## Language Myths

This book raises the issue of what a teacher needs to

## Download Ebook Study Of Language George Yule 4th Edition

know about English in order to teach it effectively. It leads teachers to awareness of the language through a wide range of tasks which involve them in analysing English to discover its underlying system.

### **The Structure of Language**

#### **Oxford Practice Grammar**

"The Teacher's grammar of English enables English language teachers and teachers-in-training to fully understand and effectively teach English grammar. With comprehensive presentation of form, meaning, and usage, along with practical exercises and advice on teaching difficult structures, it is both a complete grammar course and an essential reference text."--Back cover.

#### **Sounds Interesting**

Developed at Carleton University, Ottawa, this is a comprehensive workbook -- now in its second, revised edition -- designed primarily for use with introductory courses in linguistics. With 334 graded exercises and problems from more than 60 languages and dialects.

#### **Living Language**

Teaching the Spoken Language is about teaching the spoken language. It presents in a highly accessible form the results of the author's important research on teaching and assessing effective spoken

## Download Ebook Study Of Language George Yule 4th Edition

communication. The authors examine the nature of spoken language and how it differs from written language both in form and purpose. A large part of it is concerned with principles and techniques for teaching spoken production and listening comprehension. An important chapter deals with how to assess spoken language. The principles and techniques described apply to the teaching of English as a foreign and second language, and are also highly relevant to the teaching of the mother tongue.

### **The Teacher's Grammar of English with Answers**

If you need to start speaking German Fast, but you don't have a lot of time to study the language, German For Dummies Audio Set is the quick-learning solution for you. These three sixty-minute CDs feature fast, focused instruction that gets you quickly up to speed on essential vocabulary and language structure. This practical, portable audio set is designed to help you learn to speak German in a hurry and with no fuss, whether you're at home or on the road. From basic greetings and expressions to grammar and conversations, you'll grasp the essentials and start communicating right away! Plus, you can follow along with the handy 96-page portable guide. It's filled with words and phrases you'll hear on the CD and also includes a mini dictionary. You can practice at your own pace and skip around to focus on immediate needs. Discover how to: Get started with basic words and phrases Handle greetings and introductions Form sentences and practice parts of

### **Workbook for Keys to Teaching Grammar to English Language Learners**

Language is not simply a tool for communication - symbolic power struggles underlie any speech act, discourse move, or verbal interaction, be it in face-to-face conversations, online tweets or political debates. This book provides a clear and accessible introduction to the topic of language and power from an applied linguistics perspective. It is clearly split into three sections: the power of symbolic representation, the power of symbolic action and the power to create symbolic reality. It draws upon a wide range of existing work by philosophers, sociolinguists, sociologists and applied linguists, and includes current real-world examples, to provide a fresh insight into a topic that is of particular significance and interest in the current political climate and in our increasingly digital age. The book shows the workings of language as symbolic power in educational, social, cultural and political settings and discusses ways to respond to and even resist symbolic violence.

## **Language and Linguistics**

This is an introduction to pragmatics, the study of how people make sense of each other linguistically. The author explains, and illustrates, basic concepts such as the co-operative principle, deixis, and speech acts, providing a clear, concise foundation for further study.

## **Shadow of the Lions**

English Sentence Analysis: An introductory course is designed as a 10-week course for students of English Language and Literature, Linguistics, or other language related fields. In 10 weeks the student will be proficient in English analysis at sentence, clause and phrase level and have a solid understanding of the traditional terms and concepts of English syntax. This introduction prepares for practical courses in grammar and writing skills and for theoretical courses in syntactic argumentation. The Course Book provides sentence structures in clear graphics; logically structured chapters with Introductions and Summaries; exercises with quotations and excerpts from English, American and Australian literature and pop songs. English Sentence Analysis: An introductory course has been classroom tested at various universities. The students seem to enjoy the 'dreaded' syntax course and pass rates have gone up significantly from 50 to 70%. Originally, this book was accompanied by a CD-rom with a Practice Program for Windows. The Practice Program on CD-rom is not updated anymore by its creators and as a result is no

## Download Ebook Study Of Language George Yule 4th Edition

longer compatible with current Windows versions. For this reason, we have ceased to include it with the book.

### **The Study of Language**

Written by David Hornsby, who is a current Linguistics lecturer and researcher at the University of Kent, *Linguistics - The Essentials* is designed to give you everything you need to succeed, all in one place. It covers the key areas that students are expected to be confident in, outlining the basics in clear jargon-free English, and then providing added value features like summaries of key books, and even lists of questions you might be asked in your seminar or exam. The book uses a structure that mirrors many university courses on linguistics - with separate chapters focusing on linguistic thought, syntax, sound systems, morphology, semantics, pragmatics, language acquisition, and much more.

### **The Study of Language**

This is 'the' teacher training course for teachers and trainee teachers preparing for the Cambridge ESOL Teaching Knowledge Test - CLIL module.

### **Explaining English Grammar**

"A lucid and readable introduction to the contemporary study of language—what linguistics is and how linguists go about their business."

## **German For Dummies Audio Set**

A unique collection of original essays by 21 of the world's leading linguists. The topics discussed focus on some of the most popular myths about language: The Media Are Ruining English; Children Can't Speak or Write Properly Anymore; America is Ruining the English Language. The tone is lively and entertaining throughout and there are cartoons from Doonesbury and The Wizard of Id to illustrate some of the points. The book should have a wide readership not only amongst students who want to read leading linguists writing about popular misconceptions but also amongst the large number of people who enjoy reading about language in general.

## **Speakers, Listeners and Communication**

## **Source Book for Linguistics**

## **The Five-minute Linguist**

Most of the time we communicate using language without considering the complex activity we are undertaking, forming words and sentences in a split second. This book introduces the analysis of language structure, combining both description and theory within a single, practical text. It begins by examining words and parts of words, and then looks at how words work together to form sentences that communicate meaning. Sentence patterns across

## Download Ebook Study Of Language George Yule 4th Edition

languages are also studied, looking at the similarities and the differences we find in how languages communicate meaning. The book also discusses how context can affect how we structure our sentences: the context of a particular language and its structures, the context of old and new information for us and our addressee(s), and the context of our culture.

### **The Study of Language**

This 1981 book is a general introduction to linguistics and the study of language, intended particularly for beginning students and readers with no previous knowledge or training in the subject. There is first a general account of the nature of language and of the aims, methods and basic principles of linguistic theory. John Lyons then introduces in turn each of the main sub-fields of linguistics: the sounds of language, grammar, semantics, language change, psycholinguistics: the sounds of language, grammar, semantics, language change, psycholinguistics, language and culture. Throughout the book he emphasizes particularly those aspects of the discipline that seem fundamental and most likely to remain important. He stresses throughout the cultural at least as much as the biological context of human language, and shows how the linguist's concerns connect productively with those of the traditional humanities and the social sciences. Each chapter has a wide-ranging set of discussion questions and revision exercises, and extensive suggestions for further reading. The exposition is marked throughout

## Download Ebook Study Of Language George Yule 4th Edition

by the author's characteristic clarity, balance and authority.

### **Language Development from Theory to Practice**

“A literary thriller and coming-of-age story set at an elite Virginia boarding school. A promising, well-crafted debut” (The Atlanta Journal-Constitution). Southern Living Best Books of the Year Publishers Weekly Best Summer Books How long must we pay for the crimes of our youth? That is just one question Christopher Swann explores in this compulsively readable debut, a literary thriller set in the elite—and sometimes dark—environs of Blackburne, a prep school in Virginia. When Matthias Glass’s best friend, Fritz, vanishes without a trace in the middle of an argument during their senior year, Matthias tries to move on with his life, only to realize that until he discovers what happened to his missing friend, he will be stuck in the past—guilty, responsible, alone. Almost ten years after Fritz’s disappearance, Matthias gets his chance. Offered a job teaching English at Blackburne, he gets swiftly drawn into the mystery. In the shadowy woods of his alma mater, he stumbles into a web of surveillance, dangerous lies, and buried secrets—and discovers the troubled underbelly of a school where the future had once always seemed bright. “Fast-paced and full of unexpected turns, Christopher Swann’s *Shadow of the Lions* pulls readers into the dark underworld looming beneath a prestigious boys’ boarding school.” —Mira Jacob, author of *The Sleepwalker’s Guide to Dancing* “Comes

## Download Ebook Study Of Language George Yule 4th Edition

alive with action and intrigue.” —The Wall Street Journal “Swann’s tightly knit debut novel is a moving coming-of-age story with a noir twist that will appeal to readers of John Knowles’s *A Separate Peace*, N.H. Kleinbaum’s *Dead Poets Society*, and Donna Tartt’s *The Secret History*.” —Library Journal (starred review)

### **English Sentence Analysis**

The Five-Minute Linguist has been a popular introduction to the subject of language because it is succinct, clear, accurate - and fun to read. It is used by beginning students of linguistics, language education and anthropology, and has broad appeal for general readers, people who read for enjoyment as well as knowledge. The book started life as a series of five-minute radio broadcasts and for this reason its conversational style feels more like a series of fireside chats than a regular college textbook. Those radio broadcasts were highly acclaimed and won the 2007 Linguistics, Language, and the Public Award from the Linguistic Society of America. The chapters are short, suitable for browsing or reading on the run. But although it is intentionally light in tone, the book is full of up-to-date information, written by more than 60 experts from around the world. This expanded second edition of the book is produced under the sponsorship of the Linguistic Society of America and the US National Museum of Language. Praise for this volume: 'An excellent, very accessible, and extremely easy-and fun-to-read introduction to some of the basic questions (and misconceptions) regarding language, language learning, and linguistics. The book clearly

## Download Ebook Study Of Language George Yule 4th Edition

meets the editors' intended goals; with each essay, the reader is engaged in a five-minute, light and informal conversation about the passionate topic of language.' Linguist List 23.4805, November 2012 'This book is for anyone who has a question about languages or the nature of language-which means just about all of us. But it's not just a musty academic text for specialists. While written by leading experts on the subject of language, The Five-Minute Linguist is a user-friendly exploration of the basics, a linguistic start-up kit for general readers. It assumes nothing on your part except interest in the subject. Its bite-sized chapters (no more than 3-4 pages each) give authoritative answers to the most frequently asked questions people have about language, and tell the story in a lively and colloquial style. It is a delightful read.' From the Foreword by Bret Lovejoy, Executive Director, American Council on the Teaching of Foreign Language

### **Language as Symbolic Power**

Sounds Interesting explores a range of current and widely researched topics such as pronunciation, teaching, intonation, spelling, and accents.

### **The Language Lottery**

Discourse analysis is a term that has come to have different interpretations for scholars working in different disciplines. For a sociolinguist, it is concerned mainly with the structure of social interaction manifested in conversation; for a

## Download Ebook Study Of Language George Yule 4th Edition

psycholinguist, it is primarily concerned with the nature of comprehension of short written texts; for the computational linguist, it is concerned with producing operational models of text-understanding within highly limited contexts. In this textbook, first published in 1983, the authors provide an extensive overview of the many and diverse approaches to the study of discourse, but base their own approach centrally on the discipline which, to varying degrees, is common to them all - linguistics. Using a methodology which has much in common with descriptive linguistics, they offer a lucid and wide-ranging account of how forms of language are used in communication. Their principal concern is to examine how any language produced by man, whether spoken or written, is used to communicate for a purpose in a context.

### **The Study of Language South Asia Edition**

This hands-on workbook gives students practice in analyzing 30 natural languages from Akan and Arabic to Welsh and Yiddish, plus constructed languages like Klingon and Na'vi. In addition, audio files on the accompanying website allow students to hear much of the foreign language data pronounced by native speakers. Exercises progress in level of challenge and are divided into English and non-English sections, while sample exercises and solutions in phonology and morphology give students additional practice. An answer key with extended discussions and pedagogical suggestions is available. Although

## Download Ebook Study Of Language George Yule 4th Edition

developed to accompany Finegan's LANGUAGE: ITS STRUCTURE AND USE, it is an ideal companion to any linguistics textbook. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

### **The Study of Language 6th Edition**

A course text and self-study tool for advanced learners of English for academic purposes.

### **About Language**

This best-selling textbook provides an engaging and user-friendly introduction to the study of language. Assuming no prior knowledge in the subject, Yule presents information in short, bite-sized sections, introducing the major concepts in language study – from how children learn language to why men and women speak differently, through all the key elements of language. This fourth edition has been revised and updated with twenty new sections, covering new accounts of language origins, the key properties of language, text messaging, kinship terms and more than twenty new word etymologies. To increase student engagement with the text, Yule has also included more than fifty new tasks, including thirty involving data analysis, enabling students to apply what they have learned. The online study guide offers students further resources when working on the tasks, while encouraging lively and proactive learning. This is the most fundamental and easy-to-use

# Download Ebook Study Of Language George Yule 4th Edition

introduction to the study of language.

## **Lexical Plurals**

The Study of Language is quite simply the best introduction to the field available today.

## **Looking at Languages: A Workbook in Elementary Linguistics**

Referential communication is the term given to communicative acts, generally spoken, in which some kind of information is exchanged between one speaker and another. This information exchange is typically dependent on successful acts of reference, whereby entities (human and non-human) are identified (by naming or describing), are located or moved relative to other entities (by giving instructions or directions), or are followed through sequences of locations and events (by recounting an incident or a narrative). These "activities" are examples of events that are more typically described as "tasks" in the area of second language studies. These might be real world tasks encountered in everyday experience or pedagogical tasks specifically designed for second language classroom use. This volume comprehensively documents and describes the veritable explosion of task-based research in language acquisition. In a succinct, yet easily accessible fashion, it presents the origins, principles, and key distinctions of referential communication research in first and second language studies, complete with exhaustive analyses and illustrations of

## Download Ebook Study Of Language George Yule 4th Edition

different types of materials. The author also describes and evaluates different choices for using or modifying these materials, provides analytic frameworks for focusing on various aspects of the data elicited by these tasks, and includes an extensive bibliography plus an appendix showing original task materials.

### **The Last Speakers**

Revised and updated, the 2nd Edition of *Living Language: An Introduction to Linguistic Anthropology* presents an accessible introduction to the study of language in real-life social contexts around the world through the contemporary theory and practice of linguistic anthropology. Presents a highly accessible introduction to the study of language in real-life social contexts around the world Combines classic studies on language and cutting-edge contemporary scholarship and assumes no prior knowledge in linguistics or anthropology Features a series of updates and revisions for this new edition, including an all-new chapter on forms of nonverbal language Provides a unifying synthesis of current research and considers future directions for the field

### **Referential Communication Tasks**

Note: This is the bound book only and does not include access to the Enhanced Pearson eText. To order the Enhanced Pearson eText packaged with a bound book, use ISBN 0134412087. "Language Development From Theory to Practice" provides a survey of key topics in language development,

## Download Ebook Study Of Language George Yule 4th Edition

including research methods, theoretical perspectives, and major language milestones from birth to adolescence and beyond, and language diversity and language disorders. Each chapter bridges language development theory and practice by providing students with a theoretical and scientific foundation to the study of language development. The authors emphasize the relevance of the material to students current and future experiences in clinical, educational, and research settings; emphasize multicultural considerations and how they affect language development; focus on using evidence-based practices for making educational and clinical decisions; show the relevance of a multidisciplinary perspective on the theory and practice of language development; and include a number of outstanding pedagogical features to motivate and engage students. The new edition builds on the strengths of the earlier editions while featuring a chapter reorganization that promotes better understanding, more detailed coverage of topics of particular interest to students, expanded categorization of language-development theories, and a variety of helpful new pedagogical features. The Enhanced Pearson eText features embedded videos and assessments. Improve mastery and retention with the Enhanced Pearson eText\* The Enhanced Pearson eText provides a rich, interactive learning environment designed to improve student mastery of content. ### **Teaching the Spoken Language**

### **The Study of Language**

### **Teaching American English Pronunciation - Oxford Handbooks for Language Teachers**

The aim of this book is to provide teachers with a fresh approach to thinking about English grammar, Each chapter focuses on a problematic area, for example "Articles", "Conditionals", and "Direct and indirect speech". First the basic grammatical form is described, and then the meaning distinctions conveyed by particular forms. The final section of each chapter shows how meaning can be shaped by context and communicative purpose. The book includes exercises, teaching ideas, and a glossary.

### **Discourse Analysis**

## Download Ebook Study Of Language George Yule 4th Edition

In this book Gillian Brown draws on a wide range of examples of discourse analysis to explore the ways in which speakers and listeners use language collaboratively to talk about what they can see in front of them and about a series of events. She examines the conditions under which communication is successful, and the conditions under which it sometimes fails. The focus of her attention is upon the listener's role, as the listener tries to make sense of what the speaker says in a highly constrained context; her cognitive/pragmatic approach to discourse analysis both complements and challenges the sociological/anthropological perspectives on the subject which currently predominate. Gillian Brown is co-author of the well-known textbook *Discourse Analysis* (Cambridge University Press, 1983).

### **The Study of Language 4ed**

This bestselling textbook provides an engaging and user-friendly introduction to the study of language. Assuming no prior knowledge of the subject, Yule presents information in bite-sized sections, clearly explaining the major concepts in linguistics through all the key elements of language. This sixth edition has been revised and updated throughout, with substantial changes made to the chapters on phonetics, grammar and syntax, and eighty new study questions. To increase student engagement and to foster problem-solving and critical thinking skills, the book also includes twenty new tasks. An expanded and revised online study guide provides students with further resources, including answers

## Download Ebook Study Of Language George Yule 4th Edition

and tutorials for all tasks, while encouraging lively and proactive learning. This is the most fundamental and easy-to-use introduction to the study of language.

### **Uptalk**

This best-selling textbook provides an engaging and user-friendly introduction to the study of language. Assuming no prior knowledge in the subject, Yule presents information in short, bite-sized sections, introducing the major concepts in language study - from how children learn language to why men and women speak differently, through all the key elements of language. This fourth edition has been revised and updated with twenty new sections, covering new accounts of language origins, the key properties of language, text messaging, kinship terms and more than twenty new word etymologies. ### **The Statistical Study of Literary Vocabulary**

As an ESL teacher, have you looked at the phonetics textbooks on the market and decided that they don't directly address your needs? Unlike pronunciation

## Download Ebook Study Of Language George Yule 4th Edition

books aimed at students of linguistics or at learners of English, *Teaching American English Pronunciation* has been written specifically for ESL teachers. It doesn't only give academic descriptions, but also helps you to improve your students' pronunciation effectively.

### **Grammar Advantage**

Part travelogue and part scientist's notebook, *The Last Speakers* is the poignant chronicle of author K. David Harrison's expeditions around the world to meet with last speakers of vanishing languages. The speakers' eloquent reflections and candid photographs reveal little-known lifeways as well as revitalization efforts to teach disappearing languages to younger generations. Thought-provoking and engaging, this unique book illuminates the global language-extinction crisis through photos, graphics, interviews, traditional wisdom never before translated into English, and first-person essays that thrillingly convey the adventure of science and exploration.

### **Pragmatics**

This book explores the wide variety of cases in which the plural of nouns is lexical. When a plural is lexicalized it becomes part of what it is to know a certain word: pence, for example, is lexical because it means a plurality of a certain kind - a multiple value, not a set of physical objects like pennies - and knowing this reading is knowing the word. Languages exhibit countless examples of similar word-dependent irregularities in the form and meaning of plural, but

## Download Ebook Study Of Language George Yule 4th Edition

these have never been analyzed in depth from a unified perspective. Dr Acquaviva aims to do just that, using analytic tools from formal semantics and theoretical morphology to shed light on the relation between grammar and the lexicon. After an introduction setting out his approach he divides the book into two parts. The first gives a structured description of the ways plurality can be lexicalized with an emphasis on description and categorization. The second analyzes in depth different types of lexical plurals in Italian, Irish, Arabic and Breton. A final chapter spells out the theoretical consequences for the analysis of the lexicon. The book is unusual in combining a broad typological classification with a unified morphological and semantic analysis based on a formal framework.

### **The TKT Course CLIL Module**

This bestselling textbook provides an engaging and user-friendly introduction to the study of language. Assuming no prior knowledge of the subject, Yule presents information in bite-sized sections, clearly explaining the major concepts in linguistics through all the key elements of language. This sixth edition has been revised and updated throughout, with substantial changes made to the chapters on phonetics, grammar and syntax, and eighty new study questions. To increase student engagement and to foster problem-solving and critical thinking skills, the book also includes twenty new tasks.
