This book is a practical, symptom-based, 'how-to' guide to neuro-ophthalmology

and acquired strabismus for all trainee and practising ophthalmologists and optometrists. Each chapter focusses on a specific clinical symptom and includes an introduction to the clinical assessment of a symptom; an examination checklist; a management flowchart to be followed; clinical diagnostic criteria checklists; and further information on the diseases that can cause the symptom with a brief discussion of appropriate management. A practical and accessible handbook for the ophthalmologist or optometrist without a specialist interest in neuro-ophthalmology and acquired strabismus. The text simplifies a subject which is often a cause of litigation against practising ophthalmologists and exam failure for trainees and residents. The book aids diagnosis in a field in which mistakes may lead to medico-legal problems, e.g. brain tumours presenting with blurred or double vision. The book leads the reader from the symptom, through a series of simple but safe flowcharts and check-lists, to the diagnosis or the tests which need to be ordered. The first chapter presents 20 'golden rules' to keep you and your patients out of trouble. A revised text with some new illustrations brings this highly-praised book up to date. New online videos demonstrate abnormal eye movements, eyelid problems and pupil abnormalities.

### **Tales of California Yesterdays**

NEW EDITION 2008 - including lots of photos! Chasing the Horizon is a delightfully demented Celebration of A Way of Life. It is an outrageously funny, often touching, and continuously shocking tale of a modern sea gypsy. Cap'n Fatty's story is too bizarre to be fiction. Father wears floral skirts; mother is a tad vague. Sister Carole isn't interested in her millionaire suitor; she's too busy smooching with the kid in the cesspool truck. Their strange live-aboard boat caravan includes Mort the Mortician, Backwards Bernie, Ruby Red the Conman, Barefoot Benny, Geeper Creeper, Para the Paranoid, Lusty Laura, Xlax, Shark Boy, the Pawtucket Pirate, Bait Broad, Colonel Crispy, Scupper Lips, Bob the Broker, the Pirate Queen, Otto the Owner, the Twin Slaves of Green Slime-and even a terribly long-winded fellow named (Hurricane) Hugo. All seem hell-bent on avoiding the cops, the creeps, each other, and especially the Dreaded Dream Crushers. Dive in!

It's hard to imagine a wilder pair of brothers than Alfred and George Lawson. Best known as early promoters of professional baseball, they were intense rivals whose shared narcissism led them from one grand scheme to another, both in and away from the game, generating headlines as they went. Alfred had a long career as a player, manager, and minor league organizer before gaining notoriety as a utopian

novelist, philosopher, economic reformer, cult leader, and early aviation promoter. George was a soldier, vaudeville troupe manager, performing hypnotist, medical quack, evangelist, and anti-KKK crusader who sought to break baseball's color line by founding integrated leagues.

Colonel Cody and the Flying Cathedral is the fascinating and bizarre history of Samuel Franklin Cody, who in his early years worked the same cattle trails as Buffalo Bill and played the same Dodge City roulette tables as Wyatt Earp. But later his life took a startling turn. While performing in England, Cody became a passionate kite-builder and flyer, and at the apex of his career, fashioned a vast airplane dubbed "The Flying Cathedral," and with it went on to become the first man to fly in England.

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact

us directly to enquire about our tailored bulk rates.

## **The Neuro-Ophthalmology Survival Guide E-Book**

A comprehensive overview of weak convergence of stochastic processes and its application to the study of financial markets. Split into three parts, the first recalls the mathematics of stochastic processes and stochastic calculus with special emphasis on contiguity properties and weak convergence of stochastic integrals. The second part is devoted to the analysis of financial theory from the convergence point of view. The main problems, which include portfolio optimization, option pricing and hedging are examined, especially when considering discrete-time approximations of continuous-time dynamics. The third part deals with lattice- and tree-based computational procedures for option pricing both on stocks and stochastic bonds. More general discrete approximations are also introduced and detailed. Includes detailed examples.

A comprehensive history of the first three decades of underwater exploration in antebellum America. Beginning in 1837, some of the most brilliant engineers of America's Industrial Revolution turned their attention to undersea technology. Inventors developed practical hard-helmet diving suits, as well as new designs of submarines, diving bells, floating cranes, and undersea explosives. These innovations were used to clear shipping lanes, harvest pearls, mine gold, and wage war. All of these underwater technologies were brought together by entrepreneurs, treasure-hunters, and daring divers in the 1850s to salvage three infamous shipwrecks on Lake Erie, each of which had involved the loss of hundreds of lives, as well as the worldly goods of the passengers. The prospect of treasure, combined with the national notoriety of these disasters, soon attracted the attention of local adventurers and the country's leading divers and marine engineers. In *The Heroic Age of Diving*, Jerry Kuntz shares the fascinating stories of the pioneers of underwater invention and the brave divers who employed the new technologies as they raced with—and against—marine engineers to salvage the tragic wrecks of Lake Erie. “Jerry Kuntz has filled in a previously blank page in the story of diving—and done it well. *The Heroic Age of Diving* tells the story not only of the development of salvage technology but also the human side of this always-dangerous and often-deadly career. This is not a tale for the faint of heart (‘helmet squeeze’ is a gruesome fate), but one well worth reading for those interested in early technology and the men brave (or foolish) enough to gamble their lives using it. This book is a window on an unexplored (and unexpected) world, and the author

deserves great credit for bringing it back into the light.” — Chuck Veit, author of *Raising Missouri: John Gowen and the Salvage of the U.S. Steam Frigate Missouri, 1843–1852* “The Heroic Age of Diving is both very interesting and very important. Having spent over twenty years researching and publishing general diving history, I am confident that this book will fill an important gap in the nation’s diving history.” — Leslie Leaney, Cofounder, Historical Diving Society

From 1887 to 1893, the era Frederick Jackson Turner marked as the close of the American frontier, a young woman scandalized the residents of the Dakotas, Minnesota and northern Wisconsin with her fetching appearance, eccentric behavior and criminal misdeeds. Best known as Nellie King, she employed over a dozen other aliases throughout her career as fake detective, horse thief, laudanum fiend and general disturber of the dubious peace of saloons and brothels across the northern plains. She attracted sensational headlines, love-struck suitors and stray revolver shots with equal abandon; her story's Dickensian cast of characters included a hapless counterfeiter, a dashing physician, a battle-hardened magician and a determined mother. In this engaging narrative, Jerry Kuntz pieces together the clues to her true identity for the first time.

## **The Heroic Age of Diving**

In 1888, Samuel F. Cody, a twenty-one-year-old horse wrangler, met Maud Lee, a sixteen-year-old aspiring circus performer, while touring with the Wild West show cast of Adam Forepaugh's Circus. A quick rapport developed between the girl from Norristown, Pennsylvania, and the cowboy who dazzled audiences with his good looks and fancy pistol shooting. A Pair of Shootists is the exuberant and sometimes heartbreaking story of the elusive S. F. Cody and his first wife, Maud Lee.

Recounting their many dramatic exploits, this biography also overturns the frequently romanticized view of Wild West shows. Living the erratic lives of touring performers, S. F. Cody — who changed his name to capitalize on his resemblance

to William F. "Buffalo Bill" Cody — and Maud Lee first appeared together in vaudeville halls and dime museums. Setbacks in the United States made Cody and Lee eager to try their luck abroad, so they traveled to Great Britain, where they played music halls and acted in burlesques on roller-skates and in extravagant arena exhibitions. When the two performers eventually parted ways, author Jerry Kuntz masterfully splits their stories into two. From there, he follows their individual ups and downs, including Cody's soaring career in pioneer aeronautics and Lee's decline into mental illness and addiction. In an ironic twist, Maud's professional life ended amidst a vast misunderstanding that brought her into conflict with the woman she had been emulating her entire career: Annie Oakley. While other biographies focus mainly on Cody's contribution to aviation, Kuntz uses sources previously unavailable to scholars to paint a more complete picture of Cody's early years and to recover the forgotten — and ultimately tragic — story of Maud Lee.
