Fish is currently THE rockstar ingredient - prized for its healthy benefits - but there is still a lot of fear surrounding its preparation and cooking. Mitch Tonks' book breaks down that barrier by being a modern, approachable and comprehensive guide to buying, preparing and cooking fish and seafood. Global in outlook, a species-by-species breakdown will detail how to buy fish, where it is in season (including the different names fish are given globally to aid sourcing), how to prepare it and offer a selection of delicious recipe ideas. There is also a section on fish logistics, so readers understand what is good to buy

frozen and how this fits the global resource message. With fishing methods and the issue of depleted stocks in sharp focus, Mitch also explains the paramount importance of eating fish in season. With reportage photography documenting Mitch's daily life on the docks of Brixham fishing port and peppered with stories and anecdotes from fishing communities, this book is a delight to read as well as an essential manual. Packed with over 100 delicious recipes and stunning food photography, it will tempt fish lovers the world over. Author Information Mitch Tonks is the founder of the restaurant and fishmonger chain FishWorks. There are 12 shops and restaurants, 3 cookery schools, 3 books, a range in the supermarkets and is currently working with Youngs as a consultant. He has also appeared on Saturday Kitchen and the BBC's BAFTA nominated Get Cooking broadband initiative. He contributes to magazines including Delicious and Fresh and demonstrates at major food shows around the UK.

'O Mother Lachumamma, your blouse is torn, Your hair is soiled, your sari in rags . . . Even in that condition what have you done? You planted saplings, walking backwards like a bull, In order to produce food from the mud.' Kancha Ilaiah Shepherd translates these words of the Telugu poet, singer, activist Gaddar to emphasize the productivity of the ordinary people, the Dalit-Bahujans of India, who receive so little in return. Arguing forcefully against spiritual fascism, which refuses equality or freedom to

Rhythmic Lead Guitar - Solo Phrasing, Groove and Timing for All Styles

(Musicians Institute Press). The notes of any solo are only half the story; the other, equally crucial element is the rhythm. Though there are leagues of books teaching you the scales, modes, and arpeggios that are used when soloing, there's been a great void in the available material with regards to teaching the concept of rhythm. We don't instinctually possess knowledge of which notes to use, so why would we instinctually know which rhythms to use when playing these notes? This is where Rhythmic Guitar comes into play. In this book, you'll learn the timing of notes

from the ground up, helping you to develop a solid, internal sense of rhythm that will stick with you throughout your career. You'll be armed with an intimate knowledge of a beat's anatomy, and you'll possess the tools necessary to manipulate the timing of any phrase as you see fit. With a strong command of rhythm, your solos will sound more authoritative, unique and memorable.

"Diff in June" tells a day in the life of a personal computer, written by itself in its own language, as a sort of private log or intimate diary focused on every single change to the data on its hard disk. Using a small custom script, for the entire month of June 2011 Martin Howse registered each chunk of data which had changed within the file system from the previous day's image. Excluding binary data, one day's sedimentation has been published in this book, a novel of data archaeology in progress tracking the overt and the covert, merging the legal and illegal, personal and administrative, source code and frozen systematics. The Xenophobe's Guide to the Chinese

India is known as a country not of innovation but of improvisation-or 'Jugaad', as they say in Hindi. But that has begun to change. We have enough examples in this country of people who have turned industry norms upside down to pull off the impossible in their fields. Eleven such case studies are featured in the book, including: Titan, which came out with the slimmest water-resistant watch in the world; Su-Kam, a power backup company that did not fit into an existing industry but ended up creating a new one; Shantha Biotech, which developed a low-cost Hepatitis-B vaccine and ushered in the biotechnology age in India; Trichy Police, which rewrote policing paradigms to nip extremism and crime in the bud, thus transforming the city. Through the breakthroughs achieved by these organizations, Porus Munshi shows that to do what is considered 'impossible' in your particular industry, you have to be subversive and think differently. In the process, if the existing business model needs to be turned on its head, then so be it!

Rhythm and Drumming Demystified

The lessons in Rhythm and Drumming Demystified (R.A.D.D.) utilize a process of adapting the rudiments---and the countless variations and grooves they spawn---to the framework of five systems of common rhythmic figures, as a means to increase one's control and flexibility with any sticking or time-feel. The book also contains a groundbreaking system for using the voice to develop one's "internal clock." By using this system, drummers can improve their groove by learning to generate time with their mind and allow their body to simply be a conduit between their perception of the time and its manifestation on the drumset.
