The eighteenth annual British HCI Conference chose as its theme Design for Life. 'Life' has many facets, from work (of course, or should we say inevitably!) to travel, fun and other forms of leisure. We selected 23 full papers out of 63 submitted, which covered our interaction with computer systems in a variety of types of life situation — including games, tourism and certain types of work — and also covered a variety of stages in our lives, from the young to the elderly. These papers were complemented by others that described more traditional aspects of research in the field of human-computer interaction. In putting together the programme we followed a three-stage process. First each paper was reviewed by at least three reviewers. Then a member of the committee conducted a meta-review. Finally, all sets of reviews were considered by the technical chairs who assembled a programme that was submitted to, and approved by, the full committee. This process was greatly assisted by the use of the Precision Conference Solutions web-based submission system. Even more important, of course, were the volunteer reviewers themselves. In recognition, this year we have made an award for the best reviewer as well as one for the best paper.

Dark Money

Have you ever lost someone who meant more to you than your own soul? Ford Newcombe has. For years he loved his wife, Pat, more than anyone -- and anything -- in the world. She came into his life when he was just an inexperienced college student with big dreams of becoming a published author. With love and humour, she guided him down the path that would eventually lead him to more success than he ever dreamed possible. Since Pat's death six years ago, Ford has lived a life of solitude, barely able to put pen to paper, and rumours are flying that it was Pat who actually created the books the world so loved. If there's one thing that Ford needs it's inspiration, and it finally comes in the guise of Jackie Maxwell -- a smart, sassy university researcher with just enough attitude to match Ford's sharp intellect. But it's her intimate knowledge of the story of a young woman's friendship with the devil -- and what the townspeople did to her -- that persuades Ford to hire Jackie as his assistant and to move to Cole Creek, North Carolina, where the story is said to have taken place. They soon learn that even though the inhabitants of Cole Creek try to deny it, they are still plagued by the consequences of the otherworldly tale of passion and death. As Ford and Jackie work to unravel the truth, they discover a connection between their lives and the past, a

connection that not only helps them solve a long-ago crime but offers the promise of new love.

This book is an attempt to bring the gender and development debate full circle-

from a much-needed focus on empowering women to a more comprehensive gender framework that considers gender as a system that affects both women and men. The chapters in this book explore definitions of masculinity and male identities in a variety of social contexts, drawing from experiences in Latin America, the Caribbean and sub-Saharan Africa. It draws on a slowly emerging realization that attaining the vision of gender equality will be difficult, if not impossible, without changing the ways in which masculinities are defined and acted upon. Although changing male gender norms will be a difficult and slow process, we must begin by understanding how versions of masculinities are defined and acted upon.

The Hill to Die on

NEW YORK TIMES BESTSELLER * The inside story of Donald Trump's first two years in Washington as viewed from Capitol Hill, a startling account that turns "Congress into a Game of Thrones book" (Trevor Noah, The Daily Show). Taking readers into secret strategy calls and closed-door meetings from the House to the White House, Politico Playbook writers Jake Sherman and Anna Palmer trace the gamesmanship and the impulsiveness, the dealmaking and the backstabbing, in a blow-by-blow account of the power struggle that roiled Congress. Moving from the fights for advantage between Donald Trump, Nancy Pelosi, and Chuck Schumer; to Mitch McConnell's merciless, Machiavellian handling of the sexual assault accusations against Supreme Court nominee Brett Kavanaugh; to Paul Ryan's desperate, failed attempts to keep Mark Meadows from pushing Trump into a government shutdown over immigration, *The Hill to Die On* bristles with fresh news and tells the story of

what really happened in some of the most defining moments our era. Like *The West Wing* for Congress, or *Shattered* meets *This Town*, *The Hill to Die On* tells an unforgettable story of politics and power, where the stakes going forward are nothing less than the future of America and the lives of millions of ordinary Americans. Praise for *The Hill to Die On* "[Sherman and Palmer] go deep inside the halls of Congress to document the deal making, backstabbing, power struggles and political knife fights that have roiled the nation's capital during President Donald Trump's first two years in office. . . . Anything but boring."--USA Today, "5 Books Not to Miss" "[*The Hill to Die On*] painstakingly chronicles the return to divided government and the restoration of an institutional check on a mercurial chief executive. . . . The book depicts a foul-mouthed president in love with his own reflection, a House GOP encased in the amber of self-delusion, and Nancy Pelosi's unblinking focus on twin prizes: recapturing the House and returning to the speaker's chair."--The Guardian "If you are one of the many Americans who hates Congress, this book is for you. In the Washington depicted in Jake Sherman and Anna Palmer's new book, there are no heroes--only winners and losers. . . . With these lawmakers, Sherman and Palmer get inside their heads and capture what they're thinking in real time."--The Washington Post

INSTANT NEW YORK TIMES BESTSELLER The first explosive book about Javanka and their infamous rise to power Jared Kushner and Ivanka Trump are the self-styled Prince and Princess of America. Their swift, gilded rise to extraordinary power in Donald Trump's White House is unprecedented and dangerous. In *Kushner, Inc.*, investigative journalist Vicky Ward digs beneath the myth the couple has created, depicting themselves as the voices of reason in an otherwise crazy presidency, and reveals that Jared and Ivanka are not just the President's chief enablers: they, like him, appear disdainful of rules, of laws, and of ethics. They are entitled inheritors of the worst kind; their combination of ignorance, arrogance, and an insatiable lust for power has caused havoc all over the world, and may threaten the democracy of

the United States. Ward follows their trajectory from New Jersey and New York City to the White House, where the couple's many forays into policy-making and national security have mocked long-standing U.S. policy and protocol. They have pursued an agenda that could increase their wealth while their actions have mostly gone unchecked. In *Kushner, Inc.*, Ward holds Jared Kushner and Ivanka Trump accountable: she unveils the couple's self-serving transactional motivations and how those have propelled them into the highest levels of the US government where no one, the President included, has been able to stop them.

Christmas On My Mind

A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise

American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

Imperial Latin epic has seen a renaissance of scholarly interest. This book illuminates the work of the poet Lucan, a contemporary of the emperor Nero who as nephew of the imperial adviser Seneca moved in the upper echelons of Neronian society. This young and maverick poet, whom Nero commanded to

commit suicide at the age of 26, left an epic poem on the civil war between Caesar and Pompey that epitomizes the exuberance and stylistic experimentation of Neronian culture. This study focuses on Lucan's epic technique and traces his influence through the Middle Ages and the Renaissance. Martin T. Dinter's newest volume engages with Lucan's use of body imagery, sententiae, Fama (rumor), and open-endedness throughout his civil war epic. Although Lucan's *Bellum Civile* is frequently decried as a fragmented as well as fragmentary epic, this study demonstrates how Lucan uses devices other than teleology and cohesive narrative structure to bind together the many parts of his epic body. *Anatomizing Civil War* places at center stage characteristics of Lucan's work that have so far been interpreted as excessive, or as symptoms of an overly rhetorical culture indicating a lack of substance. By demonstrating that they all contribute to Lucan's poetic technique, Martin T. Dinter shows how they play a fundamental role in shaping and connecting the many episodes of the *Bellum Civile* that constitute Lucan's epic body. This important volume will be of interest to students of classics and comparative literature as well as literary scholars. All Greek and Latin passages have been translated.

Bannon Brothers: Honor

In September 2016, the provocative essay “The Flight 93 Election” galvanized many voters by spotlighting the stakes ahead in November and reproaching complacent elements of the Right. It also drew disparagement from many who judged it too apocalyptic in its assessment of the options facing the electorate. Its author, Michael Anton—writing as “Publius Decius Mus”—addressed the main criticisms of his argument soon afterward in a “Restatement on Flight 93.” A new criticism emerged later on: that he had painted a dire scenario to be averted, but no positive vision. Here, Anton presents the positive ideal that inspired him—a distillation of his thinking on Americanism and the West, refined over decades. He lays out the foundational principles of the American and Western traditions, examines the biggest threats to their survival, and underscores the necessity of continuing to defend them.

New York Times Bestseller: Two Texan half sisters battle over their father's fortune, risking their relationships with the men who love them. Standing over her father's coffin, Abbie Lawson wonders if he ever actually loved her. Yes, he'd given her wealth, a place in the top echelon of Houston society, and horses—a farm full of Arabians—but not his attention. On those important family occasions, he was always away on business in California. And then Abbie sees why . . . On the fringe of the crowd of mourners at the funeral is a woman whose face nearly mirrors her own—a second daughter. And, as if that betrayal isn't enough, she discovers that her father has left his money to the interloper. Abbie has the Arabians, but not the money to support them. As she witnesses her rival's rise in the Texas social scene, a tall, rough-hewn oil man named MacCrea Wilder enters her life. She doesn't need the distraction, but there's something about his sinewy arms that keeps her mind circling back to his kiss. Yet, as the years pass, even love may be sacrificed to the bitterness between these two women. With over 300 million books sold, Janet Dailey is one of the great names in fiction. In *Heiress*, she tells the story of half sisters trapped in a bitter rivalry, providing the "solid entertainment" that made her famous (Publishers Weekly).

The Four

In his highly provocative first book, Scott Galloway pulls back the curtain on exactly how Amazon, Apple, Facebook, and Google built their massive empires. While the media spins tales about superior products and designs, and the power of technological innovation, Galloway exposes the truth: none of these four are first movers technologically - they've either copied, stolen, or acquired their ideas. Readers will come away with fresh, game-changing insights about what it takes to win in today's economy. Print run 125,000.
