Born Survivors

The Nazis murdered their husbands but concentration camp prisoners Priska, Rachel, and Anka would not let evil take their unborn children too—a remarkable true story that will appeal to readers of *The Lost and The Nazi Officer's Wife*, *Born Survivors* celebrates three mothers who defied death to give their children life. Eastern Europe, 1944: Three women believe they are pregnant, but are torn from their husbands before they can be certain. Rachel is sent to Auschwitz, unaware that her husband has been shot. Priska and her husband travel there together, but are immediately separated. Also at Auschwitz, Anka hopes in vain to be reunited with her husband. With the rest of their families gassed, these young wives are determined to hold on to all they have left—their lives, and those of their unborn babies. Having concealed their condition from infamous Nazi doctor Josef Mengele, they are forced to work and almost starved to death, living in daily fear of their pregnancies being detected by the SS. In April 1945, as the Allies close in, Priska gives birth. She and her baby, along with Anka, Rachel, and the remaining inmates, are sent to Mauthausen concentration camp on a hellish seventeen-day train journey. Rachel gives birth on the train, and Anka at the camp gates. All believe they will die, but then a miracle occurs. The gas chamber runs out of Zyklon-B, and as the Allied troops near, the SS flee. Against all odds, the three mothers and their newborns survive their treacherous journey to freedom. On the seventieth anniversary of Mauthausen's liberation from the Nazis by American soldiers, renowned biographer Wendy Holden recounts this extraordinary story of three children united by their mothers' unbelievable—yet ultimately successful—fight for survival.

The Plot to Kill Hitler

Inextinguishable Symphony

NATIONAL BESTSELLER NPR Best Book of 2017 “Not all superheroes wear capes, and Elizebeth Smith Friedman should be the subject of a future Wonder Woman movie.” — The New York Times

Joining the ranks of Hidden Figures and In the Garden of Beasts, the incredible true story of the greatest codebreaking duo that ever lived, an American woman and her husband who invented the modern science of cryptology together and used it to confront the evils of their time, solving puzzles that unmasked Nazi spies and helped win World War II. In 1916, at the height of World War I, brilliant Shakespeare expert Elizebeth Smith went to work for an eccentric tycoon on his estate outside Chicago. The tycoon had close ties to the U.S. government, and he soon asked Elizebeth to apply her language skills to an exciting new venture: code-breaking. There she met the man who would become her husband, groundbreaking cryptologist William Friedman. Though she and Friedman are in many ways the "Adam and Eve" of the NSA, Elizebeth's story, incredibly, has never been told. In *The Woman Who Smashed Codes*, Jason Fagone chronicles the life of this extraordinary woman, who played an integral role in our nation's history for forty years. After World War I, Smith used her talents to catch gangsters and smugglers during Prohibition, then accepted a covert mission to discover and expose Nazi spy rings that were spreading like wildfire across South America, advancing ever closer to the United States. As World War II raged, Elizebeth fought a highly classified battle of wits against Hitler's Reich, cracking multiple versions of the Enigma machine used by German spies. Meanwhile, inside an Army vault in Washington, William worked furiously to break Purple, the Japanese version of Enigma—and eventually succeeded, at a terrible cost to his personal life. Fagone unveils America's code-breaking history through the prism of Smith's life, bringing into focus the unforgettable events and colorful personalities that would help shape modern intelligence. Blending the lively pace and compelling detail that are the hallmarks of Erik Larson's bestsellers with the atmosphere and intensity of *The Imitation Game*, *The Woman Who Smashed Codes* is page-turning popular history at its finest.

We Were Not Alone

New York Times Bestseller “[A] fascinating, engrossing, often dark history of drug use in the Third Reich.” — Washington Post The Nazi regime preached an ideology of physical, mental, and moral purity. Yet as Norman Ohler reveals in this gripping new history, the Third Reich was saturated with drugs: cocaine, opiates, and, most of all, methamphetamines, which were consumed by everyone from factory workers to housewives to German soldiers. In fact, troops were encouraged, and in some cases ordered, to take rations of a form of crystal meth—the elevated energy and feelings of invincibility associated with the high even help to account for the breakneck invasion that sealed the fall of France in 1940, as well as other German military victories. Hitler himself became increasingly dependent on injections of a cocktail of drugs—ultimately including Eukodal, a cousin of heroin—administered by his personal doctor. Thoroughly researched and rivetingly readable, Blitzed throws light on a history that, until now, has remained in the shadows. “Delightfully nuts.” — The New Yorker NORMAN OHLER is an award-winning German novelist, screenwriter, and journalist. He is the author of the novels Die Quotenmaschine (the world’s first hypertext novel), Mitte, and Stadt des Goldes (translated into English as Ponte City). He was cowriter of the script for Wim Wenders’s film Palermo Shooting. He lives in Berlin.

Survival in the Shadows

Looks at the diverse unsuccessful attempts to assassinate Adolf Hitler, profiles the various conspirators involved in the incidents, and speculates about the potential global ramifications if one of the attempts had been successful. Reprint. 20,000 first printing.

Mengele: Unmasking the "Angel of Death"

Invisible Heroes of World War II documents ten fascinating true stories of a diverse group of soldiers and noncombatants from all over the world, including African Americans, women, and Native Americans, who fought with the Allies during World War II. These heroes made significant contributions in the war effort, and sometimes gave their lives for freedom and liberty, often without much recognition or fanfare. Some were frontline soldiers who were captured by the enemy and endured horrific conditions as POWs, others were ordinary citizens who fought in the French Resistance and provided vital operations to undermine Nazi occupation, while others were engineers, workers in industry, or war correspondents and photographers. All served with valor and distinction as part of the massive Allied forces who fought to free the world from tyranny and oppression.

The Woman Who Smashed Codes

In September 1941, a handful of isolationist senators set out to tarnish Hollywood for warmongering. The United States was largely divided on the possibility of entering the European War, yet the immigrant moguls in Hollywood were acutely aware of the conditions in Europe. After Kristallnacht (the Night of Broken Glass), the gloves came off. Warner Bros. released the first directly anti-Nazi film in 1939 with Confessions of a Nazi Spy. Other studios followed with such films as The Mortal Storm (MGM), Man Hunt (Fox), The Man I Married (Fox), and The Great Dictator (United Artists). While these films represented a small percentage of Hollywood's output, senators took aim at the Jews in Hollywood who were supposedly "agitating us for war" and launched an investigation that resulted in Senate Resolution 152. The resolution was aimed at both radio and movies that "have been extensively used for propaganda purposes designed to influence the public mind in the direction of participation in the European War." When the Senate approved a subcommittee to investigate the intentions of these films, studio bosses were ready and willing to stand up against the government to defend their beloved industry. What followed was a complete embarrassment of the United States Senate and a large victory for Hollywood as well as freedom of speech. Many works of American film history only skim the surface of the 1941 investigation of Hollywood. In Hollywood Hates Hitler! Jew-Baiting, Anti-Nazism, and the Senate Investigation into Warmongering in Motion Pictures, author Chris Yogerst examines the years leading up to and through the Senate Investigation into Motion Picture War Propaganda, detailing the isolationist senators' relationship with the America First movement. Through his use of primary documents and lengthy congressional records, Yogerst paints a picture of the investigation's daily events both on Capitol Hill and in the national press.

Fatherland

For the Shwartz family, survival was the only option. Their will to live, and a bit a luck, kept the family safe during the Holocaust, bringing them across Eastern Europe all the way to Israel. In 1937, the Shwartz family lived a calm life in their small village in Poland. Fifteen-year-old Rachel liked to sing and go out dancing at a local night club, while her older brother David was busy running a farm and raising a family with his wife Hinda. But all that changed when the war reached Butla. First, the Russians came and kicked them out of their house. Then, the Nazis came to cart them off. But the Shwartz family resisted. David decided that no matter what, his family would not be taken captive. Instead, he snuck his family out of their village, through a large forest, and into Hungary, a place that was supposed to be safe. But that didn't last long. Again the Shwartz family found themselves on the run, escaping prison, Nazis, and bombings. My Family's Survival is the incredible true story of how the Shwartz family survived the Holocaust. It is a powerful tale of one family's triumph during history's darkest moments. Fans of The Tattooist of Auschwitz and We Were the Lucky Ones will enjoy this riveting saga where hope prevails.

Hollywood Hates Hitler!

The story of how Corrie and her family became leaders in the Dutch Underground, hiding Jewish people in a specially built room in their house and aiding their escape from the Nazis.

Invisible Heroes of World War II

A gripping biography of the infamous Nazi doctor, from a former Justice Department official tasked with uncovering his fate. Perhaps the most notorious war criminal of all time, Josef Mengele was the embodiment of bloodless efficiency and passionate devotion to a grotesque worldview. Aided by the role he has assumed in works of popular culture, Mengele has come to symbolize the Holocaust itself as well as the failure of justice that allowed countless Nazi murderers and their accomplices to escape justice. Whether as the demonic doctor who directed mass killings or the elusive fugitive who escaped capture, Mengele has loomed so large that even with conclusive proof, many refused to believe that he had died. As chief of investigative research at the Justice Department's Office of Special Investigations in the 1980s, David G. Marwell worked on the Mengele case, interviewing his victims, visiting the scenes of his crimes, and ultimately holding his bones in his hands. Drawing on his own experience as well as new scholarship and sources, Marwell examines in scrupulous detail Mengele's life and career. He chronicles Mengele's university studies, which led to two PhDs and a promising career as a scientist; his wartime service both in frontline combat and at Auschwitz, where his "selections" sent innumerable innocents to their deaths and his "scientific" pursuits—including his studies of twins and eye color—traumatized or killed countless more; and his postwar flight from Europe and refuge in South America. Mengele describes the international search for the Nazi doctor in 1985 that ended in a cemetery in Sao Paulo, Brazil, and the dogged forensic investigation that produced overwhelming evidence that Mengele had died—but failed to convince those who, arguably, most wanted him dead. This is the riveting story of science without limits, escape without freedom, and resolution without justice.

The Death of Hitler: The Full Story with New Evidence from Secret Russian Archives

She was a young German Jew. He was an ardent member of the Hitler Youth. This is the story of their parallel journey through World War II. Helen Waterford and Alfons Heck were born just a few miles from each other in the German Rhineland. But their lives took radically different courses: Helen's to the Auschwitz extermination camp; Alfons to a high rank in the Hitler Youth. While Helen was hiding in Amsterdam, Alfons was a fanatic believer in Hitler's "master race." While she was crammed in a cattle car bound for the death camp Aushchwitz, he was a teenage commander of frontline troops, ready to fight and die for the glory of Hitler and the Fatherland. This book tells both of their stories, side-by-side, in an overwhelming account of the nightmare that was WWII. The riveting stories of these two remarkable people must stand as a

powerful lesson to us all.

At the Wolf's Table

Telling the stories of mothers, fathers and children in their own words, Vaizey recreates the experience of family life in Nazi Germany. From last letters of doomed soldiers at Stalingrad to diaries kept by women trying to keep their families alive in cities under attack, the book vividly describes family life under the most extreme conditions.

Hitler's First War

What was the secret to surviving the death camps? How did you keep from dying of heartbreak in a place of broken hearts and broken bodies? "Think of it as a game, Jack," an older prisoner tells him. "Play the game right and you might outlast the Nazis." Caught up in Hitler's Final Solution to annihilate Europe's Jews, fifteen-year-old Jack is torn from his family and thrown into the nightmarish world of the concentration camps. Despite intolerable conditions, Jack resolves not to hate his captors, and vows to see his family again. He forges friendships with other prisoners, and together they struggle to make it one more hour, one more day. But even with his strong will to live, can Jack survive the life-and-death game he is forced to play with his Nazi captors? Award-winning author Andrea Warren has crafted an unforgettable true story of courage, friendship, family love, and a boy becoming a man in the shadow of the Third Reich.

Molotov

In remembrance of the 75th anniversary of the liberation of Auschwitz and the Nazi concentration camps, this award-winning, bestselling work of Holocaust fiction, inspiration for the classic film and "masterful account of the growth of the human soul" (Los Angeles Times Book Review), returns with an all-new introduction and beautifully redesigned cover. An "extraordinary" (New York Review of Books) novel based on the true story of how German war profiteer and factory director Oskar Schindler came to save more Jews from the gas chambers than any other single person during World War II. In this milestone of Holocaust literature, Thomas Keneally, author of *The Book of Science and Antiquities* and *The Daughter of Mars*, uses the actual testimony of the Schindlerjuden—Schindler's Jews—to brilliantly portray the courage and cunning of a good man in the midst of unspeakable evil. "Astounding...in this case the truth is far more powerful than anything the imagination could invent" (Newsweek).

Betrayer's Waltz

“Revealing and well-written. . . . A significant book.”—Houston Chronicle It is one of the most enduring mysteries of the twentieth century: how, exactly, Adolf Hitler died and what happened to his remains. With access to the Russians' Hitler Archive, this book reveals not only what happened after the Russians captured Hitler's bunker but also why the Soviets felt the details of his death had to be suppressed.

Parallel Journeys

"A YA memoir of an 18-year old part-Jewish youth who, despite his heritage, is drafted into Hitler's army and sent to serve on the Russian front"--

The Nazi, the Princess, and the Shoemaker

BONUS: This edition contains an excerpt from Harry Turtledove's *The War that Came Early: West and East*. A stroke of the pen and history is changed. In 1938, British prime minister Neville Chamberlain, determined to avoid war, signed the Munich Accord, ceding part of Czechoslovakia to Hitler. But the following spring, Hitler snatched the rest of that country, and England, after a fatal act of appeasement, was fighting a war for which it was not prepared. Now, in this thrilling alternate history, another scenario is played out: What if Chamberlain had not signed the accord? In this action-packed chronicle of the war that might have been, Harry Turtledove uses dozens of points of view to tell the story: from American marines serving in Japanese-occupied China and ragtag volunteers fighting in the Abraham Lincoln Battalion in Spain to an American woman desperately trying to escape Nazi-occupied territory—and witnessing the war from within the belly of the beast. A tale of powerful leaders and ordinary people, at once brilliantly imaginative and hugely entertaining, *Hitler's War* captures the beginning of a very different World War II—with a very different fate for our world today.

Hitler

The five million copy bestseller and one of the bestselling books of the 21st Century. Chosen for the Richard and Judy Bookclub. I tattooed a number on her arm. She tattooed her name on my heart. In 1942, Lale Sokolov arrived in Auschwitz-Birkenau. He was given the job of tattooing the prisoners marked for survival - scratching numbers into his fellow victims' arms in indelible ink to create what would become one of the most potent symbols of the Holocaust. Waiting in line to be tattooed, terrified and shaking, was a young girl. For Lale - a dandy, a jack-the-lad, a bit of a chancer - it was love at first sight. And he was determined not only to survive himself, but to ensure this woman, Gita, did, too. So begins one of the most life-affirming, courageous, unforgettable and human stories of the Holocaust: the love story of the tattooist of Auschwitz. Don't miss Heather Morris's next book, *Stories of Hope*. Coming September 2020. ----- 'Extraordinary - moving,

confronting and uplifting . . . I recommend it unreservedly' Greame Simsion 'A moving and ultimately uplifting story of love, loyalties and friendship amidst the horrors of war . . . It's a triumph.' Jill Mansell 'A sincere . . . moving attempt to speak the unspeakable' Sunday Times

The True American: Murder and Mercy in Texas

Born into one of 19th century Europe's more powerful families, Archduchess Marie Valerie was the favorite daughter of Austria's Emperor Franz Joseph and Empress Elisabeth. Determined to marry for love, in 1890 she wed her cousin, Franz Salvator of Tuscany and bore him 10 children. The dashing Archduke was not faithful. His affair with Stephanie Richter, a young, middle-class Jewish woman with a knack for flattering powerful men, led to an illegitimate child, a royal title of her own and a career as a double-agent in the prelude to World War II. Princess Stephanie von Hohenlohe became vital to Adolf Hitler, betraying the German Jews, the British government, and her home country of Austria—until Hitler betrayed her, leaving her without allies or protectors.

Surviving the Angel of Death

Istv³/₄n De³/₄k is one of the world's most knowledgeable and clearheaded authorities on the Second World War, and for decades his commentary has been among the most illuminating and influential contributions to the vast discourse on the politics, history, and scholarship of the period. Writing chiefly for the New York Review of Books and the New Republic, De³/₄k has crafted review essays that cover the breadth and depth of the huge literature on this ominous moment in European history when the survival of democracy and human decency were at stake. ø Collected here for the first time, these articles chart changing reactions and analyses by the regimes and populations of Europe and reveal how postwar governments, historians, and ordinary citizens attempt to come to terms with?or to evade?the realities of the Holocaust, war, fascism, and resistance movements. They track the acts of scoundrels and the collusion of ordinary citizens in the so-called Final Solution but also show how others in authority and on the street heroically opposed the evil of the day. With its depth, conciseness, and interpretive power, this collection allows readers to consider more clearly and completely than ever before what has been said, how thought has shifted, and what we have learned about these momentous, world-changing events.

A Higher Call

Perfect for fans of suspenseful nonfiction such as books by Steve Sheinkin, this is a page-turning narrative about Dietrich Bonhoeffer, a pastor and pacifist who became an unlikely hero during World War II and took part in a plot to kill Hitler.

Written by two-time National Book Award finalist Patricia McCormick, author of *Sold and Never Fall Down* and coauthor of the young reader's edition of *I Am Malala*. It was April 5, 1943, and the Gestapo would arrive any minute. Dietrich Bonhoeffer had been expecting this day for a long time. He had put his papers in order—and left a few notes specifically for Hitler's men to see. Two SS agents climbed the stairs and told the boyish-looking Bonhoeffer to come with them. He calmly said good-bye to his parents, put his Bible under his arm, and left. Upstairs there was proof, in his own handwriting, that this quiet young minister was part of a conspiracy to kill Adolf Hitler. This compelling, brilliantly researched account includes the remarkable discovery that Bonhoeffer was one of the first people to provide evidence to the Allies that Jews were being deported to death camps. It takes readers from his privileged early childhood to the studies and travel that would introduce him to peace activists around the world—eventually putting this gentle, scholarly pacifist on a deadly course to assassinate one of the most ruthless dictators in history. *The Plot to Kill Hitler* provides fascinating insights into what makes someone stand up for what's right when no one else is standing with you. It is a question that every generation must answer again and again. With black-and-white photographs, fascinating sidebars, and thoroughly researched details, this book should be essential reading.

Nazi War Crimes, US Intelligence and Selective Prosecution at Nuremberg

Have you ever heard of a Jew who saved a Nazi's life? Who evaded capture by pretending to be a Polish peasant, a Communist spy, a partisan, and a Rabbi? Who spent months starving in the woods, sleeping in haystacks in the freezing cold, only to finish off the war in a luxurious palace as the guest of a Polish princess? Over 30 years in the making, this unique and extraordinary account was recreated from cassette tapes which were recorded in the early 1980s and later found in the bottom of a closet, as well as videotaped interviews by Steven Spielberg's Shoah Foundation. The book describes Binem's childhood in the rural Polish village of Radziejow, and details how his family and community were devastated by the trauma of the Nazi invasion and unimaginably cruel occupation of Poland. At the age of 24, Binem escapes a German forced labor camp and struggles to survive the harsh Polish winter by sleeping in haystacks during the day and begging food from peasant farmers at night. Through a chance encounter with a former schoolmate, Binem is taken in by the Osten-Sackens, an aristocratic Polish woman (the "Princess") and her ethnic German husband, who Binem later learns is a secret Gestapo agent. When Germany begins to lose the war, their son, an SS officer (the "Nazi"), forces Binem to vow to protect his parents from inevitable attempts at retribution. Binem makes good on his promise (three times) saving Osten-Sacken twice from Russian soldiers and later by testifying on his behalf in a Polish court. The book describes Binem's Holocaust experience in harrowing detail, from its lows, including a suicide attempt in the Jewish graveyard where his parents were buried, to its highs, such as finishing off the war as an honored guest at the Osten-Sacken mansion, and his celebratory speech to the Russian Jewish officers who liberated him.

Schindler's List

“Oh my human brothers, let me tell you how it happened.” Dr. Max Aue, the man at the heart of Jonathan Littell’s stunning and controversial novel *The Kindly Ones*, personifies the evils of the Second World War and the Holocaust. Highly educated and cultured, he was an ambitious SS officer, a Nazi and mass murderer who was in the upper echelons of the Third Reich. He tells us of his experience during the war. He was present at Auschwitz and Babi Yar, witnessed the battle of Stalingrad, and survived the fall of Berlin — receiving a medal from Hitler personally in the last days of Nazi Germany. Long after the war, he is living a comfortable bourgeois life in France, married with two children, managing a lace factory. And now, having evaded justice, he speaks out, giving a precise and accurate record of his life. The tone of his account is detached, lapidary, and for the most part unrepentant, whether he is describing his participation in mass murder on the Eastern Front, his bureaucratic investigations of labour productivity in the death camps, his casual murder of civilians as he tries to break through Russian lines towards the end of the war, or his fervid and convoluted relationship with his twin sister. Over its course, by entwining Aue’s life with those of historical figures such as Eichmann and Speer, Himmler and indeed Hitler, *The Kindly Ones* comes to depict the entire architecture of Nazism — from its grandest intellectual pretensions to its most minute, most chilling managerial details and executions. *The Kindly Ones* presents — with unprecedented realism, meticulous research that is both fascinating and compelling, and brilliant literary accomplishment — the greatest horrors imaginable. “War and murder are a question, a question without an answer, for when you cry out in the night, no one answers,” Aue says. In the same way, this powerfully affecting, powerfully challenging book confronts the reader with the most profound questions about history, morality, and art without offering any easy resolution. Written originally in French, and published now in English for the first time, *The Kindly Ones* has already sold to date well over a million copies in Europe. In France it won two prestigious prizes, including the Goncourt, and has been compared to *War and Peace* and other great classics of literature. From the Hardcover edition.

Desperation

In this non-fiction tale of Holocaust survival, Libe must survive for 18 months in a haystack. Her only hope comes from a dog named Brisko. Libe and her family are harbored by a farmer named Pavlo, who has nothing to gain from his display of humanity, and everything to lose - including his family. As the ghetto in Tuchin burns and the Nazis hunt them daily, Libe's family must rely on their cunning, hope, and faith to endure. As their journey swells with danger and despair, their faith begins to wane, and Libe finds that her very survival will depend upon her miraculous hero, Brisko.

Surviving Hitler

The Tattooist of Auschwitz

When Lydia Rychner-Reich took her first breath in 1927, no one could have predicted the horrors she would face in her life. Born just before the rise of the Nazi regime in Germany, she personally experienced the atrocities of the time and shares them in this memoir for the whole world. In *Desperation*, Lydia recounts the harrowing story of her life under Nazi rule. The torment began in 1938 when, at the age of eleven, the Nazis deported Lydia and her family to Poland, where they struggled daily to survive in a Jewish ghetto. In 1943, the Nazis tore Lydia away from her parents, sending her to detention centers and later to toil in a slave labor camp. It was at the end of 1944 that Lydia was truly tested. The Nazis forced her and the other prisoners on the Death March to Bergen-Belsen, where she spent the remainder of her imprisonment and where she met and befriended Anne Frank. While at Bergen-Belsen, Lydia wrote and hid notes to document the horrors she witnessed. This heart-wrenching account includes photos and official documentation from the Nazi era. Of her family, Lydia alone survived the concentration camps; her parents and sisters died there. She tells her tale so the world won't forget the innocent victims.

The Jew of Linz

Twenty years after Germany's victory in World War II, while the entire country prepares for the U.S. president's visit, Berlin Detective Xavier March attempts to solve the murder of a high-ranking Nazi commander. Reprint.

Killing Hitler

Eva Mozes Kor was just ten years old when she arrived in Auschwitz. While her parents and two older sisters were taken to the gas chambers, she and her twin, Miriam, were herded into the care of the man known as the Angel of Death, Dr. Josef Mengele. Subjected to sadistic medical experiments, she was forced to fight daily for her and her twin's survival. In this incredible true story written for young adults, readers learn of a child's endurance and survival in the face of truly extraordinary evil and Eva's recovery and her controversial but often misunderstood decision to publicly forgive the Nazis. Readers will learn of how she triumphed over unfathomable pain and suffering into a life-long work for peace, human rights,

and Holocaust education. The new edition provides interesting details and important context to the events related in the original story. A new Afterword by publisher Peggy Porter Tierney offers a richer portrayal of Eva as a person, the truth behind the controversies, and the eventful last ten years of her life.

Blitzed

A “New & Noteworthy” selection of The New York Times Book Review “Alexis Clark illuminates a whole corner of unknown World War II history.” —Walter Isaacson, New York Times bestselling author of Leonardo da Vinci “[A]n irresistible human story. . . . Clark’s voice is engaging, and her tale universal.” —Jon Meacham, Pulitzer Prize-winning author of Thomas Jefferson: The Art of Power and American Lion: Andrew Jackson in the White House A true and deeply moving narrative of forbidden love during World War II and a shocking, hidden history of race on the home front This is a love story like no other: Elinor Powell was an African American nurse in the U.S. military during World War II; Frederick Albert was a soldier in Hitler’s army, captured by the Allies and shipped to a prisoner-of-war camp in the Arizona desert. Like most other black nurses, Elinor pulled a second-class assignment, in a dusty, sun-baked—and segregated—Western town. The army figured that the risk of fraternization between black nurses and white German POWs was almost nil. Brought together by unlikely circumstances in a racist world, Elinor and Frederick should have been bitter enemies; but instead, at the height of World War II, they fell in love. Their dramatic story was unearthed by journalist Alexis Clark, who through years of interviews and historical research has pieced together an astounding narrative of race and true love in the cauldron of war. Based on a New York Times story by Clark that drew national attention, *Enemies in Love* paints a tableau of dreams deferred and of love struggling to survive, twenty-five years before the Supreme Court’s Loving decision legalizing mixed-race marriage—revealing the surprising possibilities for human connection during one of history’s most violent conflicts.

The Kindly Ones

Surviving Hitler’s War

The international bestseller based on a haunting true story that raises provocative questions about complicity, guilt, and survival. They called it the Wolfsschanze, the Wolf’s Lair. “Wolf” was his nickname. As hapless as Little Red Riding Hood, I had ended up in his belly. A legion of hunters was out looking for him, and to get him in their grips they would gladly slay me as well. Germany, 1943: Twenty-six-year-old Rosa Sauer’s parents are gone, and her husband Gregor is far away, fighting on the front lines of World War II. Impoverished and alone, she makes the fateful decision to leave war-torn Berlin to live with her in-laws in the countryside, thinking she’ll find refuge there. But one morning, the SS come to tell her she has

been conscripted to be one of Hitler's tasters: three times a day, she and nine other women go to his secret headquarters, the Wolf's Lair, to eat his meals before he does. Forced to eat what might kill them, the tasters begin to divide into The Fanatics, those loyal to Hitler, and the women like Rosa who insist they aren't Nazis, even as they risk their lives every day for Hitler's. As secrets and resentments grow, this unlikely sisterhood reaches its own dramatic climax, as everyone begins to wonder if they are on the wrong side of history.

Surviving Hitler

Reviewing recently declassified CIA documents, this book provides a balanced but critical discussion of the contribution of American intelligence officials to the Nuremberg war crimes trials. Giving new details of how senior Nazi war criminals, such as SS General Karl Wolff, were provided with effective immunity deals, partly as a reward for their wartime cooperation with US intelligence officials, including Allen Dulles, former CIA Director, the author also discusses the role of such officials in mobilizing the unique resources of a modern intelligence agency to provide important trial testimony and vital documentary evidence. *Nazi War Crimes, US Intelligence and Selective Prosecution at Nuremberg* argues that both war crimes prosecutors and intelligence officials can engage in mutually beneficial collaborations, but that both sides need to recognize and appreciate the problems that may arise from the fact that these institutions are required to operate according to different, and in some cases contradictory, agendas. This topical book gives those studying, or with interests in, international law, criminal law and history an insight into the debates surrounding international war crimes, within the context of the Nuremberg war crimes trials.

Hitler's War

Winner of the Los Angeles Times Book Prize for Biography A New York Times bestseller, this major new biography of Hitler puts an emphasis on the man himself: his personality, his temperament, and his beliefs. Volker Ullrich's *Hitler*, the first in a two-volume biography, has changed the way scholars and laypeople alike understand the man who has become the personification of evil. Drawing on previously unseen papers and new scholarly research, Ullrich charts Hitler's life from his childhood through his experiences in the First World War and his subsequent rise as a far-right leader. Focusing on the personality behind the policies, Ullrich creates a vivid portrait of a man and his megalomania, political skill, and horrifying worldview. *Hitler* is a landmark biography with unsettling resonance in these times.

Enemies in Love

When Red Army soldiers discovered the Arndt, Lewinsky, and Gumpel families in April 1945, there were seven

survivors—the largest known group of German Jews to survive in hiding in the heart of the Third Reich. In January 1943 the four Arndts went into hiding to avoid deportation and were soon joined by Ellen and Charlotte Lewinsky and Bruno Gumpel. For two and a half years the group survived in the shadowy underworld of Berlin—without food ration cards, identity cards, or secure accommodations—less than two miles from Hitler's bunker. During their perilous saga they were protected by more than fifty non-Jewish Germans. This is not only a story of tremendous courage, resourcefulness, and stamina during the darkest days of Hitler's rule, but it also shows that anti-Semitism was not as ubiquitous among ordinary Germans as is commonly thought. Ellen and Erich Arndt and Ruth Arndt Gumpel, who live in the United States, here reveal their story in detail.

My Family's Survival

The never-before-told story of Eric Roberts, who infiltrated a network of Nazi sympathizers in Great Britain in order to protect the country from the grips of fascism June 1940: Europe has fallen to Adolf Hitler's army, and Britain is his next target. Winston Churchill exhorts the country to resist the Nazis, and the nation seems to rally behind him. But in secret, some British citizens are plotting to hasten an invasion. Agent Jack tells the incredible true story of Eric Roberts, a seemingly inconsequential bank clerk who, in the guise of "Jack King", helped uncover and neutralize the invisible threat of fascism on British shores. Gifted with an extraordinary ability to make people trust him, Eric Roberts penetrated the Communist Party and the British Union of Fascists before playing his greatest role for MI5: Hitler's man in London. Pretending to be an agent of the Gestapo, Roberts single-handedly built a network of hundreds of British Nazi sympathizers—factory workers, office clerks, shopkeepers—who shared their secrets with him. It was work so secret and so sensitive that it was kept out of the reports MI5 sent to Winston Churchill. In a gripping real-world thriller, Robert Hutton tells the fascinating story of an operation whose existence has only recently come to light with the opening of MI5's WWII files. Drawing on these newly declassified documents and private family archives, Agent Jack shatters the comforting notion that Britain could never have succumbed to fascism and, consequently, that the world could never have fallen to Hitler. Agent Jack is the story of one man who loved his country so much that he risked everything to stand against a rising tide of hate.

The Hiding Place

The story of Hitler's formative experiences as a soldier on the Western Front - now told in full for the first time. Hitler's First War is a radical revision of the period of Hitler's life that is said to have made him. Through the stories of the veterans of his regiment, Thomas Weber challenges the mythical view presented in *Mein Kampf* to show a Hitler who was shunned by the frontline soldiers of his regiment as a 'rear area pig' and who was still unsure of his political ideology even at the end of the
