A one-armed computer technician, a radical blonde bombshell, an aging academic, and a sentient all-knowing computer lead the lunar population in a revolution against Earth's colonial rule

Cambridge IGCSE and O Level Economics

Many think they know the legends behind tulipmania and the legacy of the Dutch East India Tea Company, but what basic knowledge of Dutch history and culture should be passed on to future generations? A Key to Dutch History and its resulting overview of historical highlights, assembled by a number of specialists in consultation with the Dutch general public, provides a thought-provoking and timely answer. The democratic process behind the volume is reminiscent of the way in which the Netherlands has succeeded for centuries at collective craftsmanship, and says as much about the Netherlands as does the outcome of the opinions voiced.

Law Against Unfair Competition

To this day, no comprehensive academic study of the development of guidebooks to Rome over time has been performed. This book treats the history of guidebooks to Rome from the Middle Ages up to the early twentieth century. It is based on the results of the interdisciplinary research project Topos and Topography, led by Anna

Blennow and Stefano Fogelberg Rota. From the case studies performed within the project, it becomes evident that the guidebook as a phenomenon was formed in Rome during the later Middle Ages and early Renaissance. The elements and rhetorical strategies of guidebooks over time have shown to be surprisingly uniform, with three important points of development: a turn towards a more user-friendly structure from the seventeenth century and onward; the so-called 'Baedeker effect' in the mid-nineteenth century; and the introduction of a personalized guiding voice in the first half of the twentieth century. Thus, the 'guidebook tradition' is an unusually consistent literary oeuvre, which also forms a warranty for the authority of every new guidebook. In this respect, the guidebook tradition is intimately associated with the city of Rome, with which it shares a constantly renovating yet eternally fixed nature.

The Caucasus 1942-43

This collection investigates the culture and history of the Low Countries in the sixteenth and seventeenth centuries from both international and interdisciplinary perspectives. The period was one of extraordinary upheaval and change, as the combined impact of Renaissance, Reformation and Revolt resulted in the radically new conditions - political, economic and intellectual - of the Dutch Republic in its Golden Age. While many aspects of this rich and nuanced era have been studied before, the emphasis of this volume is on a series of interactions and interrelations: between communities and their varying but often cognate languages; between different but overlapping spheres of human activity; between culture and history. The chapters are written by historians, linguists, bibliographers, art historians and literary scholars based in the Netherlands, Belgium, Great Britain and the United States. In continually crossing disciplinary, linguistic and national boundaries, while keeping the culture and history of the Low Countries in the Renaissance and Golden Age in focus, this book opens up new and often surprising perspectives on a region all the more intriguing for the very complexity of its entanglements.

Wheels in the Storm

"Bruce Schneier's amazing book is the best overview of privacy and security ever written."—Clay Shirky "Bruce Schneier's amazing book is the best overview of privacy and security ever written."—Clay Shirky Your cell phone provider tracks your location and knows who's with you. Your online and in-store purchasing patterns are recorded, and reveal if you're unemployed, sick, or pregnant. Your e-mails and texts expose your intimate and casual friends. Google knows what you're thinking because it saves your private searches. Facebook can determine your sexual orientation without you ever mentioning it. The powers that surveil us do more than simply store this information. Corporations use surveillance to manipulate not only the news articles and advertisements we each see, but also the prices we're offered. Governments use surveillance to discriminate, censor, chill free speech, and put people in danger worldwide. And both sides share this information with each other or, even worse, lose it to cybercriminals in huge data breaches. Much of this is voluntary: we cooperate with corporate surveillance because it promises us convenience, and we submit to government surveillance because it promises us protection. The result is a mass surveillance society of our own making. But have we given up more than we've gained? In *Data and Goliath*,

security expert Bruce Schneier offers another path, one that values both security and privacy. He brings his bestseller up-to-date with a new preface covering the latest developments, and then shows us exactly what we can do to reform government surveillance programs, shake up surveillance-based business models, and protect our individual privacy. You'll never look at your phone, your computer, your credit cards, or even your car in the same way again.

Cookies, Coleslaw, and Stoops

Combining guidance for writing over 40 types of professional documents with thorough coverage of grammar, usage, and style, the Handbook of Technical Writing functions as both a writer's handbook and a complete guide to technical communication. It provides quick access to hundreds of topics and scores of sample documents and visuals. [publisher's note]

From Revolt to Riches

Global Marketing, Student Value Edition

For undergraduate and graduate global marketing courses. The excitement, challenges, and controversies of global marketing. Global Marketing reflects current issues and events while offering conceptual and analytical tools that will help students apply the 4Ps to global marketing. MyMarketingLab for Global Marketing is a total learning package. MyMarketingLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams--resulting in better performance in the course--and provides educators a dynamic set of tools for gauging individual and class progress. This program will provide a better teaching and learning experience--for you and your students. Here's how: Improve Results with MyMarketingLab: MyMarketingLab delivers proven results in helping students succeed and provides engaging experiences that personalize learning. Bring Global Marketing to Life with Real-World Examples: The cases in this text were written to encourage student interest and learning, stimulate class discussion, and enhance the classroom experience for students and instructors. Highlight Key Emerging Markets: Continued expanded coverage on the growing impact of emerging nations. Note: You are purchasing a standalone product; MyMarketingLab does not come packaged with this content. If you would like to purchase both the physical text and MyMarketingLab search for ISBN-10: 0133472221/ISBN-13: 9780133472226. That package includes ISBN-10: 0133545008/ISBN-13: 9780133545005 and ISBN-10: 0133576353/ISBN-13: 9780133576351. MyMarketingLab is not a self-paced technology and should only be purchased when required by an instructor.

Hodder Education resources, tried and tested over many years but updated regularly, are used with confidence worldwide by thousands of Cambridge students.

Esquire

Briefe aus dem Gefängnis by Rosa Luxemburg

Somme

This book examines the present state of harmonization of unfair competition law in Europe. It discusses the particular approach to unfair competition law in the 10 new Member States and the possible impact on the future development of European unfair competition law. The book presents new insight in the importance of unfair competition law, especially in countries with a developing market economy.

The Cold War in the Classroom

This book is open access under a CC BY 4.0 license. This book explores how the socially disputed period of the Cold War is remembered in today's history classroom. Applying a diverse set of methodological strategies, the authors map the dividing lines in and between memory cultures across the globe, paying special attention to the impact the crisis-driven age of our present has on images of the past. Authors analysing educational media point to ambivalence, vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies. Others focus on teachers and the history classroom, showing how unresolved political issues create tensions in history education. They render visible how teachers struggle to handle these challenges by pretending that what they do is 'just history'. The contributions to this book unveil how teachers, backgrounding the political inherent in all memory practices, often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach.

Everybody's Fool

The bestselling author of No Logo shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq In her

groundbreaking reporting over the past few years, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. The Shock Doctrine retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

Briefe Aus Dem Gefangnis

Ethical Obligations and Decision-Making in Accounting gives students a robust ethical framework that is crucial for accountants in the post-Enron era. Incorporating the principles of the AICPA code and other systems of ethics, Mintz and Morris show accounting students how a commitment to ethics can enable accounting professionals to meet their ethical obligations both to investors and creditors. No other book so comprehensively examines the elements of the financial reporting system - including the ethics of the internal control environment and the effectiveness of board of director and audit committee oversight - that determine the ethical standard of the accounting process.

Sports Law and Policy in the European Union

Ever since a mysterious fortuneteller informed Miss Wilhelmina Throssell that she'd soon meet her true love - a one-eyed commander - Mina's thought of little else. She never imagined marriage was in the stars for her or that she had a true love out there somewhere. Anywhere. Lieutenant-Colonel Nathaniel Carrick, Viscount Healeyfield returned home from the battlefields with nothing but his honor, his excellent eye-sight, and a crumbling abbey to his name. As luck would have it however, his wealthy mentor has a daughter of marriageable age that he'd like to see wed before he dies. Almost instantly, Nathaniel is quite smitten with the girl. She's lovely, enchanting and the most unique female of his acquaintance. Unfortunately, the girl in question is quite adamant that her one true love, whoever he may be, has but a single eye.

Handbook of Technical Writing

Much has been written of the titanic clashes between the Wehrmacht and the Red Army at Stalingrad, but this volume tells the other, equally important half of the story of Fall Blau (Case Blue). Learning from their experiences during the sweeping advances of Operation Barbarossa a year before, Wehrmacht commanders knew

that Nazi Germany's lack of oil was a huge strategic problem. Seizure of the Caucasus oilfields, which were responsible for 82% of the Soviet Union's crude oil, would simultaneously alleviate the German army's oil shortages whilst denying vital fuel resources to the Red Army. Whilst Army Group B advanced along the Volga towards Stalingrad, Army Group A, spearheaded by Ewald von Kleist's elite Panzerarmee 1 was to advance into the Caucasus to seize the oilfields of Maikop, Grozny and Baku. Featuring full-colour artwork, archival photos and detailed analysis, this book follows the vicious, intense fighting that characterised one of the most important campaigns of World War II.

The Entrepreneurial Personality

The decadence and depravity of the ancient Romans are a commonplace of serious history, popular novels and spectacular films. This book is concerned not with the question of how immoral the ancient Romans were but why the literature they produced is so preoccupied with immorality. The modern image of immoral Rome derives from ancient accounts which are largely critical rather than celebratory. Upper-class Romans habitually accused one another of the most lurid sexual and sumptuary improprieties. Historians and moralists lamented the vices of their contemporaries and mourned for the virtues of a vanished age. Far from being empty commonplaces these assertions constituted a powerful discourse through which Romans negotiated conflicts and tensions in their social and political order. This study proceeds by a detailed examination of a wide range of ancient texts (all of which are translated) exploring the dynamics of their rhetoric, as well as the ends to which they were deployed. Roman moralising discourse, the author suggests, may be seen as especially concerned with the articulation of anxieties about gender, social status and political power. Individual chapters focus on adultery, effeminacy, the immorality of the Roman theatre, luxurious buildings and the dangers of pleasure. This book should appeal to students and scholars of classical literature and ancient history. It will also attract anthropologists and social and cultural historians.

Awakening

In this volume, the renowned linguist Nicoline van der Sijs glosses over some 300 Dutch loan words that travelled to the New World between the 17th and the 20th century.

The Cultivator & Country Gentleman

Is there such a thing as an 'entrepreneurial personality'? What makes someone an entrepreneur is a question that has intrigued the lay person and the scholar for many years, but can such a personality be identified or is it simply a socially constructed phenomenon? Elizabeth Chell pursues an alternative line of argument: to show that the entrepreneurial personality is, on the one hand, socially constructed, but on the other hand, presents consistency in behaviours, skills and competencies. This second edition of the highly acclaimed *The Entrepreneurial Personality* revisits the topic and updates the evidence from a multi-disciplinary perspective. The book carefully weaves together the arguments and views from

economists, sociologists and psychologists in order to develop a strong conceptual foundation. It discusses the inferences that these experts have made about the nature of entrepreneurs and the entrepreneurial process, and explores whether such evidence has enabled psychometricians to develop robust instruments for assessing the characteristics of entrepreneurs. The evidence for a range of purported traits is reviewed and the models and research designs of interested social scientists are explained and evaluated. Throughout, Chell laces her argument richly with a set of cases derived from primary and secondary sources. This book presents a timely set of views on the entrepreneurial personality, and will be of great interest to academics in the fields of entrepreneurship, economics, management, applied psychology and sociology. This accessible text will also appeal to the interested general reader, as well as practitioners and consultants dealing with entrepreneurs in the field.

Los Angeles Magazine

Ethical Obligations and Decision Making in Accounting

A New York Times 2016 Notable Book An immediate national best seller and instant classic from the Pulitzer Prize-winning author of *Empire Falls*. Richard Russo returns to North Bath—"a town where dishonesty abounds, everyone misapprehends everyone else and half the citizens are half-crazy" (*The New York Times*)—and the characters who made *Nobody's Fool* a beloved choice of book clubs everywhere. *Everybody's Fool* is classic Russo, filled with humor, heart, hard times, and people you can't help but love, possibly because their various faults make them so human. *Everybody's Fool* picks up roughly a decade since we were last with Miss Beryl and Sully on New Year's Eve 1984. The irresistible Sully, who in the intervening years has come by some unexpected good fortune, is staring down a VA cardiologist's estimate that he has only a year or two left, and it's hard work trying to keep this news from the most important people in his life: Ruth, the married woman he carried on with for years . . . the ultra-hapless Rub Squeers, who worries that he and Sully aren't still best friends . . . Sully's son and grandson, for whom he was mostly an absentee figure (and now a regretful one). We also enjoy the company of Doug Raymer, the chief of police who's obsessing primarily over the identity of the man his wife might've been about to run off with, before dying in a freak accident . . . Bath's mayor, the former academic Gus Moynihan, whose wife problems are, if anything, even more pressing . . . and then there's Carl Roebuck, whose lifelong run of failing upward might now come to ruin. And finally, there's Charice Bond—a light at the end of the tunnel that is Chief Raymer's office—as well as her brother, Jerome, who might well be the train barreling into the station. A crowning achievement—"like hopping on the last empty barstool surrounded by old friends" (*Entertainment Weekly*)—from one of the greatest storytellers of our time.

Becoming Heidegger

Leadership in Early Education in Times of Change

The Tale of Tea

The Tale of Tea presents a comprehensive history of tea from prehistoric times to the present day in a single volume, covering the fascinating social history of tea and the origins, botany and biochemistry of this singularly important cultigen

In the Stars

The collection brings together the latest work of researchers from Australia, Africa, Asia, and Europe focusing on early childhood leadership matters. It covers different aspects of leadership in early education: professional education and development, identity and leadership strategies as well as governance and leadership under different frame conditions.

Lok Sabha Debates

New York Times Bestseller List “Leonard and Gobi’s story represents the power of people working together and the profound depth of feeling possible between a man and his dog.”--Publishers Weekly A man, a dog, and the lengths to which love will go to sacrifice for its companion. Finding Gobi is the miraculous tale of Dion Leonard, a seasoned ultramarathon runner who crosses paths with a stray dog while competing in a 155-mile race through the Gobi Desert in China. The lovable pup, who would later earn the name Gobi, proved that what she lacked in size, she more than made up for in heart, as she went step for step with Dion over the Tian Shan Mountains, across massive sand dunes, through yurt villages and the black sands of the Gobi Desert, keeping pace with him for 77 miles. As Dion witnessed the incredible determination and heart of this small animal, he found his own heart undergoing a change as well. Whereas in the past these races were all about winning and being the best, his goal now was to make sure he and Gobi’s friendship continued well after the finish line. He found himself letting Gobi sleep in his tent at night, giving her food and water out of his own limited supply, and carrying her across numerous rivers, even when he knew it would mean putting him behind in the race, or worse, prevent him from finishing at all. Although Dion did not cross the finish line first, he felt he had won something even greater – a new outlook on life and a new friend that he planned on bringing home as soon as arrangements were made. However, before he could take her home, Gobi went missing in the sprawling Chinese city where she was being kept. Dion, with the help of strangers and a viral outpouring of assistance on the internet, set out to track her down, and reunite forever with the amazing animal that changed his life and proved to him and the world that miracles are possible.

Our English Surnames

Although there are many works dealing with Pompeii and Herculaneum, none of them try to encompass the entire spectrum of material related to its reception in

popular imagination. Pompeii's Ashes surveys a broad variety of such works, ranging from travelogues between ca. 1740 and 2010 to 250 years of fiction, including stage works, music, and films. The first two chapters provide an in-depth analysis of the excavation history and an overview of the reflections of travelers. The six remaining chapters discuss several clearly-defined genres: historical novels with pagan tendencies, and those with Christians and Jews as protagonists, contemporary adventures, time traveling, mock manuscripts, and works dedicated to Vesuvius. "Pompeii's Ashes" demonstrates how the eternal fascination with the oldest still-running archaeological projects in the world began, developed, and continue until now.

The Shock Doctrine

Hell to Pay

Rescuing from history the heroes on the front line whose bravery has been overlooked, and giving voice to their bereaved relatives at home, Hugh Sebag-Montefiore reveals the Battle of the Somme in all its glory and misery, helping us to realize that there are many meaningful ways to define a battle when seen through the eyes of those who lived it.

"The" Illustrated London News

British Medical Journal

The Moon Is a Harsh Mistress

In the decades since Martin Heidegger's death, many of his early writings--notes and talks, essays and reviews--have made it into print, but in such scattershot fashion and erratic translation as to mitigate their usefulness for understanding the development, direction, and ultimate shape of his work. This timely collection, edited by two preeminent Heidegger scholars, brings together in English translation the most philosophical of Heidegger's earliest occasional writings from 1910 to the end of 1927. These important philosophical documents fill out the context in which the early Heidegger wrote his major works and provide the background against which they appeared. Accompanied by incisive commentary, these pieces from Heidegger's student days, his early Freiburg period, and the time of his Marburg lecture courses will contribute substantially to rethinking the making and meaning of Being and Time. The contents are of a depth and quality that make this volume the collection for those interested in Heidegger's work prior to his masterwork. The book will also serve those concerned with Heidegger's relation to such figures as Aristotle, Dilthey, Husserl, Jaspers, and Löwith, as well as scholars whose interests are more topically centered on questions of history, logic, religion, and truth. Important in their own right, these pieces will also prove particularly useful to students of Heidegger's thought and of twentieth-century philosophy in general.

Bundle Pack Containing

AWAKENING is a story of eleven rising-star managers who gather together in a secluded luxury lodge for a mysterious five-day leadership training course. Asked to pick a leader from amongst themselves, they soon realize that nothing is what it seems at this place, where managers are compared to ancient conquerors and one corporate taboo after another gets broken. As the group exercise progresses rapidly from a friendly election to a twisted web of no-holds-barred power plays, the players don't realize that soon some of them will be facing the harshest challenge of their lives. The unconventional workshop is about to take a very dangerous turn, testing the values and characters of its participants in the most brutal ways and presenting them with the ultimate question: how high a price are they willing to pay for power?

Data and Goliath: The Hidden Battles to Collect Your Data and Control Your World

Two years before the atomic attacks on Hiroshima and Nagasaki helped bring a quick end to hostilities in the summer of 1945, U.S. planners began work on Operation Downfall, codename for the Allied invasions of Kyushu and Honshu, in the Japanese home islands. While other books have examined Operation Downfall, D. M. Giangreco offers the most complete and exhaustively researched consideration of the plans and their implications. He explores related issues of the first operational use of the atomic bomb and the Soviet Union's entry into the war, including the controversy surrounding estimates of potential U.S. casualties. Following years of intense research at numerous archives, Giangreco now paints a convincing and horrific picture of the veritable hell that awaited invader and defender. In the process, he demolishes the myths that Japan was trying to surrender during the summer of 1945 and that U.S. officials later wildly exaggerated casualty figures to justify using the atomic bombs to influence the Soviet Union. As Giangreco writes, "Both sides were rushing headlong toward a disastrous confrontation in the Home Islands in which poison gas and atomic weapons were to be employed as MacArthur's intelligence chief, Charles Willoughby, succinctly put it, 'a hard and bitter struggle with no quarter asked or given.'" Hell to Pay examines the invasion of Japan in light of the large body of Japanese and American operational and tactical planning documents the author unearthed in familiar and obscure archives. It includes postwar interrogations and reports that senior Japanese commanders and their staffs were ordered to produce for General MacArthur's headquarters. This groundbreaking history counters the revisionist interpretations questioning the rationale for the use of the atomic bomb and shows that President Truman's decision was based on real estimates of the enormous human cost of a conventional invasion. This revised edition of Hell to Pay expands on several areas covered in the previous book and deals with three new topics: U.S.-Soviet cooperation in the war against Imperial Japan; U.S., Soviet, and Japanese plans for the invasion and defense of the northernmost Home Island of Hokkaido; and Operation Blacklist, the three-phase insertion of American occupation forces into Japan. It also contains additional text, relevant archival material, supplemental photos, and new maps, making this the definitive edition of an important historical work.

The Politics of Immorality in Ancient Rome

Rome and The Guidebook Tradition

Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian.
