By installing various open source software packages, you can use TiVo for mail, instant messaging, caller-ID, and more. It's also easy to run a web server on TiVo to schedule recordings, access lists of recorded shows, and even display them on a web site. While TiVo gives viewers personalized control of their TVs, TiVo Hacks gives users personalized control of TiVo.Note: Not all TiVos are the same. The Series 2 TiVo, the most commonly sold TiVo today, is not open. You won't see

hacks in this book that involve modifying Series 2 software.
