman with Greenish-Blue Eyes. Ben doesn't talk to her and instead goes home. He then falls asleep and goes to work the next day. There at work, Ben meets his newest co-worker Jessica and they immediately hit it off. Then, the number 2 at B corp., Jonathan Vilheim II(2), is introduced into the novel. His uncle Jonathan, the first, is the current CEO. But Vilheim 2 is starting to run the entity and was instrumental in bringing Jessica into town. Vilheim 2 is

the antagonist although at first it is unclear whether he is good or evil. Ben's best friend and co-worker Wally Elmore is introduced to the novel. Wally is a Founder himself and is a good friend to Ben. Wally is a little eccentric in his dress and only wears old style Vintage tuxedos. Wally has a twin brother Thomas, who is 5 minutes older than Wally. Thomas is the head of F corp. (Faction) and makes his way to town for the annual Elmore party. Wally and Thomas' relationship is strained because Thomas is a rebel and does not participate in the society of Ultra City (B Corp.) or Los Angeles (M corp.). Thomas, however, is quite smart, and due to his power, the technologically advanced societies must deal with him. Thomas meets Ben and believes he can turn Ben to the Faction. Next, a series of events is set off that threatens to unravel the delicate balance of society in the Year 2087.

The Da Vinci Poems, the second book of poetry produced by artist and writer Anthony (Tony) Crisafulli, is inspired by the classic Italian fables that can be found scribed throughout Da Vinci's famous notebooks. I had been doing research on Da Vinci's Last Supper when I came across some fables in his notebooks. They were delightful but surprisingly dark parables that seemed to speak directly to the Renaissance as well as to the present time. They were truly amazing and showed a dimension of Da Vinci that I had never known before. So when I finished writing my last book, I decided to do something with them; firstly because they captivated me and secondly because my children so enjoyed them. My first attempt at translating Da Vinci's stories was an utter failure. This was not because my translation was bad or the stories uninteresting in English, but rather they textually lacked the flow and surprise that Italian is so adept at communicating. Over the next few weeks, I lived with the texts that would not seem to let me be. One day, without thinking, I began to see them in verse. Instantly, I was pleased. Shortly after, I shared some of the poems with my publisher and he encouraged me to continue on and turn the collection into a book. A writer always has at least one audience in mind when creating a work for the public eye. I had two. The first audience was children. Not typical children, but the sort that find pleasure in reading deeper into a story -- those who seek to discover the hidden references and the second meaning that

peaks out from behind the curtain of symbols and solitude. The other audience was my colleagues who are artists and poets. This is my gift to them for all the inspiration their work and friendship has provided me.

deadly infection threatens to wipe out humanity. The only people who can stem its advance are the Silver, a vampiric race who offer a simple exchange: protection in return for blood and subservience. Emmy is fenced in by the city, the walls marking the edge of safety closing in around her and sealing her in with one vampire who loves her and another who wants her dead. As she struggles to keep herself and the people she cares about alive, her fellow humans chafe against their enforced submission, and it becomes clear that there are bigger schemes and greater deceptions in play than she had ever imagined. All the while, the monsters wait outside the barricades for their moment. Of one thing she is certain: without the help of the Silver, the humans won't be safe for long.

Now, there is only one way to stop the Tyranny: go back in time and prevent it from ever starting. Alkaline Herbal Medicine gives insight into many of the herbs used to reverse disease in Dr. Sebi's African Bio Mineral Balance. It covers scientifically supported properties, preparation, doses and dosages, and how to combine herbs. It addresses alkaline foods on the Dr. Sebi nutritional guide, and their chemical affinity with and support of the electric body. The natural order in life designed the body to be healthy and heal under the right conditions. These conditions are programmed into the DNA of Homo sapiens, whose base DNA makeup is the African genome. Diets centered on the consumption of natural alkaline plant foods and ample exposure to the sun supported the healthy expression of the African genome. The environment of Africa, and environments similar to Africa, produced life that developed with a complete and balanced electrical structure. The plant life that grew in these environments grew under optimal conditions in nutrient rich soil under year long

exposure to the sun. The resulting chemical makeup of these natural alkaline plants protected them from environmental stresses. Africans originally ate diets centered on the consumption of these plants, like the great apes of Africa, and the programming of the African genome used the protective nature of these plants' nutrients to support its vibrancy. A scientific model supports the idea that Africans migrated out of Africa hundreds of thousands of years ago into the less hospitable environments of Europe and Asia. These environments didn't support the healthy expression of the African genome and resulted in the mutation of the gene and the development of the Neanderthal of Europe and Denisovan of East Asia. Science has linked diseases like lupus, Crohn's disease, and type 2 diabetes to the Neanderthal gene. The Neanderthals, who inhabited the Neandertal caves in Germany, ate a diet centered on the consumption of meat. The combination of their meat-centered diet and adverse relationship with the sun led to the development of dis-ease in the body. Now, the meat-centered diet is being globalized and is spreading disease throughout the world. An alkaline plant-centered diet and the use of alkaline herbal medicine naturally support the healthy expression of the African genome in all people, and reverses chronic disease. Pharmaceutical medicine is built on the power of medicinal herbs because around fifty percent of its drugs are derived from herbs. The issue is industry has strategically conditioned people to forget about the healing power of natural alkaline herbs. I dedicate this book in the memory of Alfredo Bowman lovingly known as Dr. Sebi. He helped us to remember that natural alkaline herbs and plant foods

support the healthy expression of the African genome that is in all people. He did this by sharing his African Bio Mineral Balance methodology. Categories: herbal remedies, naturopathy, healing, herbs, herbal medicine

In the early part of my life, having read many books in favour of Ghosts and Spectral Appearances, the recollection remained so strong in my mind, that, for years after, the dread of phantoms bore irresistible sway. This dread continued till about my twenty-third year, when the following simple affair fully convinced me, how necessary it was thoroughly to investigate every thing that tended to supernatural agency, lest idle fear should gain a total ascendancy over my mind. About this period, I had apartments in a large old-fashioned country mansion. From my bed-chamber was a secret door leading to a private staircase, which communicated with some of the lower rooms. This door was fastened both within and without; consequently all fear of intrusion from that quarter was entirely removed. However, at times, I could not help ruminating on the malpractices that might have been committed by evil-disposed persons, through this communication; and "busy meddling fancy" was fertile in conjuring up imaginary horrors.

Sixteen-year-old Max and 10-year-old Tessa were fully prepared for another horrible summer vacation. While

they always hoped to go somewhere fun like Disney World or Universal Studios, they usually went somewhere weird and cheap that their father, former boy bander Don Masters, found in an ad in a truck stop coupon magazine. But this year was different. Where they went couldn't be found on any map or in any truck stop coupon book. They passed through a portal to a place called Turtle Island, an alternate version of America that diverged from our history before the pilgrims landed at Plymouth Rock. It was there where they met world famous action movie star Jordie Paine -- star of such films as I Plan to Kill You Now and the sequel, I Plan to Kill You Now, Too, the ninja film, Chuck Butcher: Sword Wielding Jackal, as well as the light-hearted romp, Harry Hinklehoffer and the Giant Dancing Toad of East Nebraska -- who would be their guide in this strange new world. Jordie, they later learned, brought the Masters family to Turtle Island for a very specific reason. Because they look just like the ruthless first family of Turtle Island, the Masters are pawns in a coup to overthrow the dictator. But things don't go as planned and the Masters wind up in the Survival Games, Turtle Island's national pastime/system of justice where criminals competitors, or crimpetitors, compete for their freedom. In this scifi comedy, the stakes are very simple -- if they win, they rule, if they lose, they must suffer the consequences.
