My Favorite Things

A maintenance & repair manual for the DIY mechanic.

Yamaha PW50 Y-Zinger, PW80 Y-Zinger and BW80 Big Wheel 81-02

Lazy days . . . steamy nights . . . and sweltering guys with rippling muscles doing what they do best . . .

Luscious by Lori Foster Bethany Churchill just quit her lousy job, dumped her lousy boyfriend and moved into a new apartment. She's not looking for love, but her hot new landlord is determined to change her mind. SWAT officer Lucius Ryder--known to the women in the building as "Luscious," much to his chagrin--is one sexy lawman, and before long Bethany is tempted to find out if he's really as delicious as his nickname. . .

It's About Time by Erin McCarthy County prosecutor Trish Jones has had it with smooth-talking, under-performing suits. And though she's never had a thing for big, brawny guys, one look at Caleb Vancouver's bulges makes her think she might have been missing out. One Harley ride later they're back at her place, and she realizes that she has been missing out . . . on quite a lot . . .

Wish You Were Here by Amy Garvey Photographer Mackenzie Pruitt knows exactly what she wants her future to look like, and this summer that means renovating a dilapidated shed into a studio. But when hunky carpenter Leo Dawson shows up, she'd much rather have his capable hands on her than on a hammer. He's not the

kind of guy she always thought she'd fall for, but when he touches her, she can't imagine wanting anyone else . . .

When Only Love Remains

Ahmad ibn Tulun (835-84), the son of a Turkic slave in the Abbasid court of Baghdad, became the founder of the first independent state in Egypt since antiquity, and builder of Egypt's short-lived third capital of the Islamic era, al-Qata'i' and its great congregational mosque. After recounting the story of Ibn Tulun and his successors, architectural historian Tarek Swelim presents a topographic survey of al-Qata'i', a city lost since its complete destruction in 905. He then provides a detailed architectural analysis of the Mosque of Ibn Tulun, which was spared the destruction and is now the oldest surviving mosque in Egypt and Africa, from the time of its completion until today. Rare archival illustrations and early photographs document the changing appearance and uses of the mosque in modern times, while extraordinary 3D computer renderings take us back in time to recreate its architectural development through its early centuries. Plans, drawings, and maps complement the history, while striking modern color photographs showcase the elegant simplicity of the building's architecture and decoration. This definitive and generously illustrated book will appeal to scholars and students of Islamic art history, as well as to anyone interested in or inspired by the beauty of early mosque architecture.

Each Haynes Manual is based on a complete teardown and rebuild of the specific vehicle. Features hundreds of "hands-on" photographs taken of specific repair procedures in progress. Includes a full chapter on scheduled owner maintenance and devotes a full chapter to emissions systems. Wiring diagrams are featured throughout.

Harley-Davidson XL Sportster 2014-2017

Every year around the globe, people cross paths with avalanches-some massive, some no deeper than a pizza box-often with deadly results. Avalanche expert Jill Fredston stalks these so-called freaks of nature, forecasting where and when they will strike, deliberately triggering them with explosives, teaching potential victims how to stay alive, and leading rescue efforts when tragedy strikes. Having spent decades trying to keep avalanches and people apart, Fredston brings them together unforgettably in *Snowstruck*. From a rare store of personal experience, she conveys a panorama of perspectives: a skier making what may prove his final decision, a victim buried so tightly that he can't move a finger, rescuers racing both time and weather, forecasters treading the line between reasonable risk and danger. Seamlessly interweaving these accounts, Fredston brings to life the awesome forces of nature that can turn the mountains deadly-and the equally inexorable forces of human nature that lure us time and again into treacherous terrain.

A motorcycle's electrical system can be daunting to even the most adept home mechanic. And yet, the more complex these systems become—and the more important to a motorcycle's function—the more useful, even critical, it will be to know something

about them. That's where this book comes in with a user-friendly guide to understanding, diagnosing, and fixing the electrical systems and components that make a bike run . . . or falter. Veteran technician Tracy Martin explains the principles behind motorcycle electrical systems and how they work. He details the various tools, such as multimeters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical problem. And in several hands-on projects, he takes readers on a guided tour of their vehicle's electrical system, along the way giving clear, step-by-step instructions for diagnosing specific problems.

The Inside Story of America's Ultimate Warriors When Osama bin Laden was assassinated, the entire world was fascinated by the men who had completed the seemingly impossible mission that had dogged the U.S. government for over a decade. SEAL Team 6 became synonymous with heroism, duty, and justice. Only a handful of the elite men who make up the SEALs, the US Navy's best and bravest, survive the legendary and grueling selection process that leads to becoming a member of Team 6, a group so classified it technically does not even exist. There are no better warriors on Earth. Don Mann knows what it takes to be a brother in this ultra-selective fraternity. As a member of Seal Team Six for over eight years and a

SEAL for over seventeen years, he worked in countless covert operations, operating from land, sea, and air, and facing shootings, decapitations, and stabbings. He was captured by the enemy and lived to tell the tale, and he participated in highly classified missions all over the globe, including Somalia, Panama, El Salvador, Colombia, Afghanistan, and Iraq. As a coordinator for several civilian SEAL training programs, and as a former Training Officer of SEAL Team Six, he was directly responsible for shaping the bodies and minds of SEALs who carried out the assassination of Osama bin Laden. But to become a SEAL, Mann had to overcome his own troubled childhood and push his body to its breaking point--and beyond. **INSIDE SEAL TEAM 6** is a high octane narrative of physical and mental toughness, giving unprecedented insight to the inner workings of the training and secret missions of the world's most respected and feared combat unit.
