From the author that penned beloved literary classics such as *The Age of Innocence* and *The House of Mirth* comes *The Glimpses of the Moon*, the surprisingly funny tale of an unlikely romance that arises between newlyweds on an extended honeymoon who have married for convenience, rather than for love.

### **The Slow Moon**

The tranquility of Mars is disrupted by humans who want to conquer space, colonize the planet, and escape a doomed Earth.

### **Sing Down the Moon**

Yellow is Ella's favorite color — she loves the bright, sunny daytime. But every night, as darkness falls, she becomes afraid. Her mother encourages her to look at the soft glow of the moon and fireflies dancing in the night. Ella listens to the chirping of crickets and the gentle rustling of the wind as she gradually realizes that nighttime can be something to look forward to rather than something to fear. With sweet, luminous illustrations by Aimée Sicuro, this story will inspire parents and children to welcome the peaceful nature of nighttime into their homes and hearts.

Novels “Interesting quirks and divided loyalties flesh out this first novel in which sf and mystery intersect in a well-crafted plotPedreira’s science thriller powerfully highlights the human politics and economics from the seemingly desolate expanse of the moon. It will attract readers who enjoyed Andy Weir’s lunar crime caper Artemis.” -- Library Journal, starred review A realistic and chilling vision of life on the Moon, where dust kills as easily as the vacuum of space...but murder is even quicker—a fast-paced, cinematic science fiction thriller, this debut novel combines the inventiveness of *The Martian*, the intrigue of *The Expanse*, and the thrills of *Red Rising*. The Moon smells like gunpowder. Every lunar walker since Apollo 11 has noticed it: a burnt-metal scent that reminds them of war. Caden Dechert, the chief of the U.S. mining operation on the edge of the Sea of Serenity, thinks the smell is just a trick of the mind—a reminder of his harrowing days as a Marine in the war-torn Middle East back on Earth. It’s 2072, and lunar helium-3 mining is powering the fusion reactors that are bringing Earth back from environmental disaster. But competing for the richest prize in the history of the world has destroyed the oldest rule in space: Safety for All. When a bomb kills one of Dechert’s diggers on Mare Serenitatis, the haunted veteran goes on the hunt to expose the culprit before more blood is spilled. But as Dechert races to solve the first murder in the history of the Moon, he gets caught in the crosshairs of two global powers spoiling for a fight. Reluctant to be the match that lights this powder-keg, Dechert knows his life and those of his crew are meaningless to the politicians. Even worse, he knows the killer is still out there, hunting. In his

desperate attempts to save his crew and prevent the catastrophe he sees coming, the former Marine uncovers a dangerous conspiracy that, with one spark, can ignite a full lunar war, wipe out his team . . . and perhaps plunge the Earth back into darkness.

In 1969 twelve-year-old Mimi and her family move to an all-white town in Vermont, where Mimi's mixed-race background and interest in "boyish" topics like astronomy make her feel like an outsider.

## **Rocket to the Moon!**

In 1492, two history-altering events occurred: the Jews and Muslims of Spain were expelled, and Columbus set sail for the New World. Many Spanish Jews chose not to flee and instead became Christian in name only, maintaining their religious traditions in secret. Among them was Luis de Torres, who accompanied Columbus

as an interpreter. Over the centuries, de Torres' descendants traveled across North America, finally settling in the hills of New Mexico. Now, some five hundred years later, it is in these same hills that Miguel Torres, a young amateur astronomer, finds himself trying to understand the mystery that surrounds him and the town he grew up in: Entrada de la Luna, or Gateway to the Moon. Poor health and poverty are the norm in Entrada, and luck is rare. So when Miguel sees an ad for a babysitting job in Santa Fe, he jumps at the opportunity. The family for whom he works, the Rothsteins, are Jewish, and Miguel is surprised to find many of their customs similar to those his own family kept but never understood. Braided throughout the present-day narrative are the powerful stories of the ancestors of Entrada's residents, portraying both the horrors of the Inquisition and the resilience of families. Moving and unforgettable, Gateway to the Moon beautifully weaves the journeys of the converso Jews into the larger American story.

### **Moon Over Manifest**

On July 20, 1969, Neil Armstrong took “one small step for man, one giant leap for mankind” when the Apollo 11 landed on the moon. But it wasn’t just one man who got us to the moon. *Rocket to the Moon!* explores the people and technology that made the moon landing possible. Beautifully illustrated and well-researched, this book is the perfect resource for curious readers and tomorrow’s scientists. It includes a timeline of space travel, a bibliography, and an index.

## Legacies

“This rich volume is a national treasure.” —Kirkus Reviews (starred review)  
“Captivating, informative, and inspiring...Easy to follow and hard to put down.”  
—School Library Journal (starred review) The inspiring autobiography of NASA mathematician Katherine Johnson, who helped launch Apollo 11. As a young girl, Katherine Johnson showed an exceptional aptitude for math. In school she quickly skipped ahead several grades and was soon studying complex equations with the support of a professor who saw great promise in her. But ability and opportunity did not always go hand in hand. As an African American and a girl growing up in an era of brutal racism and sexism, Katherine faced daily challenges. Still, she lived her life with her father’s words in mind: “You are no better than anyone else, and nobody else is better than you.” In the early 1950s, Katherine was thrilled to join the organization that would become NASA. She worked on many of NASA’s biggest projects including the Apollo 11 mission that landed the first men on the moon. Katherine Johnson’s story was made famous in the bestselling book and Oscar-nominated film *Hidden Figures*. Now in *Reaching for the Moon* she tells her own story for the first time, in a lively autobiography that will inspire young readers everywhere.

Winner of the 2016 Tiptree Award! Longlisted for the 2016 National Book Award for Young People's Literature Stonewall Book Award Honor "McLemore's second novel is such a lush surprising fable, you half expect birds to fly out of the pages McLemore uses the supernatural to remind us that the body's need to speak its truth is primal and profound, and that the connection between two people is no more anyone's business than why the dish ran away with the spoon." --Jeff Giles, New York Times Book Review Anna-Marie McLemore's debut novel *The Weight of Feathers* was greeted with rave reviews, a YALSA Morris Award nomination, and spots on multiple "Best YA Novels" lists. Now, McLemore delivers a second stunning and utterly romantic novel, again tinged with magic. To everyone who knows them, best friends Miel and Sam are as strange as they are inseparable. Roses grow out of Miel's wrist, and rumors say that she spilled out of a water tower when she was five. Sam is known for the moons he paints and hangs in the trees and for how little anyone knows about his life before he and his mother moved to town. But as odd as everyone considers Miel and Sam, even they stay away from the Bonner girls, four beautiful sisters rumored to be witches. Now they want the roses that grow from Miel's skin, convinced that their scent can make anyone fall in love. And they're willing to use every secret Miel has fought to protect to make sure she gives them up. Atmospheric, dynamic, and packed with gorgeous prose, *When the Moon was Ours* is another winner from this talented author.

## **The Moon Inside**

The Epic New York Times Bestseller Finalist for the Pulitzer Prize Finalist for the National Book Critics Circle Award A New York Times Notable Book Winner of the Texas Book Award Winner of the Oklahoma Book Award This stunning historical account of the forty-year battle between Comanche Indians and white settlers for control of the American West “is nothing short of a revelation...will leave dust and blood on your jeans” (The New York Times Book Review). Empire of the Summer Moon spans two astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood son Quanah, who became the last and greatest chief of the Comanches. Although readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American West opened up. Comanche boys became adept bareback riders by age six; full Comanche braves were considered the best horsemen who ever rode. They were so masterful at war and so skillful with their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches lasted

four decades, in effect holding up the development of the new American nation. Gwynne's exhilarating account delivers a sweeping narrative that encompasses Spanish colonialism, the Civil War, the destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone interested in how the United States came into being. Hailed by critics, S. C. Gwynne's account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told. *Empire of the Summer Moon* announces him as a major new writer of American history.

The author of the critically acclaimed *Wife 22* has written a captivating novel about a love that transcends time—perfect for readers of *The Time Traveler's Wife*, *Time and Again*, and the novels of Alice Hoffman. San Francisco, 1975. A single mother,

Lux Lysander is overwhelmed, underpaid, and living on the edge of an emotional precipice. When her adored five-year-old son goes away to visit his grandparents, Lux takes a solo trip to Sonoma Valley—a chance to both lose herself and find herself again. Awakened at midnight, Lux steps outside to see a fog settled over the Sonoma landscape. Wandering toward a point of light in the distance, she emerges into a meadow on a sunny day. There she meets a group of people whose sweetly simple clothing, speech, and manners almost make them seem as if they are from another time. And then she realizes they are. Lux has stumbled upon an idyllic community cut off not only from the rest of the world but from time itself. The residents of Greengage tell a stunned and disoriented Lux that they've somehow been marooned in the early twentieth century. Now that she has inexplicably stepped into the past, it is not long before Lux is drawn in by its peace and beauty. Unlike the people of Greengage, Lux discovers that she is able to come and go. And over the years, Lux finds herself increasingly torn between her two lives. Her beloved son is very much a child of the modern world, but she feels continually pulled back to the only place she has ever truly felt at home. NEW YORK TIMES BESTSELLER - NATIONAL BOOK AWARD FINALIST "Disturbing and riveting! It will sear your soul." —Dave Eggers, New York Times Book Review SHELF AWARENESS'S BEST BOOK OF 2017 Named a best book of the year by Wall Street Journal, The Boston Globe, San Francisco Chronicle, GQ, Time, Newsday, Entertainment Weekly, Time Magazine, NPR's Maureen Corrigan, NPR's "On Point," Vogue, Smithsonian, Cosmopolitan, Seattle Times, Bloomberg, Lit Hub's "Ultimate Best Books," Library Journal, Paste, Kirkus, Slate.com and Book Browse From New Yorker staff writer David Grann, #1 New York Times best-selling author of The Lost City of Z, a twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history In the 1920s, the richest people per capita in the world were members of the Osage Indian nation in Oklahoma. After oil was discovered beneath their land, they rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. Her relatives were shot and poisoned. And it was just the beginning, as more and more members of the tribe began to die under mysterious

circumstances. In this last remnant of the Wild West—where oilmen like J. P. Getty made their fortunes and where desperadoes like Al Spencer, the “Phantom Terror,” roamed—many of those who dared to investigate the killings were themselves murdered. As the death toll climbed to more than twenty-four, the FBI took up the case. It was one of the organization’s first major homicide investigations and the bureau badly bungled the case. In desperation, the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to unravel the mystery. White put together an undercover team, including one of the only American Indian agents in the bureau. The agents infiltrated the region, struggling to adopt the latest techniques of detection. Together with the Osage they began to expose one of the most chilling conspiracies in American history. In *Killers of the Flower Moon*, David Grann revisits a shocking series of crimes in which dozens of people were murdered in cold blood. Based on years of research and startling new evidence, the book is a masterpiece of narrative nonfiction, as each step in the investigation reveals a series of sinister secrets and reversals. But more than that, it is a searing indictment of the callousness and prejudice toward American Indians that allowed the murderers to operate with impunity for so long. *Killers of the Flower Moon* is utterly compelling, but also emotionally devastating.
